

2020

BROWNING, THE GOLDEN BRAND

2019 was a record-breaking year. Browning's two lines of sporting guns shot the brand to the top of the world championships:

- Sam Green 2019 FITASC World Sporting Clays Champion with his B525 Ultra XS
- Amy Easeman 2019 FITASC World Compak Sporting Champion with her B725 Sporter Black Edition
- Caroline Arnaudeix French Ladies Universal Trench Champion 2019, FITASC European Ladies Universal Trench Champion 2019 and FITASC World Ladies Universal Trench Champion 2019

BROWNING, FOR THOSE IN THE KNOW

BROWNING, THE BRAND

The Browning brand is about the genius of a man born 160 years ago in a small town in the American West. John Moses Browning began inventing at an early age. He had a prolific mind, and revolutionised firearms design time and time again. From the Auto-5 and the B25 to the BAR and more, every one of his designs is a milestone; every work he created is a source of inspiration for future generations. Excellence has to follow a legacy like this.

Now, as always, every shotgun, rifle, ammunition and item of equipment made by Browning undergoes a mandatory series of stringent tests so that you can be confident in the knowledge that they are reliable, high-performing and built to withstand the ravages of time.

THE PERFORMANCE

The quality of a firearm, of ammunition and the effectiveness of an item of clothing are down to observation, talent and hard work; three creative cornerstones that mean as much to Browning as its early legacy. The confidence that the Buckmark brand inspires can be traced directly to the people behind the name, and their attentiveness and desire to deliver the right solutions – our deeply held values.

Hunters and sports shooters alike are sure to find a Browning product that will take their passion to a new level.

The only thing that matters out shooting, in a hide, woodland or upland stalking, at the clay pigeon stand or in front of the target is the excitement that grips us when all the conditions are just right for turning great times into unforgettable memories.

So let us help you give it your best shot…

OUR VALUES

There is one devastatingly simple target that never leaves our sights: to bring you the best. Our teams are relentless in applying their technical expertise and aesthetic acumen to find new ways of making our current guns, ammunition and other equipment even better.

Because our engineers have a passion for our sport and a deep understanding of the challenges that face you while shooting or stalking, they bring all their personal experience to the solutions they devise and develop.

This continual fine-tuning, this increasingly meticulous scrutiny to detail ultimately makes all the difference – these are Browning's signature touches, its distinctive hallmark among other manufacturers, the proof of its commitment to delivering ever-higher performance.

OUR PLEDGE

Every shooter should be able to purchase the equipment they need and which is right for them, whatever their budget and goals, regardless of whether they follow the latest technological innovations or succumb to the charms of the eternal classics, are or would like to be discerning amateurs, recent converts or old hands. This is our belief. This is our pledge.

Browning has always adhered to this mindset when developing its product lines. The quality of our products is a true reflection of the exacting demands that drive us. What unites us is our pride.

The guns that leave our factory come with a ten-year warranty and a blend of reliability, sturdiness and effectiveness. From manufacturing to fitting and testing, and on to finishing, they each underline the uniqueness of a brand devoted to shooters who are driven by passion.

John Moses Browning devoted his entire life to guns. That story continues today in the John M. Browning Collection, which duly bears the two hallmarks of his talent: groundbreaking mechanical systems and the handmade custom finish you want. He left a huge impression on the world of gunmaking, and on the gunmaker to which he gave his name. You will find the same devoted spirit lives on today in Belgium.

B25 RENAISSANCE

JOHN M. BROWNING COLLECTION

THE B25 – HANDMADE IN BELGIUM BY EXPERTS FOR EXPERTS

The B25, king of the over-and-under shotgun, sports its exquisite, hand-engraved side-plates like a jewel in a crown. Similarly, the three-part fore-end perfectly demonstrates the craftsmanship of our gunsmiths. Sanded with extreme care, the walnut grips are attached to the barrels by means of three screws. Two plates of wood are seamlessly fitted to the barrels and held in position by three screws passing through the side ribs, with the ejector system fitted inside. Only the bottom piece moves in order to disassemble the barrels. Here are four examples of the B25 side-plate; the possibilities are endless. There are four grades of enhancements for the B25 (the Contre-Platine, D grade, C grade and B grade), of which the Contre-Platine is the best there is. It is the only grade that includes side-plates as an option. The engraving is superb, and shown here is a small sample of the wide choice available.

B25 D5G SIDE-PLATE

B25 D5G

As you would expect from the best superposed shotgun in the world, the standard of craftsmanship throughout is superb. Among them is the grade D, the ultimate range of box-lock. The frame has been hand-chiselled, filed and shaped by a Herstal master gunsmith to ensure the smoothest action, while the best quality wood has been sourced to balance elegance with hardiness. The one-piece fore-end is tulip shaped. On the stock, teardrops have the effect of making the action frame appear longer and more refined. The checkering is elaborate and exact. You can choose your engraving from the D4G, D5G or the Special Autumn models.

B25 DIANA

There is a B25 for all tastes. The grades B and C are made for those who hold that less is more, and that owning the best superposed shotgun in the world is beauty enough. The grade C includes quality woodworking, checkering, teardrops, one-piece fore-end, black Browning butt-plate and a Heritage case. Choose your engraving from the C2G, C3, Special or Diana models.

B25 B2G

The grade B is the purist's preference, the 'naked' B25. It's all about the mechanics, tolerances and materials. But it still makes concessions to form. Engraving can be chosen from the B2G, B7 Evolution or Sporter New Generation models. Each comes with grade B woodworking and checkering, a one-piece fore-end, Browning butt-plate and a Heritage case.

HAND FINISHED B15 IN BELGIUM

B15 BEAUCHAMP GRADE E 12M

B15

THE LEGEND REINVENTED

The B15, the shotgun the Browning faithful have been waiting for, was developed in 2015, 90 years after the B25 changed the gun world forever. Like its illustrious predecessor, the hand-finished B15 was developed and refined by the gunsmiths at the Fabrique Nationale in Herstal. That means you can expect balance and reliability. You can also expect precision engineering and the finest of aesthetic finishes. The B15 is available in four grades with a choice of exceptional engravings and wood quality.

B15 BEAUCHAMP GRADE D 12M

B15 BEAUCHAMP GRADE C 12M

B15 BEAUCHAMP GRADE B 12M

B15 BEAUCHAMP GRADE D 20M

B15 BEAUCHAMP GRADE C 20M

B15 BEAUCHAMP GRADE E 20M

Four years after it was developed, the B15 is now available in 20-gauge models. The engravings feature slight variations from the 12-gauge models, but the same DNA can be seen in the hunting scenes on grades B and D and the chimæra on grades C and E. And the philosophy is unchanged: sophisticated efficiency. True shotgun connoisseurs will be won over by the B15, appreciating its style for sure, but enjoying the technical quality even more.

Browning is the name behind more than 550 FITASC competition medals since 2009. Champions trust us because our expertise is born of a long-standing tradition of excellence that never lets them down. But we don’t rest on our laurels at Browning. Every year, we push the boundaries with our innovations to keep our shooters among the medals.

PERFORMANCE – EXCELLENCE – ADAPTABILITY

1

STOCK COUNTERWEIGHT

The Pro Balance System allows shooters to fine-tune the balance points for a perfect mount and swing. Adding counterweight to the stock helps balance the shotgun, aids follow-up shots and the additional mass reduces felt recoil (see pages 23 and 160).

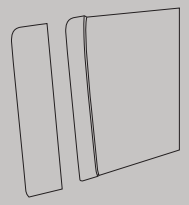

Stay balanced: simply add weights to the stock

2

INTERCHANGEABLE RECOIL PADS

The B725 Pro range is supplied with interchangeable 15mm or 25mm recoil pads. They will enable you to adjust the length of your stock without the slightest difficulty (see page 160).

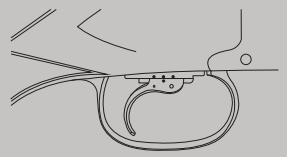

25 mm 15 mm

A choice of pads gives you two options for extending your stock

3

ADJUSTABLE TRIGGER

The adjustable Triple Trigger System lets you make minute changes to the finger-trigger position on target shooting models. It includes three trigger shoes: wide chequered, narrow smooth and wide smooth canted.

Pick a trigger shoe and a finger-trigger position

B725 PRO MASTER ADJUSTABLE

NEW

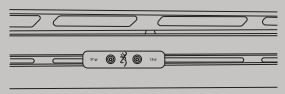

SHOOTER AND GUN AS ONE

The B725 Pro range has been designed to provide a perfect gun fit whether you're shooting Sporting or Compak. The advanced engineering of its adjustable comb, cutting-edge recoil pad and Invector DS™ Extended chokes are further enhanced by the groundbreaking Pro Balance System that lets you redistribute the weight of the stock and barrels to fine-tune the gun's balance just the way you want it.

4

BARREL COUNTERWEIGHT

The barrel's counterweight is comprised of tungsten plates which enable the gun's centre of gravity to be moved up to 20mm forwards (see pages 23 and 160).

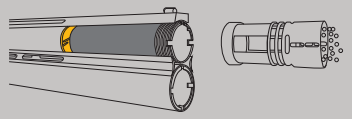

Complete your gun fit by fitting weights to your barrel

5

INVECTOR DS™ CHOKES

The Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80mm, an exclusive internal shape and a patented gas seal segment (see pages 40 and 158).

EXCELLENCE BY BROWNING

Every day, clayshooters are adding to the reputation for excellence of Browning sporting shotguns, which combine outstanding performance with reliability.

The new B725 Pro Master joins the Pro Sport and Pro Trap models in the B725 Pro range. This hybrid Sporting/Trap gun is adjustable for a better body fit and comes with a wide range of accessories to help you exceed your goals.

—

BROWNING, FOR THOSE IN THE KNOW

B725 PRO

B725 PRO SPORT ADJUSTABLE

Controlled adjustability: customise this model the way you need it.
Not only do you get the specific features behind the success of the B725 Pro line, you can also configure the weight, pitch, comb and trigger to your shot.

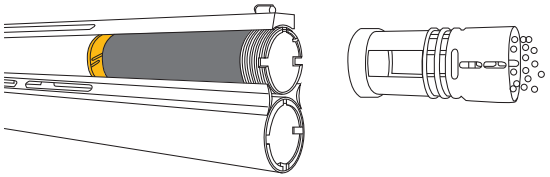

B725 PRO TRAP ADJUSTABLE

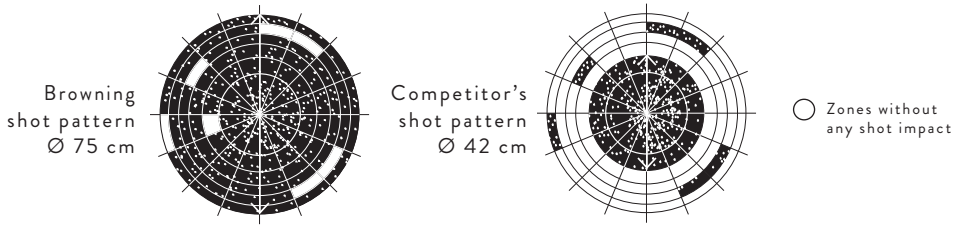

Browning has pushed performance potential to the extreme by adding two strikingly innovative developments to this famous model's original qualities, and further enhancing the balance of an over-and-under shotgun that was designed to be an extension of the shooter's body: a fully adjustable cheek piece; and a stock and barrel assembly with the Pro Stock and Barrel Balancers technologies respectively. The result is a B725 Pro Trap that becomes part of you.

INVECTOR-DS™CHOKES

Adjustable Invector-DS™ chokes have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'the perfect spread' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun for the distances at which you shoot and the game you are hunting (**Full Choke** = 35 m, **3/4 Choke** = 30 m, **1/2 Choke** = 25 m, **1/4 Choke** = 20 m**, Cyl** = 15 m, see page 158).

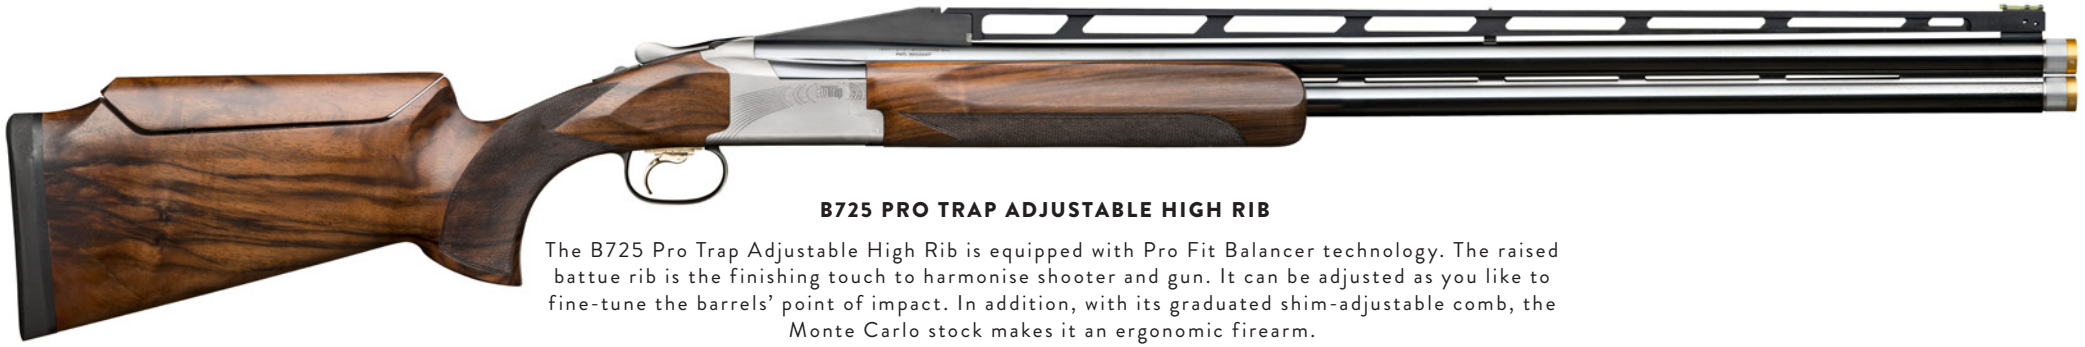

1/2 CHOKE AT 25 M

B725 PRO TRAP

This model is a new version of the B725 Pro Trap High Rib. It combines unmatched firing comfort with high performance. Its secret? The Pro Balance System, a brand new adjustment system for fine-tuning the gun's balance by modifying the weight of the stock and the barrels as required. Fitted with eight Invector DS™ Extended chokes, Hi-Viz CompSight fibre-optic front sights and two extra triggers, it can be adapted to the requirements of the most demanding sport shooters.

B725 PRO TRAP ADJUSTABLE HIGH RIB

The B725 Pro Trap Adjustable High Rib is equipped with Pro Fit Balancer technology. The raised battue rib is the finishing touch to harmonise shooter and gun. It can be adjusted as you like to fine-tune the barrels' point of impact. In addition, with its graduated shim-adjustable comb, the Monte Carlo stock makes it an ergonomic firearm.

B725 SPORTER

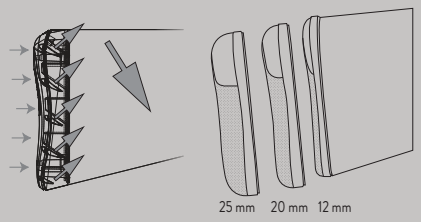

THE LEGENDARY STRENGTH IS NOW COMBINED WITH REVOLUTIONARY DESIGN AND FEATURES

1

INFLEX™ II RECOIL PAD

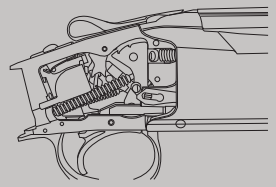

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock (see page 160).

2

HIGH-PERFORMANCE MECHANICAL TRIGGER SYSTEM

This firing system is shorter, faster and lighter giving more control over your shooting. Browning's innovative mechanical firing system provides great ease of use, guaranteeing that a second shot can be fired whatever the circumstance.

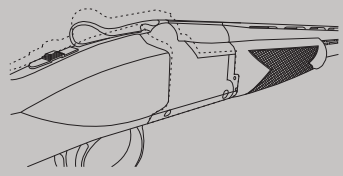

3

LOW ACTION FRAME

The low action frame provides the benefit of faster aiming and, therefore, more instinctive shooting. The frame's inline recoil reduces muzzle flip providing a more comfortable shooting position, making it highly manœuvrable and effective when shooting.

ACTION FRAME GUARANTEED FOR TEN YEARS.

4 5

B725 SPORTER G5

STYLE AND TECHNIQUE IN PERFECT BALANCE

The Browning B725 is an aesthetic and technical revolution in over-and-under shotguns.
Based on the legendary B25, it is innovative whilst retaining the many existing design features of the B525,
which make it the most outstanding over-and-under shotgun on the market.

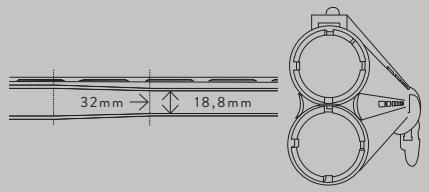

TECHNICAL SPECIFICATIONS

B525

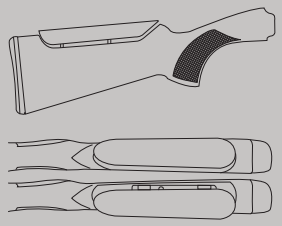

THE MOST RELIABLE AND BEST PERFORMING LINE

1

ADJUSTABLE COMB

The Pro Fit adjustment system lets you position the comb just where you need it and use the adjustment screw to trim the drop and cast. Easily visible markings take the guesswork out of adjusting or refitting the comb after removal.

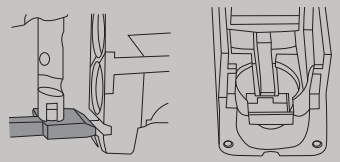

2

FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made from indestructible forged steel.
- Extra-wide flat bolt and hinge pin.
- Impact wheel ejectors for cleaner ejection.
- Chrome-plated barrels and chambers.

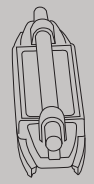

(See page 46).

3

2.7MM HI-VIZ GREEN FRONT SIGHT

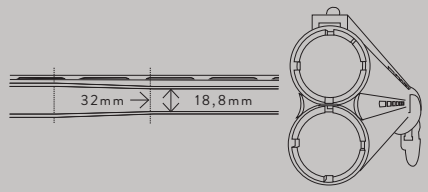

The Hi-Viz CompSight fibre-optic front sight gives you a superior aim in daylight and low light conditions, and is available in a variety of colours. CompSight has been adopted by many shotgun competition shooters and is the sight of choice for national and Olympic champions.

4

BACK-BORED™ BARREL

The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

B525 SPORTER LAMINATED ADJUSTABLE

NEW

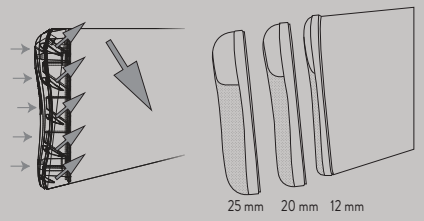

SHOOTER AND GUN AS ONE

This B525 SL adds another distinguishing feature to its hallmark sporty and aggressive style, with uniformly compact laminated wood that provides superior rigidity for a perfectly stable shot.

5

INFLEX™ II RECOIL PAD

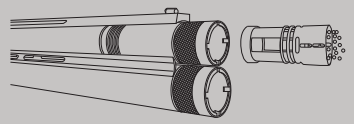

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock (see page 160).

6

INVECTOR-PLUS™ EXTENDED CHOKES MIDAS

Adjustable Invector-Plus™ Extended chokes Midas have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'a perfect target' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting (**Cyl** = 15m, **1/4 Choke** = 20m, **1/2 Choke** = 25m, **3/4 Choke** = 30m).

BROWNING, THE GOLDEN BRAND

SAM GREEN 2019 FITASC WORLD SPORTING CLAYS CHAMPION

Browning once again reinforces its status in the sports-shooting world with the title of 2019 FITASC World Sporting Clays Champion.

Official Browning shooter Sam Green took the World Championship gold at the prestigious E.J. Churchill range.
This title adds another medal to the extensive collection that Sam and his Ultra XS have been building up over the last few years.

—

BROWNING, FOR THOSE IN THE KNOW

B525

SAM GREEN, 2019 FITASC WORLD SPORTING CLAYS CHAMPION

B525 TRAP ONE

The guiding principle of the B525 Trap One is to make efficiency available to all. And the price is intended to let everyone enjoy Browning's sports shooting expertise. The stock and the fore-end have been shaped to meet the specific requirements of clay shooting in full. This model - with 'Trap One' proudly engraved on the action frame - also comes with four Invector-Plus™ chokes.

B525 SPORTER ONE 20M

This model retains all the original features that made the B525 Game One a success and tailors them to the specific requirements of clayshooting. The Auto Safety system and an Inflex™ II recoil pad are available, while the 10mm-width ventilated top rib offers faster, more instinctive target acquisition. This attractively priced 20 Magnum has a stock made from grade 2 American walnut and the gun is engraved with the same designs as its hunting counterpart.

ULTRA XS PRO ADJUSTABLE COMB

In July 2019, Sam Green and his Ultra XS became FITASC World Sporting Clays Champion.
It is supplied with eight Invector Titanium extended chokes, two spacers, three Inflex™ recoil pads and three trigger shoes.
The Ultra XS Pro Adjustable Comb can thus be balanced on demand thanks to a clever weight and counterweight system (gunstock and barrel). The Ultra XS Pro Adjustable Comb is equipped with an adjustable cheek-piece and a trap fore-end.
Its technical innovation in no way impairs its elegance, as can be seen in the new engraving decorating its action frame and the grade 4 wood with oiled finish.

B525 SPORTER ONE 12M

The B525 is the only shotgun to be hand-fitted. Fitting important parts is done employing traditional methods (using red ochre) so as to make the Browning B525 the reference in shotguns.
The attention to detail is unique, just like the 'Browning feeling' when the gun locks on closing.
This model is also available in short stock and trap fore-end versions.

CYNERGY

THOROUGHLY MODERN STYLING

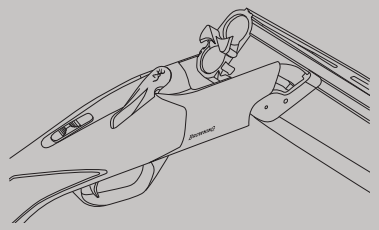

1

ACTION FRAME: 60MM, THE LOWEST ON THE MARKET

The exclusive integrated hinge system gives an ultra-low action frame, which has the advantage of making it a natural extension of the shooter.

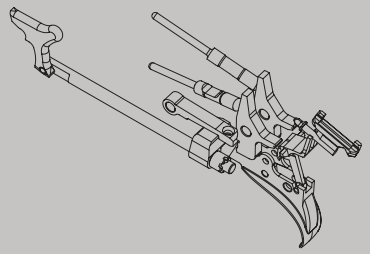

10-YEAR ACTION FRAME WARRANTY.

2

FAST FIRING SYSTEM: 0.0019 SECONDS

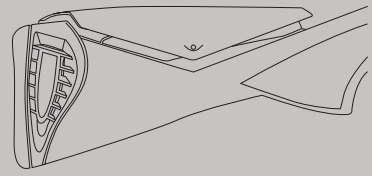

The specific striker mechanism on this shotgun cuts the time between the first and second shots to just 0.0019 seconds, compared to 0.0031 seconds for its nearest rivals.

3

INNOVATIVE DESIGN

The exclusive structure of this pad absorbs 1.5 to 2 times more recoil than a conventional pad. The stock length can be adjusted easily and efficiently by 32mm with three recoil pads and an insert.

CYNERGY COMPOSITE BLACK

NEW

STAY AHEAD OF THE GAME!

Cynergy gives you the lowest action frame on the market (60mm) and the fastest firing system (0.0019 seconds).
Cynergy is also aesthetically modern and attractive, an innovative design carried by trim, fine contours and a slender outline.
The composite stock and fore-end make the Cynergy shotgun significantly light and rugged.
Finally, the Cynergy's Back-bored™ barrels are also suited to high-performance steel shot shells.

WHEN HUNTING BECOMES AN ART

This Heritage Hunter 20M Inv model is equipped with a stock made from carefully oiled, high-quality walnut, while its pistol grip and tulip fore-end pay full tribute to its predecessor, the B25.

HERITAGE SPORTER II

The Heritage Sporter combines the performance of a modern shotgun with the elegance of a true deluxe gun. It has the lines of the hunting model with its magnificent side plates, but with the specifications of the Sporter versions. The pistol gunstock and tulip forearm are made from beautiful, oil-finished walnut. Each gun is beautifully engraved.

B725 HUNTER

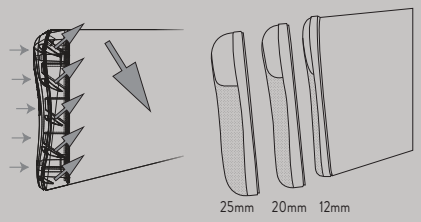

THE LEGENDARY STRENGTH IS NOW COMBINED WITH REVOLUTIONARY DESIGN AND FEATURES

1

INFLEX™ II RECOIL PAD

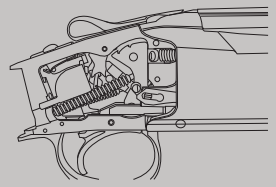

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock (see page 160).

2

HIGH-PERFORMANCE MECHANICAL TRIGGER SYSTEM

This firing system is shorter, faster and lighter giving more control over your shooting. Browning's innovative mechanical firing system provides great ease of use for hunters and shooters, guaranteeing that a second shot can be fired whatever the circumstance.

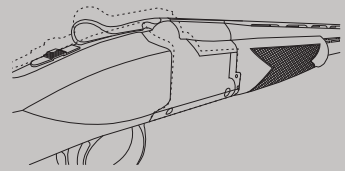

3

LOW ACTION FRAME

The low action frame provides the following benefits when shooting. It enables faster aiming and therefore more instinctive shooting. Thanks to the frame's inline recoil providing a more comfortable shooting position, it reduces muzzle flip and makes for good manœuvrability and effectiveness when shooting.

ACTION FRAME GUARANTEED FOR TEN YEARS.

4 5

B725 HUNTER G5 12M INV DS

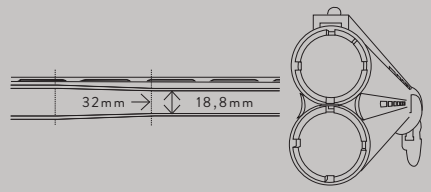

'LEGENDARY RELIABILITY' AND 'INNOVATION' ARE THE B725'S WATCHWORDS

The Browning B725 is an aesthetic and technical revolution in over-and-under shotguns. Based on the legendary B25, it is innovative whilst retaining the many existing design features of the B525, which – we are proud to repeat – makes it the most outstanding over-and-under shotgun on the market.

4

BACK-BORED™ VECTOR PRO™ BARREL

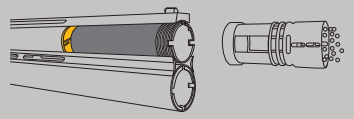

The Back-bored™ Vector Pro™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

5

INVECTOR DS™ CHOKES

The Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80mm, an exclusive internal shape and a patented gas seal segment (see pages 40 and 158).

B725 HUNTER

B725 HUNTER UK PREMIUM II 12M & 20M INV DS

The B725 UK Premium II range reaches new aesthetic heights with beautifully honed contours. It sports a new gunstock delightfully complemented by a rounded pistol grip, and the spirit of feathered game remains eternal through a new series of engravings depicting partridges and pheasants on the 12-gauge model, and pheasants and woodcock on the 20-gauge version.

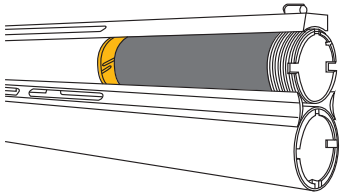

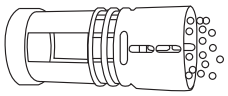

B725 HUNTER UK BLACK GOLD II 12M & 20M INV DS

This B725 is available in both 20-gauge and 12-gauge versions, and now comes with a rounded pistol grip stock. Its elegant black action frame features new hunting scenes with partridges, prominently highlighted in gold to eye-catching effect, alongside pheasants (12-gauge) and woodcock (20-gauge).

INVECTOR DS™ CHOKES

Invector DS™ chokes offer the best performance on the market. At 80mm long and with an exclusive internal shaping, they are designed to deliver the finest performance at any shooting distance. They also ensure better pattern consistency for lead and steel shot. Finally, their patented gas seal limits the spread of gases to keep the choke clean, and makes them easy to remove (see page 158).

INVECTOR DS™

B725 HUNTER PREMIUM 12M & 20M INV DS

Slim, elegant, this B725 (12 or 20-bore) is remarkably effective. Its rapid, accurate swing associated with its Back-bored™ Vector Pro™ barrels and Invector DS™ chokes, will give you outstanding performance and perfect balance. This elegant model with its pistol grip is your faithful companion when hunting small game, and will bring you complete satisfaction.

B725 HUNTER LIGHT PREMIUM 12M & 20M INV DS

Its action frame in lightweight aluminium reduces the weight of the gun by over 300g for an even easier swing. Shouldering, tracking and hitting your target become one fluid movement: Its Back-Bored™ barrels, five Invector DS™ chokes, and 20mm recoil pad are a credit to modern technological progress, while the exquisitely designed nickel-plated aluminium receiver and grade 3 walnut woodwork make it an over-and-under shotgun of great distinction.

BROWNING, FOR THOSE IN THE KNOW

B525

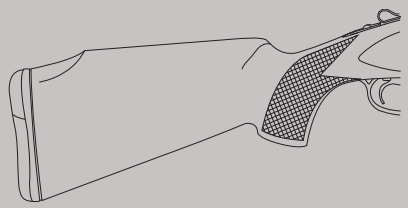

A PERFECT MECHANISM AND A REAL FEELING OF FREEDOM

1

STOCK OF THE B525 LIBERTY LIGHT 12M INV+

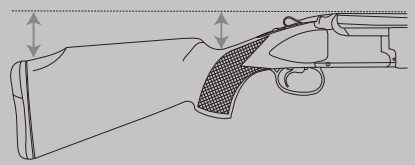

This is a new stock developed for ladies, young people and shooters who are not completely satisfied with standard measure stocks.

2

DROP

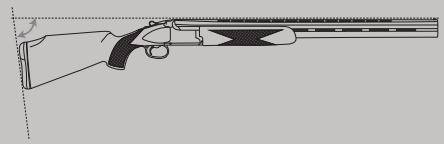

The drop is the height of the back of the stock in relation to the top rib. The drop of the B525 Liberty Light 12M Inv+ is higher than standard stocks. This feature allows the shooter improved cheek contact on the back of the stock and thus limits recoil impact.

3

PITCH: TOTAL COMFORT

The 80° tilt limits the toe-to-chest contact for optimum comfort and lower recoil.

B525 LIBERTY LIGHT 12M INV+

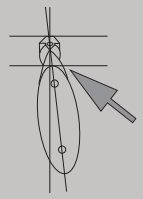

BALANCE AND LIGHTNESS

A new and carefully-designed stock will please women, youngsters and hunters who find regular stocks wanting. That's the main characteristic of this 12 Magnum shotgun. It has an aluminium action frame decorated with new engravings and possesses a Monte Carlo style stock with an adapted pitch, a pistol grip and two recoil pads supplied in the box. Well balanced and light, its level of technical perfection will give you a feeling of real liberty.

4

ADVANTAGE OF 4MM-10MM

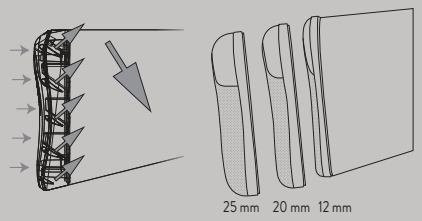

The advantage is in the tilt of the recoil pad in relation to the axis of the top rib. This advantage has been modified with respect to standard models and will be clearly preferable for ladies without impairing men's comfort when shooting.

5

LENGTH OF RECOIL PADS

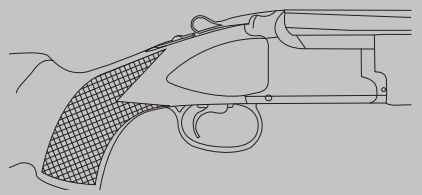

The B525 Liberty Light 12M Inv+ is delivered with three Inflex™ II recoil pads, combined with a grip that is adapted for small hands and a trigger system, both of which are adjustable. It is easy to configure it for perfect ergonomics (see page 160).

6

ALUMINIUM ACTION FRAME AND VENTILATED RIBS

The alloy action frame and the ventilated ribs of the B525 Liberty Light 12M Inv+ produce a lightweight gun. Its 8mm ventilated rib allows it to be used for both all kinds of sporting shooting.

B525 GAME ONE

B525 GAME ONE LIGHT 12M INV+

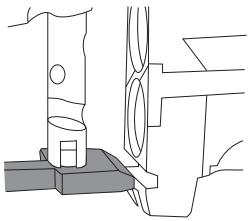

This model retains all the features of the B525 Game One 12 Magnum and combines its inherent qualities with a light-alloy receiver for lower weight. This is the perfect gun for shooters who like swing with solid calibres.

B525 GAME ONE LIGHT 20M INV

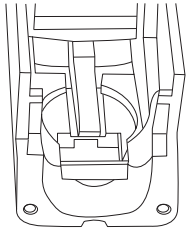

The special features of the 20 Magnum calibre B525 Game One Light that make it so successful are: grade 2.5 wood with oiled finish, a pistol grip combined with a tulip fore-end, four Invector chokes and a fine 6mm ventilated rib. What is more is actually less. This light version, equipped with an aluminium action frame, now weighs only 2.7kg. With this lightweight gun, you can walk up game without getting over-tired.

ACTION FRAME GUARANTEED FOR TEN YEARS

FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made of indestructible forged steel.
- Wide flat bolt which guarantees locking surfaces which are three times greater than other systems.
- A unique hinge pin, wide diameter, guarantees optimal resistance to wear. A guarantee of long-life.
- Impact wheel ejectors: straighter, more powerful ejection than retaining ejectors.
- Chromed barrels and chambers, don't rust, easy maintenance.

B525 GAME ONE 12M INV+

The B525 Game One is your ideal hunting partner. Reasonably priced, it is the basic model Browning over-and-under hunting gun. Its action frame is made from a single block of forged steel. Available with the Auto Safety system, its lightweight Back-bored™ barrels and Invector-Plus™ chokes make it a great choice for bird shooting.

B525 GAME ONE 20M INV

We have followed up on the success of the B525 Game One with a small-gauge version. This is the entry-level 20-gauge over-and-under shotgun and it comes at a highly affordable price.

A5

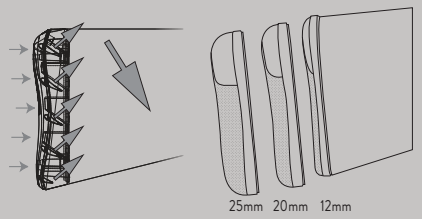

THE KINEMATIC DRIVE™ SYSTEM IS YOUR 100,000-ROUND WARRANTY*

1

INFLEX™ II RECOIL PAD

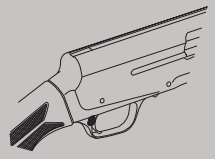

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock (see page 160).

2

HUMPBACK

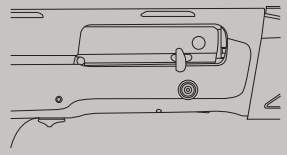

Made from lightweight, aeronautic quality aluminium alloy, the A5's receiver is sturdy and its characteristic shape is much more than just a nostalgic return to the past. The receiver's familiar humpback shape fits perfectly with the rib for lengthening your line of sight, which helps you to aim naturally with faster targeting.

3

SPEED LOADING AND UNLOADING SYSTEM

Rapid loading systems have been used on Browning semi-automatic shotguns for decades. Our patented Speed Load Plus system chambers the first round straight from the magazine, and unloads quickly without having to run the bolt to chamber each shell.

6

5

A5 ULTIMATE PARTRIDGES INV DS

BUILT TO LAST: 100,000-ROUND WARRANTY*

The A5 was developed to be the most reliable, fastest and gentlest inertia-driven semi-automatic shotgun on the market. The new, indefatigable Kinematic Drive™ system is what makes it so unfailingly reliable, while further innovative features such as the Invector DS™ chokes, Inflex™ II recoil pad and Speed Load Plus load/unload system add to the A5's technological punch.

4

KINEMATIC DRIVE™ SYSTEM

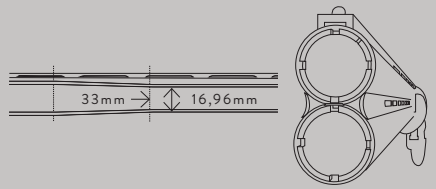

The system accumulates recoil energy and converts it into a mechanical movement for actuating moving parts. It's the simplicity of its design that makes the Kinematic Drive™ system work so efficiently, smoothly and reliably with any type of load and in any type of extreme weather, temperature, damp and dirt.

5

BACK-BORED™ VECTOR PRO™ BARREL

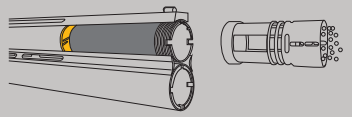

The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

6

INVECTOR DS™ CHOKES

The Invector DS™ chokes offer unrivalled performance by providing an optimal length of 80mm, an exclusive internal shape and a patented gas seal segment (see pages 40 and 158).

A5 GRAND PASSAGE INV DS

Here is the terror of all wildfowl and pest birds! The A5, available in 12/89 (3½in), includes Invector DS™ chokes and now comes with a hi-tech, ceramic-based Cerakote finish on the barrel, receiver and breech handle, designed to protect against natural wear and corrosion. Its Camo Max 5 composite gunstock and fore-end continue to make it the duck and pigeon shooter's ideal companion!

A5 ONE 16 INV DS

The A5 One 16 Inv DS is weighted close to a 20-gauge, for greater ease of handling. But the barrel can handle heavier loads than a 20-gauge, giving it near 12-gauge performance. The A5 One 16 Inv DS also has a surprisingly gentle recoil, is light, available with a 26in or 28in barrel, and comes with two Invector DS™ chokes.

A5 ONE INV DS

The A5 ONE Inv DS is the starter version of the A5 family, with an understated receiver that is enhanced by the walnut stock and fore-end. It features all the technical specifications behind the success of the A5. It is available in 12 and 16-gauge.

MAXUS

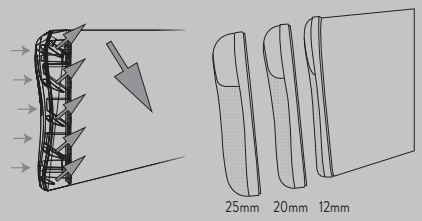

COMFORT AND LIVELINESS WITH OPTIMAL PERFORMANCE

1

INFLEX™ TECHNOLOGY

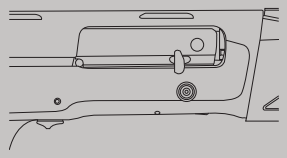

Much more than a recoil pad in a recoil-absorbing material, the Inflex™ II has been designed with an internal structure that lowers the gunstock and pushes it away from the shooter's face after each discharge, which allows a second shot that is even more comfortable and faster (see page 160).

2

SPEED LOADING AND UNLOADING SYSTEM

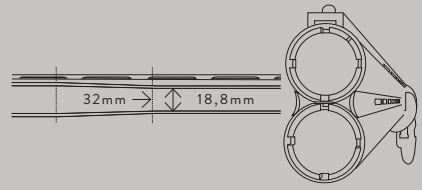

Rapid loading systems have been used on Browning semi-automatic shotguns for decades. Our patented Speed Load Plus system chambers the first round straight from the magazine, and unloads quickly without having to run the bolt to chamber each shell.

3

BARREL ASSEMBLY

The new geometry of the extended Vector Pro™ forcing cone together with the Back-bored™ barrel eliminates the deformation of shot, making it possible to improve the shot pattern and reduce recoil sensation.

3

MAXUS SPORTING BLACK CARBON FIBER INV+

5

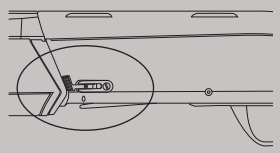

LIKE THE OTHER BROWNING BRAND GUNS,
THE MAXUS RANGE CONTINUES TO DEVELOP

This gun has been specially designed for sportshooting. The ventilated rib, tapered from 8mm to 6mm, gives faster targeting. The carbon finish gives it a modern look. Unlike the hunting Maxus, the Maxus Sporting Black Carbon Fiber Inv+ does not have a magazine cut-off.

4

MAGAZINE CUT-OFF

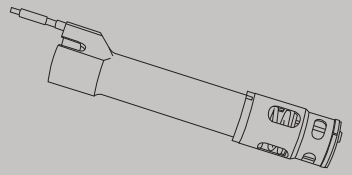

All our Maxus guns, with the exception of the Sporting models, are fitted with a magazine cut-off for unloading and replacing the chambered shell with a new load without having to cycle the new shell from the magazine.

5

POWER DRIVE GAS SYSTEM

The Power Drive Gas System uses larger escape valves to remove gas more quickly with heavy loads. A brand new patented design for an integrated valve keeps residue outside the mechanism for cleaner functioning. A 20% increase in the piston run increased makes it even more reliable with light charges. The system works with loads of 24g to 64g.

Unrivalled shooting comfort: the advanced gas-operated mechanism can fire 24g to 64g loads.

Unique innovation: the 'Speed Load Plus' system chambers the first round straight from the magazine without having to run the bolt.

Ultra high-performance trigger: the Lightning trigger system is 24% faster than like-for-like rival semi-auto shotguns.

—

BROWNING, FOR THOSE IN THE KNOW

MAXUS

MAXUS ULTIMATE PARTRIDGES INV+

The delicate engraving representing partridge hunting scenes on one side and pheasants on the other gives it a real up-market feel. Its brushed nickel-coated receiver is a little gem. Its stock and fore-end are made from grade 3 oil-rubbed walnut.

MAXUS ONE INV+

Maxus One Inv+ is the entry level semi-automatic gas operated rifle by Browning. It features all of the technical characteristics that make Maxus such a success and is sold at an affordable price, which makes it your perfect value hunting shotgun.

MAXUS BLACK GOLD INV+

The Black Gold version further refines the lines of the Maxus semi-automatic with an anodised black receiver from which two engraved gilt ducks loom like hope, seemingly about to land. Not to be outdone, the gunstock and fore-end are fashioned in attractive grade 3 wood.

MAXUS

MAXUS ULTIMATE DUCKS COMPOSITE

The fine engravings of duck hunting on one side and pheasant hunting on the other confer a touch of exceptional style. The receiver is nickel-plated. The stock and fore-end are composite.

MAXUS CAMO MAX 5 INV+

A model designed par excellence for waterfowl hunters. The gun is coated with the Max 5 camouflage film, the most effective camouflage for waterfowl. It has a super-magnum chamber so you can shoot 70mm-89mm steel shot cartridges.

NEW

MAXUX CAMO A-TACS INV+

Perfect for marshlands or woods, this Maxus Super-Magnum is made of a composite material, with a fine A-TACS AU camo finish: nothing better for blending into the landscape while you wait for the birds to arrive.

BAR

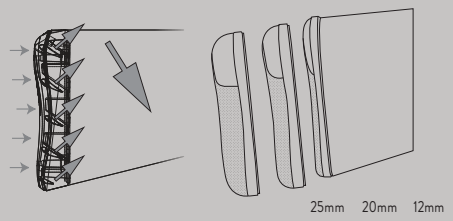

EFFICIENT – RELIABLE – SAFE

1

INTERCHANGEABLE BUTT-PLATE

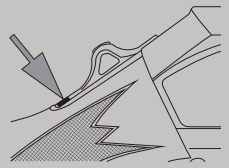

BAR rifles are fitted with interchangeable Inflex™ II recoil pads on their butt-plates. Different thicknesses are available: 12mm, 20mm or 25mm. These butt-plates enable you to adjust the length of your stock without difficulty (see page 160).

2

HAND COCKING SYSTEM SAFETY GUARANTEED

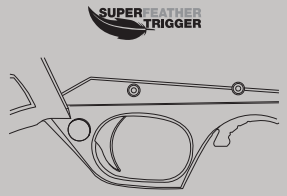

The manual cocking system lets you literally cock your rifle, by moving the arming plunger forwards, which puts the hammer springs under load. Your gun is now ready to fire. You can disarm your gun just as easily by pushing the button.

3

TRIGGER SYSTEM IS A GLASS-BREAKER

When you want absolute precision, this trigger system is short and incredibly direct. The trigger system offers you that rewarding sense of breaking a glass bar as you squeeze into a shot.

4

THE LOWEST MOUNTED RED DOT ON THE MARKET

- The red dot is mounted low and forwards for a fast and instinctive aim.
- Perfect alignment with the stock, without a comb.

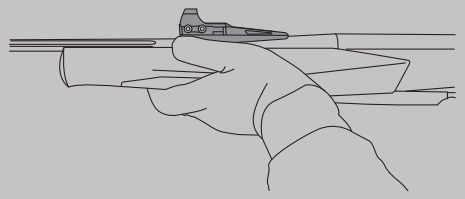

"REFLEX": THE REVOLUTIONARY AIMING SYSTEM

Thoroughly modern styling, natural handling, excellent ergonomics: the new BAR Reflex in a nutshell. With the new K1 red-dot sight from Kite Optics fitted, this rifle is a revolution: low and forward position, natural handling and easy adjustment.

5

OPTIMUM ERGONOMICS

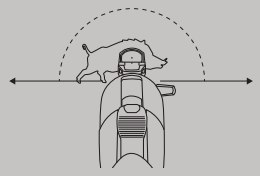

- Handles naturally.
- Easily adjustable red-dot brightness.
- Integrates elegantly with the gun.

6

K1: MAXIMUM FIELD OF VIEW

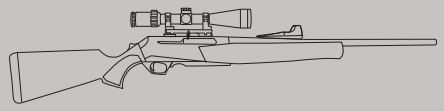

The Kite K1 was developed to render the edge of the sight practically invisible, to make fast target acquisition easier and provide maximum field of view.

7

MULTIPLE SCOPES ON MULTIPLE GUNS

Add a scope with Nomad removable mount system while keeping the red-dot.

BAR MK3

BAR MK3 COMPOSITE BROWN

The BAR Mk3 Composite is dressed in matte black with a beautiful brown gunstock and fore-end. This semi-automatic with fully adjustable comb comes with a Nomad scope rail (see pages 156-157) and is sure to be a hit when hunting large, moving game.

BAR MK3 TRACKER

This model will delight driven hunt enthusiasts. Safety comes first in this model as it features orange inserts on the gunstock and fore-end. Then there is the 18½ in fluted-barrel profile and Super Feather Trigger combination to guarantee unprecedented accuracy and faster action.

NEW REFLEX READY

Available in a left-handed version

NEW REFLEX READY

Available in a left-handed version

BAR MK3 COMPOSITE BLACK

In addition to the extremely consistent contours, the BAR Mk3 Composite Black boasts a fluted barrel with a profile for outstanding accuracy on driven hunts and in blinds. Safety is guaranteed by the hand-cocking system that is as intuitive as it is reliable. Finally, the rubber grips ensure perfect handling.
The BAR Mk3 Composite Black – understated and effective at an eye-catching price.

BAR MK3

BAR MK3 REFLEX

BAR MK3 REFLEX:
SPEED UP YOUR REFLEXES

Extremely versatile, supremely ergonomic and comfortable to use - the perfect match offered by the BAR Mk3 and the K1 red-dot sight from Kite Optics.

The Reflex system doesn't just remove the need for an adjustable comb; it also gives you a low aim that is a lot more instinctive. The moment you aim, you only see two things: the K1 red dot and the quarry.

—

BROWNING, FOR THOSE IN THE KNOW

BAR MK3

BAR MK3 REFLEX HUNTER

The point of aim on the new BAR Reflex Hunter is 6mm lower than the lowest red dot on the market. Its dynamic position gives you a fast aim and superb recoil absorption. Now you don't need an adjustable stock. With the perfect field of view on and around the target, and its perfect ergonomic design with just two settings buttons, this new BAR will give you unrivalled shooting comfort.

BAR MK3 ECLIPSE

This version, which possesses all the technical specificities of the BAR Mk3 range, is also exceptional due to the remarkable grace of its aesthetic qualities. Its piped, satin barrel and its delicately nickel-plated receiver – adorned by a new engraving representing roe deer and wild boar – pay homage to the rustic charms of hunting.

NEW

REFLEX READY

BAR MK3 HUNTER

An anodised black receiver, brushed side-faces, top and bottom and the stock and fore-end in grade 2 oil-rubbed walnut, the BAR Mk3 Hunter is the end result of particularly neat and inventive work. Fitted with an adjustable foresight, its 53cm piped barrel possesses a profile that emphasises the accuracy of a gun that also offers excellent firing capabilities thanks to its Super Feather Trigger system.

BAR ZENITH

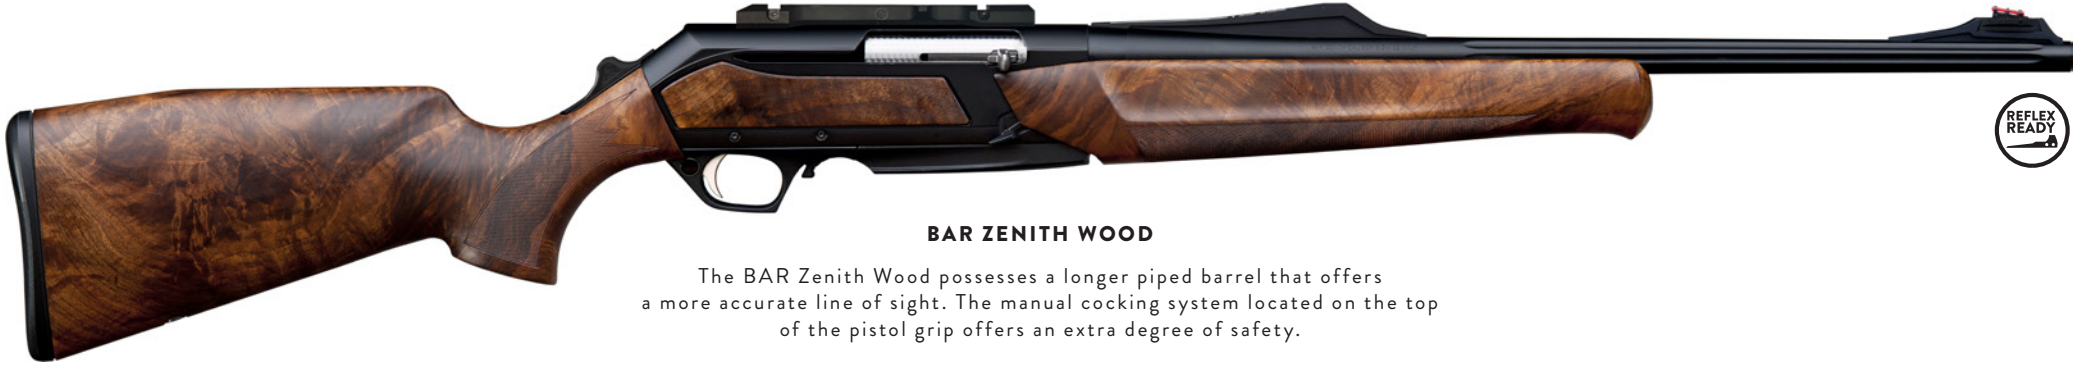

Classic cheek piece

BAR ZENITH PLATINUM

Scope not supplied (see below for more information about Kite optics)

Incorporating all the technical characteristics of the BAR Zenith range, and equipped with a classic cheek piece stock, this model stands out because of its elegance: all the wood parts are grade 5 walnut, and the receiver, nickelled, is superbly engraved with scroll designs in a classic style.

BAR ZENITH WOOD

The BAR Zenith Wood possesses a longer piped barrel that offers a more accurate line of sight. The manual cocking system located on the top of the pistol grip offers an extra degree of safety.

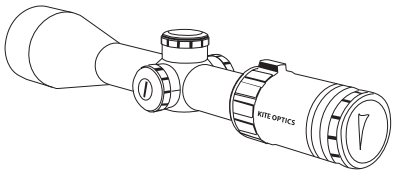

REFLEX READY

Guns indicated by the Reflex Ready symbol are ready to be fitted with K1 reflex technology from Browning.

REFLEX READY NEW

KITE OPTICS, THE UNCONDITIONAL PERFORMANCE ON DRIVEN HUNTS

Browning has joined forces with famous optics specialist, Kite Optics, to develop a range of high-performance hunting scopes. The K6 range has been developed by hunters, for hunters. The scopes combine best optics performance (more than 93% light transmission) solid construction, metal throughout, a fine and precise mechanism, as well as easy handling, even when wearing gloves. All scopes carry a lifetime guarantee.

MARAL

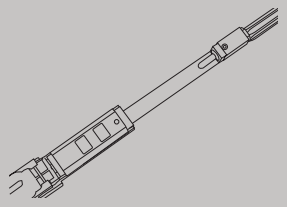

THE MOST EFFECTIVE STRAIGHT-PULL ACTION RIFLE: SURER, MORE ERGONOMIC, FASTER

1

QUICK RELOADING SYSTEM

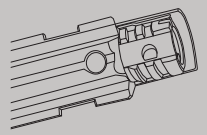

The servo bolt return system combines maximum safety, speed and efficiency. Thanks to the time gained in the reloading phase, shooters can concentrate on their shooting.

2

SAFETY GUARANTEED

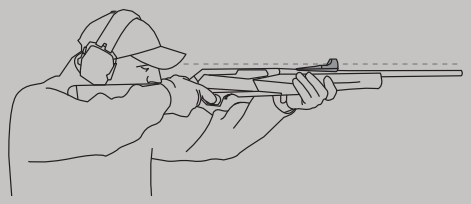

- Hand cocking system.
- Breech contained inside its casing: no inconvenience when reloading.
- Seven-lug bolt: a bolt renowned for its sturdiness, which guarantees exceptional safety and accuracy.

3

THE LOWEST MOUNTED SIGHT ON THE MARKET

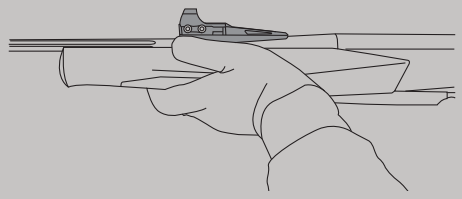

- Low and forward mounted for a fast and instinctive aim.
- Perfect alignment without a comb.

4

OPTIMUM ERGONOMICS

- Handles naturally.
- Easily adjustable red-dot brightness.
- Integrates elegantly with the gun.

MARAL REFLEX COMPOSITE

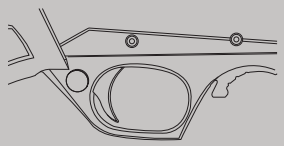

SPEED UP YOUR REFLEXES

The new Maral Reflex handles naturally, and with its near-perfect ergonomics, it has much to offer.
It features a point of aim 6mm lower than the lowest red dot on the market. An adjustable stock is unnecessary.
Its perfect field of view on and around the moving target offer guaranteed shot capability.

5

TRIGGER SYSTEM IS CRISPER, SHORTER AND INCREDIBLY DIRECT

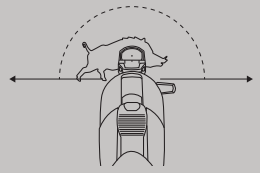

When you want absolute precision the trigger system is crisper, shorter and incredibly direct. The trigger system offers you that rewarding sense of breaking a glass bar as you squeeze into a shot.

6

K1: MAXIMUM FIELD OF VIEW

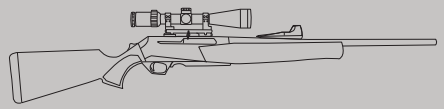

The Kite K1 was developed to render the edge of the sight practically invisible, to make fast target acquisition easier and provide maximum field of view.

MARAL

NEW

REFLEX READY

Available in a left-handed version

MARAL COMPOSITE BROWN

Scope not supplied (more details on Kite Optics on page 70 and 77)

The stock, grip and fore-end combine in a shade of brown to offset the black barrel and receiver, for a discreet look with a distinctive effect. This version of the Maral comes with an M14x1 threaded barrel, an adjustable comb, and a muzzle brake (T1) for less recoil and muzzle flip. It is available in 30-06, 308WIN and 300WM calibres, and is scope-ready with Nomad Hybrid base rails (see page 156-157).

NEW

MARAL COMPOSITE NORDIC

Scope not supplied (more details on Kite Optics on page 70)

The Maral Composite Nordic gives prominence to black for its gunstock and fore-end, giving a new look to this rifle which has quickly taken the lion's share of its category. Close to its brown composite cousin, it is equipped with a threaded barrel (M14x1) and a Nomad Hybrid mounting rail for the telescopic sight (see pages 156-157).

MARAL BIG GAME

The Maral Big Game includes side plates engraved with hunting scenes. With the wide range of optional extras, each Maral Big Game rifle can be customised to your taste (see page 76).

MARAL WOOD

This model comes with a threaded barrel for fitting a silencer or muzzle brake.

KITE K1

NEW

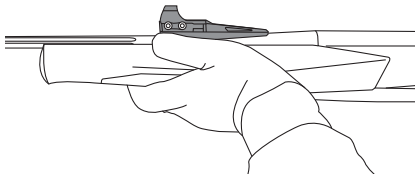

THE NEW KITE K1 RED-DOT SIGHT: MAXIMUM FIELD OF VIEW.

The brand new K1 reflex sight from Kite is made from top grade components using cutting-edge technology that combine with the single-piece aluminium body to give you an optic that is incredibly watertight, solid and rugged. Fast, sturdy and durable. Experience the ultra-effective aim of the Kite K1.

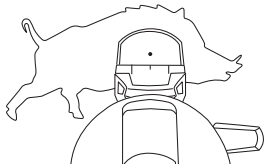

DESIGN

The Kite K1 is designed to be compact yet easy to handle, even with gloved hands. Its mounting system is adapted to all types of guns and bases.

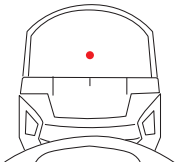

NEAR-INVISIBLE SIGHT

The Kite K1 was developed to render the edge of the sight practically invisible, making fast target acquisition easier and providing maximum field of view.

RED DOT

Its 2 MOA red dot has 11-stage illumination control and is sharp and clearly visible, even in strong sunlight. It can also be fine-tuned, including for long-range shots that can be made without covering too much of the target and with both eyes open.

INFLEX™ ANTI-RECOIL BUTT-PLATE

This extra-soft pad offers the best recoil absorption possible on a rifle. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the gunstock slightly away from your face in order to reduce the recoil and upward motion of the gun (see page 160).

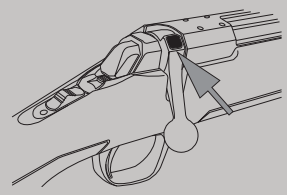

3

BOLT-UNLOCKING BUTTON

The bolt latch button works with the safety and can be used to safely remove the ammunition from the chamber.

ROTATING MAGAZINE

Made in light ultra-resistant polymer, it gives exclusive protection to bullet noses (see page 159).

5

X-BOLT HUNTER ECLIPSE

Available in a left-handed version

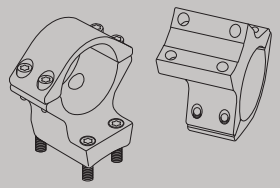

RUGGED RELIABILITY AND EXTREME PRECISION

The styling isn't the only distinguishing feature on the X-Bolt SF Hunter Eclipse Threaded: the laminated wood stock is graced with a thumbhole that provides a natural fit to guarantee a firm but flexible grip for easier movement. Equipped for fitting a scope, and with the Super Feather Trigger system, the X-Bolt Hunter Eclipse rifle has a threaded barrel (M14x1).

4

INTEGRATED MOUNTING SYSTEM

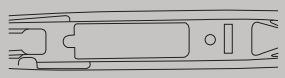

The intagrated scope-mounting system has four screws per fixing point. Therefore it is more stable and provides higher accuracy (see page 157).

5

UTMOST ACCURACY

A free-floating barrel is essential for utmost accuracy. The X-Bolt SF's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel/breech block assembly at two points with respect to the forearm, at the front and at the rear.

KITE OPTICS, THE UNCONDITIONAL PERFORMANCE FOR STALKING AND HIDE HUNTING

Browning has joined forces with famous optics specialist, Kite Optics, to develop a range of high-performance hunting scopes. The K6 range has been developed by hunters, for hunters. The scopes combine best optics performance (more than 93% light transmission) solid construction, metal throughout, a fine and precise mechanism, as well as easy handling, even when wearing gloves. All scopes carry a lifetime guarantee.

X-BOLT PRO

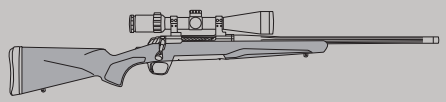

THE BENCHMARK FOR BOLT ACTION RIFLES

1

CARBON-FIBRE STOCK

The X-Bolt Pro Carbon is:
• Ultra-light.
• Ultra-rigid for uniform recoil distribution.
• Ultra-solid, compression-moulded carbon-fibre construction with a high-density foam core.

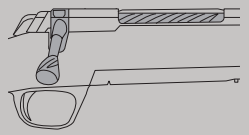

2

FLUTED BOLT AND BOLT HANDLE

The externally fluted bolt and bolt handle provide smoother action for a rapid shot.

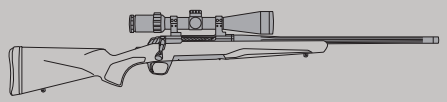

NEW

3

CERAKOTE "TUNGSTEN" FINISH

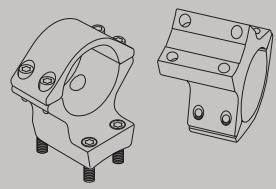

The X-Bolt Pro is Cerakote finished on all its metal components (including the optics) and on the magazine floor plate.
The result is better resistance against any type of friction, abrasion and corrosion.

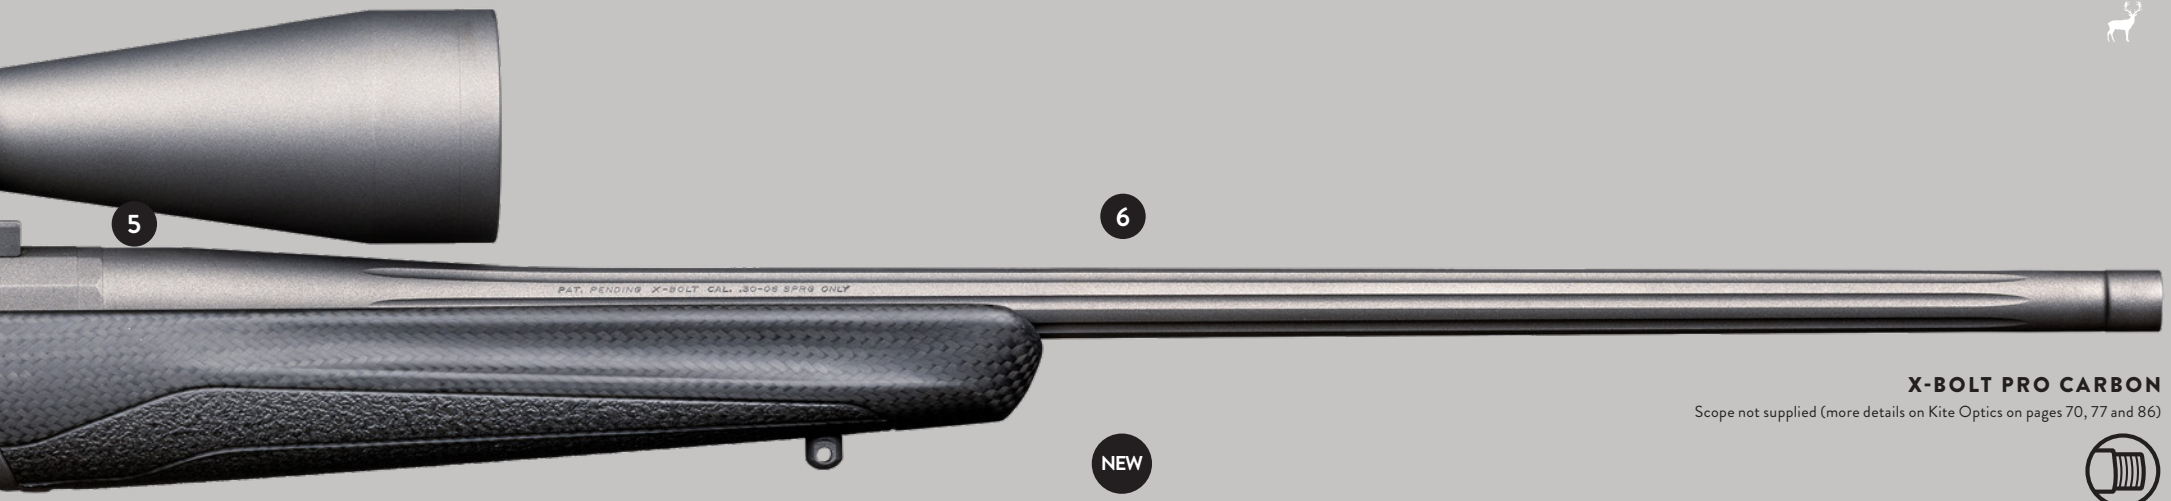

4

INTEGRATED MOUNTING SYSTEM

The integrated scope-mounting system has four screws per fixing point.
Therefore it is more stable and provides greater accuracy (see page 157).

X-BOLT PRO CARBON

Scope not supplied (more details on Kite Optics on pages 70, 77 and 86)

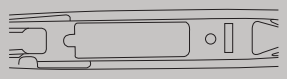

ULTRA LIGHT, ULTRA RIGID, ULTRA PRECISE

Your high standards are your greatest attribute. You won't accept failure. You need a gun that reflects who you are: efficient, accurate and focused on results. The X-Bolt Pro Carbon is designed for you. It handles with featherweight ease so that you can take your active hunting experience to a new level. The rigidity of the stock gives you even greater accuracy. The X-Bolt Carbon Pro is now available in 300 WM, 270WSM and 7RM calibres.

5

DOUBLE BEDDING

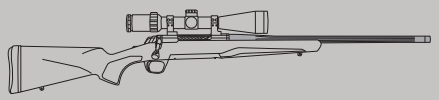

A free-floating barrel is essential for utmost accuracy. The X-Bolt SF's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel/breech block assembly at two points with respect to the forearm, at the front and at the rear.

6

HIGH-PRECISION BARREL

The fluted barrel on the X-Bolt Pro ensures it stays cool and reduces weight. The barrel lapping process polishes away any traces of machining work, improving accuracy and reducing fouling.

A-BOLT 3

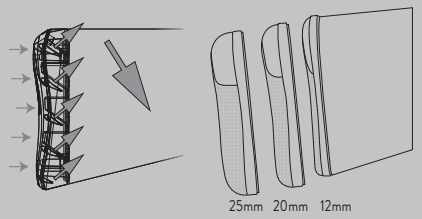

A LEGEND IN THE MAKING

1

INFLEX™ II ANTI-RECOIL BUTT-PLATE

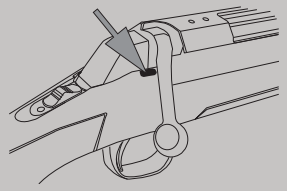

This extra-soft pad offers the best recoil absorption possible on a rifle. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun (see page 160).

2

UNLOCKING BUTTON FOR THE BOLT

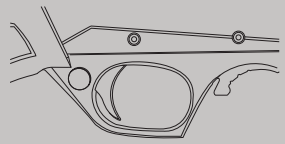

The unlocking button for the bolt ensures optimum security and is ideally placed on the back of the pistol grip. Can be opened in the safety 'on' position.

3

NEW PERFECT TRIGGER

For firing with absolute accuracy, there is no alternative to the A-Bolt 3 trigger action, sharper, short and ultra-direct. The trigger delivers a crisp and direct firing action for a thrilling shooting experience with an accurate shot.

A-BOLT 3 HUNTER LAMINATED

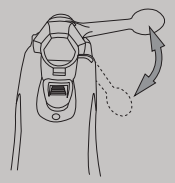

SOLID BUILD, STYLISH AND ERGONOMIC

This model of the A-Bolt 3 rifle shares the same special features as the A-Bolt 3 Hunter and includes a laminated stock for a modern style that doesn't compromise on efficiency.

4

BOLT AND HOUSING

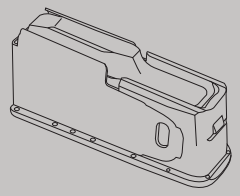

The A-Bolt 3 features a three pin bolt that offers extreme precision. The 60° opening of the bolt allows for a rapid and efficient cycle.

5

DROP BOX MAGAZINE

The essential accessory, the A-Bolt 3 is fitted with a state of the art drop box magazine. Its synthetic and steel construction can withstand any conditions (see page 159).

Browning is a benchmark in the world of guns. For more than a century, we have been developing extraorindary rifles that deliver unparalleled results. We have now decided to use all the know-how of our best engineers to develop a range of ammunition, simply because exceptional guns deserve equally high-level ammunition.

BROWNING, FOR THOSE IN THE KNOW

BXS

MONOLITHIC LEAD-FREE

Lead-free

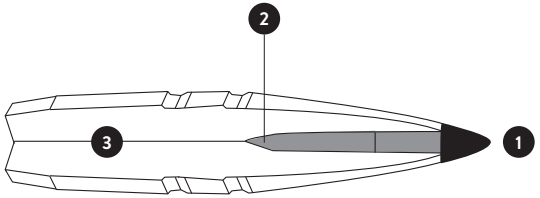

BXS

The Browning BXS is ideal for big game. Its monolithic copper construction provides near-100% mass retention. This means all its energy is saved to penetrate deep into even the thickest hides and ensure overwhelmingly lethal knockdown power. The polymer tip expands fast for maximum impact shock. The nickel-coated casings are corrosion resistant and make loading easier, promising a fast shot backed by guaranteed devastating knockdown power. And because Browning's BXS is lead-free, it can be fired in hunting zones that have lead restrictions in place.

1. **Polymer tip**
   - Better long-range speed and energy retention
   - Faster expansion
2. **Hollow Point**
   Immediate expansion and massive energy transfer
3. **Monolithic construction (copper)**
   - Near-100% mass retention
   - Deep penetration
   - Lead-free

BXC / BXR

CONTROLLED EXPANSION

BXC

The new Browning BXC bullet is designed for heavy game where devastating knock down power and deep penetration are required. The bonded bullet design with a residual weight of almost 100% and the Terminal Tip allows for deep penetration through tough hide and bones. The brass tip, heavy bullet weight and boat-tail are integral components to delivering precision accuracy, maximum downrange velocity and long-range, on-target performance.

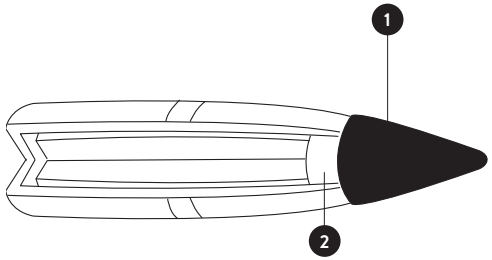

1. **Bonded bullet**
   - Controlled expansion
   - Higher weight retention for maximum energy transfer and deeper penetration
2. **Terminal tip (aluminium)**
   Penetrates tough hide and breaks through strong bones
3. **Heavy weight and boat tail design**
   Increased downrange velocity, accuracy and energy

RAPID EXPANSION

BXR

BXR Rapid Expansion Matrix Tip is designed specifically for use on medium game such as roe deer or wild boar. The proprietary matrix tip design allows for high downrange velocity and energy retention while also initiating rapid positive expansion. The jacket and tip combination yields precision accuracy, rapid energy transfer and generates massive knockdown power.

1. **Matrix tip (mix of copper and polymer)**
   - High downrange velocity and energy retention
   - Initiates rapid expansion
2. **Hollow point**
   for rapid expansion and maximized energy transfer on medium game

T-BOLT & BL-22

T-BOLT TARGET VARMINT COMPOSITE

This version is equipped with a gunstock made of highly-resistant ergonomic composite, allowing intense use in all conditions. The heavy, threaded barrel also includes scope-mounting bases.

T-BOLT TARGET VARMINT STAINLESS

This vermin rifle is now available with a stainless steel barrel and a laminated grey Monte Carlo stock. The heavy, threaded barrel also includes scope-mounting bases.

T-BOLT SPORTER COMPOSITE

This version is equipped with a gunstock made of highly-resistant ergonomic composite, allowing intense use in all conditions. Another very useful characteristic is an additional magazine integrated in the gunstock and, more particularly, in the pad.

T-BOLT SPORTER

This rifle is a vintage, the reissue of a best seller, a legend. Available in .22LR, .22 Magnum, and 17HMR calibres, it is aesthetically close to its ancestor, the first T-Bolt, but the mechanics have been completely modernised. It is characterised by its straight-pull bolt that loads cartridges from an exclusive 10-round rotating magazine.

BL 22 GRADE 2

This is a jewel from the era of the pioneers, back in the Wild West. With its short movement action-lever (33°), external hammer, and magazine tube, the BL-22 enables you to mix all types of cartridges (long and short) with no risk of jamming.

ACCESSORIES SEE PAGE 159

At Browning, each item of clothing starts from a passion for the hunt, our years of experience and field tests, and the expertise that all this brings. We combine high-performance materials with cutting-edge technology to offer full body protection against the wind, rain and cold, as well as thorny thickets and bramble bushes. While our clothing is tough enough to resist any challenge, it is also comfortable for hunters. The supple materials we use adapt to any body shape, making our hard-wearing yet elegant clothes more efficient as well.

NEW

NEW RANGE OF SHOOTING VESTS

NEW AND MORE ERGONOMIC FIT, BETTER SUPPORT AROUND THE WAIST.
REDUCES THE NOTICEABLE WEIGHT OF THE CARTRIDGES.

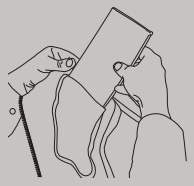

1

TWO REACTAR™ RECOIL PAD POCKETS

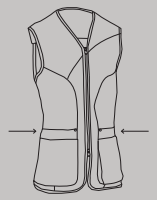

However hard you train, the repeated impacts against your shoulder are also going to impact your performance. The Reactar™ pad absorbs a large propotion of the recoil so that you can keep your mind on the target.
(see page 151)

2

NEW SLIM FIT

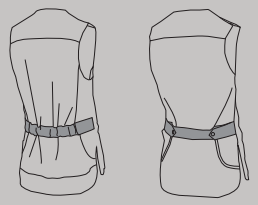

A poorly fitting vest won't help you get that perfect swing, and your performance will suffer. The new slim-fit Browning vest is perfectly tailored to your body, moves with you, and lets you show exactly what you can do.

3

ELASTICATED BELT WITH BUTTONS

The weight of the cartridges can hamper your movement when you're taking the shot. The new comfort-fit elasticated belt on your Browning vest puts the weight of the cartridges on your hips instead of your shoulders for smooth and unhindered movement.

4

TWO-WAY ZIPPER

Our designers have added a two-way zip so that you can adjust your vest perfectly to your body shape. Now your vest will always provide the perfect fit, your shots will be more relaxed and you'll be at the top of your game.

DOG PROTECTION AND ACCESSORIES

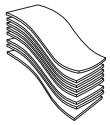

DOG SAFETY REINVENTED

A range of dog vests that provide maximum visibility, a Cordura outer layer to protect your hunt dog against aggressive environments, and a perforation-resistant Dyneema inner layer to protect against boar attacks.

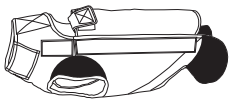

Adjustable fastener

- One layer of Cordura 1100 DTEX
- Four layers of Dyneema®
- Two temperature-control layers
- One soft fabric layer

Eight layers

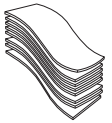

Hip and thigh protection

1 PROTECT PRO EVO

Adjustable fastener

- One layer of Cordura 1100 DTEX
- Four layers of Dyneema®
- Two temperature-control layers
- One soft fabric layer

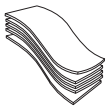

Eight layers

2 3 PROTECT PRO

Adjustable fastener

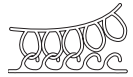

- One layer of Cordura 600 DTEX
- Three layers of Dyneema®
- One soft fabric layer

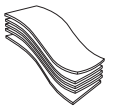

Five layers

4 PROTECT HUNTER

Velcro closing system

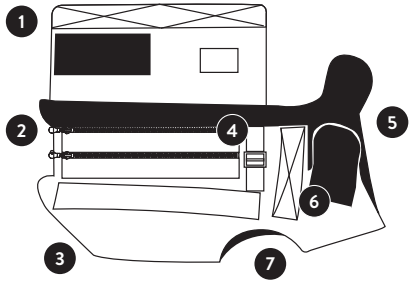

- One layer of Cordura 600 DTEX
- Three layers of Dyneema®
- One soft fabric layer

Five layers

5 PROTECT ONE

THE BEST THERE IS

1. Cross-stitching on all velcro fasteners for extra strength
2. YKK zip for extra hard-wearing performance
3. High-tensile thread, higher thread weight and anti-abrasion treatment
4. Adjustment strap (Pro-Hunter range), perfect fit with no strain on the zippers
5. New ergonomic cut, freer head movement for your dog
6. Longer flap, better adhesion
7. Enclosed seams, no overlay so less risk of injury

COMPOSITION OF PROTECT DOG VESTS

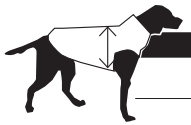

FROM FIVE TO EIGHT LAYERS

- External side Cordura 600-1100 DTEX
- Up to four Dyneema® puncture-resistant layers
- Two thermo regulating layers (Pro and Evo)
- Puncture resistant up to 300kg
- One interior surface

HOW TO CHOOSE THE RIGHT SIZE OF THE JACKET ?

The size of the jacket is proportional to the chest size.
The Velcro neck and belly straps are adjustable.
Do not overtighten, and choose the right size to avoid hurting your dog.

Size	T45	T50	T55	T60	T65	T70	T75	T80	T85

BROWNING NOMAD

ULTRA-HIGH-PERFORMANCE REMOVABLE MOUNT

A full mount consists of a base rail **A** (single or multiple) matched to the gun and a top rail **B** that is specific to the scope.
The base rails are available in SINGLE or MULTIPLE versions.
The multiple is adjustable in windage and elevation, and lets you use the same scope on a second gun.

ONLY ONE ADJUSTMENT, MULTIPLE SCOPES ON MULTIPLE GUNS

More details on Browning Nomad mounts on www.browning.eu

PRECISE

The patented bolt technique gives perfect attachment, exceptional resistance and constant precision, whatever the scope used.

FAST

Using the thumbwheel attachment, change scopes fast, without running the risk of losing alignment.

VERSATILE

With the NOMAD MULTIPLE base rail, adjustable in windage and altitude, you can now use all your scopes on any gun, without having to adjust your aim before each change.

BROWNING MOUNT

BROWNING INTEGRATED SCOPE MOUNT

Our integrated scope mount avoids problems with alignment and eliminates potential loose base-to-ring connections. The ring and base form a single ultra-rigid unit machined from a 7000 series aluminium alloy.

CHOICE OF SCOPE RING HEIGHT (FOR RIFLES WITHOUT OPEN SIGHTS)

Standard (low) ring height for scopes up to a 44mm objective with a standard barrel contour.

Intermediate (medium) ring height for scopes up to a 50mm objective with a standard barrel contour.

High ring (high) height for scopes up to a 56mm objective with a standard barrel contour.
