BROWNING 2025 CATALOG

HUNTING & SHOOTING

Choosing Browning means choosing passion and reason. With their customary reliability, unique elegance and formidable accuracy, our guns also have the gift of awakening the poet within every shooter and hunter. Who has never felt an ecstatic thrill when their eyes set on exquisitely crafted wood or an engraving worthy of a Renaissance masterpiece?

This catalogue brings you all our new releases. Starting with the Browning 825, our new over-and-under.

825 PRO SPORT ADJUSTABLE 12

NEW

>> SEE PAGE 6

This gun was unveiled for the centenary of the creation of the mythical B25. It is a bridge that links the modern with the glorious heritage left by the great John Moses Browning. The modernity of the Browning 825 can be felt in the perfect ergonomic flow of its slender lines, while its historic legacy lies hidden in the action frame. The mechanical principles established a century ago by John Moses Browning are continuously improved, never disrupted, and always the best there is.

You will also discover the X-Bolt 2, the next generation of our bolt-action rifle. Extremely customisable, designed to make you exceed your targets, this gun needs only to be shouldered.

Now, enjoy browsing our catalogue and learning about our entire range. And find yourself indulging in dreams!

825 PRO

UNSTOPPABLE

One hundred years. That's how long it's been since the invention of the first over and under shotgun in history, the Browning B25, until the birth of the Browning 825. During this century, Browning has built an indestructible bond with its customers. A bond woven with the exceptional performance and legendary reliability of our over and under shotguns. A relationship enhanced by the unique emotions that Browning shotguns make you feel.

In a century, our over and under shotguns have evolved with you, your needs and your desires. Because yes, for Browning user experience is at the heart of every product development. While the past and the present demonstrate that Browning is the undisputed leader in innovation, this does not

mean that we renounce the mechanical principles established by the inventor of genius John Moses Browning. The Browning 825 remains true to the mechanics of Browning shotguns, globally praised for their outstanding longevity and unrivalled performance.

The Browning 825, latest addition to the glorious family of Browning over and under shotguns, is the worthy heir to the legendary B25 and all the models that followed. Like them, it impresses with its longevity, like them it raises the expectations that shooters and hunters place in their gun. The evolution of design and ergonomics will appeal to a public looking to the future while being aware of glorious past successes.

NEW 825 PRO

CONTINUOUSLY IMPROVED ERGONOMICS

Browning is like the greatest champions. Like top level athletes, Browning takes nothing for granted. Like a legendary sportsman, Browning knows that achievements are built on details. Enriched by the bond of trust that binds it to its millions of customers, Browning makes continuous improvement its motto. The Browning 825 benefits from several improvements, particularly in terms of ergonomics.

825 PRO SPORT ADJUSTABLE 12

1

REFINED CONTROLS

A slim new top lever design accents the styling of the receiver. The safety/selector is easy to operate and intuitive to find.

2

A BROWNING 825 WEARS IN, NOT OUT

The racey, low-profile Browning 825 shotgun foregoes the trunnion-style hinge designs of the competition and relies on a modified version of the tried-and-true transverse-mounted, full-width tapered locking bolt and full-width hinge pin design made famous by John Moses Browning's legendary superposed. This design provides maximum strength and longevity and self-adjusts for wear to keep the receiver locking up securely.

3

STYLED RECEIVER SHAPE

The Browning 825 has a newly styled receiver with sharp, modern lines. The receiver is machined from steel and protected with a durable silver nitride finish for improved wear resistance, increased fatigue strength, and protection against corrosion. Browning offers you a 10-year warranty on it. The low-profile receiver design aids with recoil control and minimizes muzzle jump. The front hand is also moved closer to the bore line to optimize swing and pointability.

4

PRO BALANCE SYSTEM

The Browning 825 Pro models include the pro Balance System that allows the shooter to add or remove weights from the stock and fine-tune the balance point for a perfect mount and swing. These weights are available as accessories on the sporter models.

5

FIRE LITE 2 TRIGGER

The refined Fire Lite 2 Trigger is a mechanical design that offers immediate second shot capacity as it does not rely on recoil to set the hammer for the second shot. This precision design also yields a trigger pull with less take-up, a crisper break, and reduced overtravel. A modified, high pivot point disconnecter optimizes reset for added reliability even with extra light loads.

6

TRIPLE TRIGGER SYSTEM

Featured on Sporting and Pro models, the triple trigger system offers three position adjustment to fine-tune finger-to-trigger reach. Three interchangeable trigger shoes are included to customize the feel for every shooter.

7

HAMMER EJECTOR

Hammer ejectors provide reliable case ejection. Full cartridges are raised for easy removal.

8

FOREARM LATCH

Small details matter. The forearm latch has been redesigned and is easier to operate.

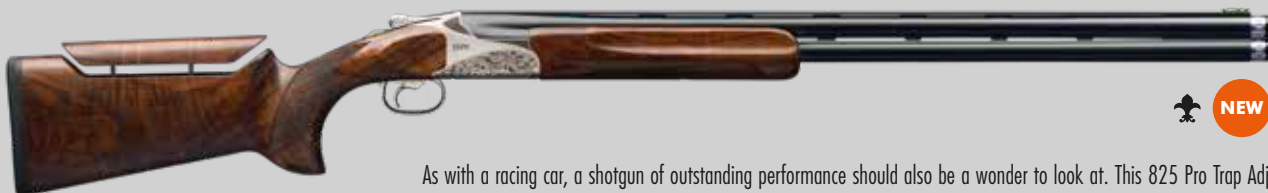

825 PRO MASTER ADJUSTABLE 12

When you take out your 825 Pro Master Adjustable, you're making your intentions clear: you came to win. This sporting gun features an adjustable top rib and three triggers. The balance point can be adjusted with the stock and barrel weights. The 825 Pro Master also comes with eight Invector DS™ Pro Extended chokes. The grade 4 Turkish walnut of the adjustable stock, the matt barrels and the outstanding engravings are the crowning touches to a gun that has already established itself as a work of art that is accessible to everyone.

825 PRO TRAP ADJUSTABLE 12

As with a racing car, a shotgun of outstanding performance should also be a wonder to look at. This 825 Pro Trap Adjustable radiates through the beauty of its exceptionally fine engravings, grade 4 Turkish walnut and matt barrels. This is a gun that is literally tailored to perform with its adjustable comb and trigger, eight Invector DS™ PRO chokes and the option to fit Pro Balance weights and counterweights.

825 PRO TRAP HIGH RIB ADJUSTABLE 12

Our very first look at the Browning 825 Pro Trap High Rib Adjustable tells us that it is a springboard to victory. The adjustable comb places your eye directly along the high rib. Each of the many accessories guarantees a gun built for your requirements and body shape.

825 SPORTER

STEEL
SHOT PROVED

THE ART OF BUSTING CLAYS

The magical chemistry between slender lines, redesigned ergonomics and mechanics that have been tried and tested by a hundred years of experience make the

Browning 825 a new masterpiece that John Moses would be proud to hold.

NEW 825 SPORTER

A SPORTING RANGE

The Browning 825 Sporters are ruthless machines for breaking plates. Several stock and handguard variants are available to meet your expectations. Don't be fooled by the sober engraving and matt anti-glare barrels: this gun is made to shine!

825 S3 ADJUSTABLE 12M

Black and gold. Its timeless look is not the only feature that sets the Browning 825 S3 Adjustable apart. With the wide choice of accessories included in the box, shooters can focus on what they came for: the gold medal.

1

REFINED CONTROLS

A slim new top lever design accents the styling of the receiver. The safety/selector is easy to operate and intuitive to find.

2

A BROWNING 825 WEARS IN, NOT OUT

The racey, low-profile Browning 825 shotgun foregoes the trunnion-style hinge designs of the competition and relies on a modified version of the tried-and-true transverse-mounted, full-width tapered locking bolt and full-width hinge pin design made famous by John Moses Browning's legendary superposed. This design provides maximum strength and longevity and self-adjusts for wear to keep the receiver locking up securely.

3

STYLED RECEIVER SHAPE

The Browning 825 has a newly styled receiver with sharp, modern lines. The receiver is machined from steel and protected with a durable silver nitride finish for improved wear resistance, increased fatigue strength, and protection against corrosion. Browning offers you a 10-year warranty on it. The low-profile receiver design aids with recoil control and minimizes muzzle jump. The front hand is also moved closer to the bore line to optimize swing and pointability.

4

FIRE LITE 2 TRIGGER

The refined Fire lite 2 Trigger is a mechanical design that offers immediate second shot capacity as it does not rely on recoil to set the hammer for the second shot. This precision design also yields a trigger pull with less take-up, a crisper break, and reduced overtravel. A modified, high pivot point disconnect optimizes reset for added reliability even with extra light loads.

5

TRIPLE TRIGGER SYSTEM

Featured on Sporting and Pro models, the triple trigger system offers three position adjustment to fine-tune finger-to-trigger reach. Three interchangeable trigger shoes are included to customize the feel for every shooter.

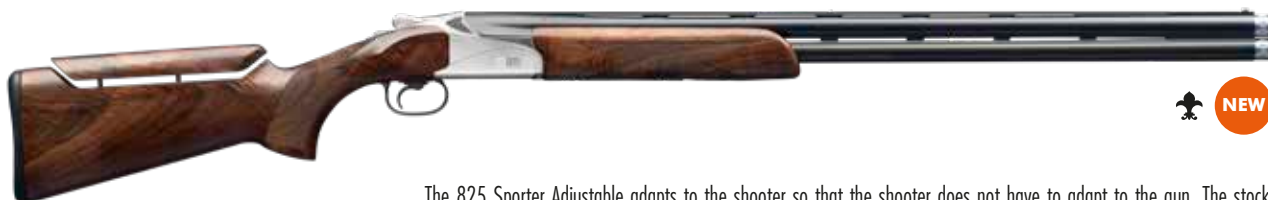

825 SPORTER 12M

NEW

As simple as it is effective. The 825 Sporter is one of those guns you see at the top of the podium. The white sights give you instant target acquisition in any light. The Inflex II pad offers maximum felt-recoil reduction.

825 SPORTER ADJUSTABLE 12M

NEW

The 825 Sporter Adjustable adapts to the shooter so that the shooter does not have to adapt to the gun. The stock comes with an adjustable comb and adjustable silver-plated trigger. The matt barrels limit sun glints. The five Invector DS™ Pro chokes guarantee the ideal shot pattern. The grey of the action frame provides the perfect contrast to the finish of the grade 5/6 American walnut.

PERFORMANCE ENHANCED BY INVECTOR DS™ PRO CHOKES

The long length of Invector DS™ chokes lets you get the most out of your Browning 825. Invector DS™ chokes compress against the barrel walls to protect the threads and ensure easy installation and removal, even after intensive use. Invector DS™ Pro chokes are fitted to the sport versions of the Browning 825. They extend beyond the barrel to further optimise the ballistic performance of your shotgun.

NEW

INVECTOR DS™ PRO CHOKES

825 SPORTER TRAP FOREARM

825 SPORTER TRAP FOREARM 12M

The Browning 825 Sporter Trap features a trap forearm for perfect handling. The understated engraving provides the perfect emphasis to the grade 5/6 American walnut. The trigger is adjustable.

THE 825 SPORTER TRAP FOREARM RANGE IS AVAILABLE WITH AN ADJUSTABLE COMB.

825 SPORTER ADJUSTABLE TRAP FOREARM 12M

NEW

The adjustable comb gives you a major advantage when you're competing against other experienced shooters by placing your eye directly in line with the clay. Available in three barrel lengths.

825 GAME

STEEL
SHOT PROVED

IT'S THE JOURNEY THAT COUNTS, NOT THE DESTINATION.

The 825 Game is your passport to timeless experiences that will remain engraved in your memory forever. Whether you go for the 825 Game Prestige or the 825

Game, the aim is the same: to treat yourself to the best there is.

825 GAME NEW

A FAST-TRACK TO UNFORGETTABLE DAYS

A fast-track to unforgettable days. Engravings of hunting scenes and high-quality wood: the Browning 825 Game is distinguished firstly by its elegance. The Invector DS chokes allow you to adapt your gun to your preferences or the needs of the day. Proofed for steel shot of course, the Browning 825 Game will be your best hunting partner.

825 GAME PRESTIGE 12M

The magnificent game scenes and grade 4 walnut may give the impression that this 825 Game Prestige is merely dressed to kill. Don't be fooled: the 825 Game Prestige is a formidable tool that will take you to the next level on your hunt days.

1

REFINED CONTROLS

A slim new top lever design accents the styling of the receiver. The safety/selector is easy to operate and intuitive to find.

2

A BROWNING 825 WEARS IN, NOT OUT

The racey, low-profile Browning 825 shotgun foregoes the trunnion-style hinge designs of the competition and relies on a modified version of the tried-and-true transverse-mounted, full-width tapered locking bolt and full-width hinge pin design made famous by John Moses Browning's legendary superposed. 825 GAME PRESTIGE ROUND PISTOL GRIP 12M

The 825 Game Prestige RPG will fire up your excitement. The magical chemistry between the breathtaking engraving and the grade 5 wood has set this fine gun's pedigree in stone. With the five Invector DS™ Flush chokes, you are ready for any and every situation on the hunt. An auto safety can be fitted. The round pistol grip ensures optimal hold.

825 GAME 12M

The 825 Game is forged to bring you unforgettable moments. The game scene engraving could have been taken from your most memorable hunting memories. The pistol grip and hunting fore-end are made of grade 5/6 American walnut.

825 GAME ROUND PISTOL GRIP 12M

This version of the 825 Game features a rounded pistol grip stock, which is particularly appreciated on high pheasant shoots. The stock is matched to a grey action frame with a game scene engraving.

B725

PUT ENJOYMENT AT THE HEART OF THE STORY

Whether you're right-handed or left-handed, an experienced hunter or a novice, Browning products are developed with you in mind. So now you can keep your mind on one thing: your passion!

B725 HUNTER PREMIUM 20M

Slim, elegant, this B725 20-gauge is remarkably effective. Its rapid, accurate swing associated with its Back-bored™ Vector Pro™ barrels and Invector DS™ chokes, will give you outstanding performance and perfect balance. This elegant model with its pistol grip is your faithful companion when hunting small game, and will bring you complete satisfaction.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

HIGH-PERFORMANCE MECHANICAL TRIGGER SYSTEM

This firing system is shorter, faster and lighter giving more control over your shooting. Browning's innovative mechanical firing system provides ease of use for hunters and shooters, guaranteeing that a second shot can be fired whatever the circumstance.

3

LOW ACTION FRAME

The low action frame provides these benefits when shooting. It enables faster aiming and therefore more instinctive shooting. Thanks to the frame's inline recoil providing a more comfortable shooting position, it reduces muzzle flip and makes for good manoeuvrability and effectiveness when shooting.

ACTION FRAME GUARANTEED FOR TEN YEARS.

4

BACK-BORED™ VECTOR PRO™ BARREL

The Back-bored™ Vector Pro™ barrel has an increased internal bore diameter and longer forcing cone.

One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

5

INVECTOR DS™ CHOKES

We developed our adjustable Invector DS™ chokes for our Back-bored™ barrel system. We designed them to obtain perfect spread at different shooting distances. Depending on the Browning choke you use, you can adapt your gun for the distances at which you shoot and the game you are hunting (Full Choke = 35m, ¾ Choke = 30m, ½ Choke = 25m, ¼ Choke = 20m, Cyl = 15 m).

B725 HUNTER UK PREMIUM II 20M

The B725 UK Premium II range reaches new aesthetic heights with beautifully honed contours. The stock is enhanced by a rounded pistol grip, and the gun is ornamented with animal engravings that depict partridge and woodcock.

B525 SPORTER

 **STEEL
SHOT PROVED**

A NEW DESIGN ON EXCELLENCE

This year, we are adding a whole series of improvements to the B525 Sporter that underline its inherent qualities just that little bit more. The barrel is now matt black to reduce glints from the sun. The grey trigger is adjustable, while the action frame bears a new engraving that is understated

yet appealing. The stock is counterweight-ready. The B525 Sporter is delivered with a 12 mm Inflex II recoil pad (except Reduced Stock) so you can easily extend the stock by adding a thicker pad.

B525 SPORTER

EXCELLENCE REDESIGNED

This year, we have made a whole series of improvements to the B525 Sporter range that highlight its inherent qualities that little bit more. The barrel is now matted to limit sun glints. The grey trigger is adjustable, while a new, understated engraving has been added to the action frame. The stock is counterweight-ready. The B525 Sporter comes with a 12 mm Inflex II recoil pad, so now you can easily lengthen the stock using a thicker recoil pad.

B525 SPORTER 1 12M

1

INFLEX™ II RECOIL PAD

The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

BACK-BORED™ BARRELS STEEL-SHOT PROOFED

The aim of a Back-Bored™ barrel is to increase the bore diameter, which improves performance in three ways: high velocity, better penetration and lower recoil.

3

MATTE BLUING

Limit reflections.

4

STOCK PREPARED FOR COUNTERWEIGHT

Optimize balance/ergonomics

5

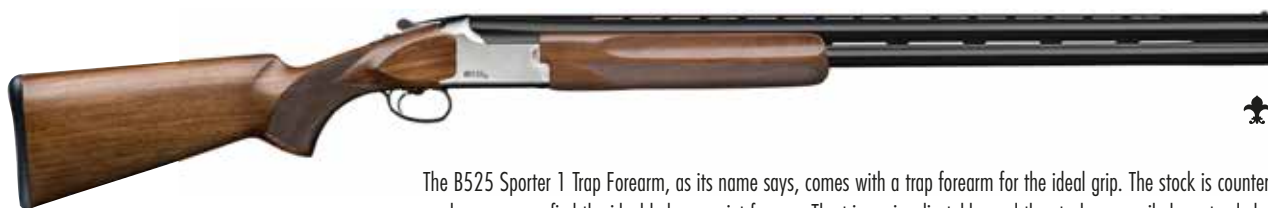

B525S ENGRAVING

More sporty, modern while remaining sober.

6

NEW ABS BOX FOR CHOKES

B525 SPORTER 1 TF 12M

The B525 Sporter 1 Trap Forearm, as its name says, comes with a trap forearm for the ideal grip. The stock is counterweight-ready so you can find the ideal balance point for you. The trigger is adjustable, and the stock can easily be extended with the additional Inflex II recoil pads.

B525 SPORTER 1 REDUCED STOCK 12M

Youngsters, lady shooters and some men who are just starting out often face a significant challenge before they even step out onto the range: finding the gun fit for their body. The B525 Sporter 1 Reduced Stock features a stock whose length and drop and cast have been designed with them in mind. This gun comes with extra pads that can be added to extend the stock and help them progress.

B525 SPORTER 1 ADJUSTABLE 12M

The B525 Sporter 1 Adjustable features an adjustable comb to line you straight up on target. It comes with 4 chokes and retains all the features that destine the B525 Sporter 1 for victory.

B525 SPORTER 1 20M

What do you think of when you hear the words "a well balanced gun"? Your swing, probably. The B525 Sporter 1 20M not only allows you a natural swing, it also gives you a perfect balance of performance and price. Its matted barrels sit in perfect counterpoint to the elegant engraving across the action frame. Its adjustable trigger and counterweight-ready stock make it easily customisable.

B525 COMPOSITE

TOP OF THE RANGE IN ALL TERRAIN

B525 COMPOSITE

The B525 Composite model is packed with appeal! Outstandingly rugged, fully adjustable, and more than a match for harsh weather and intensive shooting sessions. The overmoulded pistol grip and fore-end provide better handling while showing off its attractive lines to subtle effect. The balance can be adjusted with weights and counter-weights on the barrels and stock to give you that perfect swing. The adjustable cheek piece offers target acquisition in the blink of an eye, and the trigger is also easily adjustable for maximum comfort. The B525 Composite also features Back-Bored™ barrels that are perfect for steel shot, and an Inflex™ II recoil pad for gentler felt recoil.

1

INFLEX™ II RECOIL PAD

The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

ADJUSTABLE CHEEK PIECE WITH MEMORY SYSTEM

Minutely adjustable cheek piece for an accurate aim.

3

ADJUSTABLE TRIGGER

The adjustable Triple Trigger System lets you make minute changes to the finger-trigger position on target shooting models. It includes three trigger shoes: wide chequered, narrow smooth and wide smooth canted.

4

MATT BARREL

The barrel finish is matted by a bead blasting process to limit glints from the sun when taking the shot.

5

PROFIT BALANCE™

The stock is ready for a stock and barrel counterweight system (not included in the box).

6

INVECTOR-PLUS™ CHOKES

Browning developed Adjustable Invector-Plus™ chokes for our Back-bored™ barrel system. We designed them to obtain a perfect target at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting. (Cyl = 15m, 1/4 Choke = 20m, 1/2 Choke = 25m, 3/4 Choke = 30m).

THE B525 IS ASSEMBLED BY HAND.

Fitting important parts is done employing traditional methods (using red ochre) so as to make the Browning B525 the reference in shotguns. The attention to detail is unique, just like the 'Browning feeling' when the gun locks on closing.

B525 SPORTER LAMINATED ADJUSTABLE 12M

This B525 SL adds another distinguishing feature to its hallmark sporty and aggressive style, with uniformly compact laminated wood that provides superior rigidity for a perfectly stable shot.

✦ This shotgun is steel shot proofed.

B525 TRAP

B525 TRAP 1 TF 12M

The guiding principle of the B525 Trap 1 is to make efficiency available to all. The stock and the fore-end have been shaped to meet the specific requirements of clay shooting in full. This model - with 'B525 T' proudly engraved on the action frame - also comes with four Invector-Plus™ chokes.

BROWNING

WIN

ULTRA XS

THE 2023 WORLD CHAMPIONSHIP WINNING SHOTGUN

With its eight Invector-Plus™ Titanium Extended™ chokes, two inserts, three Inflex™ recoil pads and three trigger shoes out of the box, the Ultra XS Pro Adjustable Comb can be custom-balanced thanks to a neat system of weights and counterweights for the stock and barrel. What the Ultra XS Pro Adjustable Comb with its trap forearm gains in technical innovation doesn't come at the cost of elegance: the proof is in the new engraving that adorns the action frame and the grade 4 oil-rubbed finish of the wood.

ULTRA XS PRO ADJUSTABLE

INFLEX™ II RECOIL PAD

The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

ADJUSTABLE COMB

The Pro Fit adjustment system positions the comb perfectly, and the drop and cast can be trimmed using the adjustment screw. If the comb is to be removed, clearly visible markings help you easily adjust and re-assemble your shotgun.

INVECTOR-PLUS™ TITANIUM EXTENDED™ CHOKES

Specially developed for our Back-Bored™ barrels. They are designed for "perfect targeting" at different ranges. You can fine-tune your shotgun to your ranges of fire and to the game you are hunting (Cyl=15 m, 1/4Choke=20 m, 1/2Choke=25 m, 3/4Choke=30 m).

THE WORLD CHAMPION SHOTGUN

Sam Green is the 2019 and 2023 double World Champion (FITASC World Sporting and World English Sporting).

ULTRA XT PRO

THE MOST RELIABLE SHOTGUN

ULTRA XT PRO ADJUSTABLE TF

Would you like to collect medals with the same predictability as the shooters on the official Browning team? The Ultra XT Pro Adjustable is for you. A perfectly adaptable fit thanks to its adjustable comb, two spacers, extra triggers, and weights and counterweights for altering the balance point make the Ultra XT Pro a formidable gun on the range. With the 8 Invector-Plus™ Titanium Extended chokes, you'll be ready for any situation.

B525

 **STEEL**
SHOT PROVED

SHOOTER AND GUN AS ONE.

The B525 shotguns from Browning have built a reputation for excellence over the years. They provide the quality you

demand when hunting small game: effective, elegant, reliable. Do your dreams justice.

B525 GAME

YOUR PERFECT PARTNER ON THE HUNT

The B525 Game 1 (12-gauge and 20-gauge) range is your perfect partner on the hunt. Its single-piece, forged-steel action frame and lightweight Back-bored™ barrels combined with Invector-Plus™ chokes make it your ideal shotgun for hunting. It is available in an automatic safety version.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made from indestructible forged steel.
- Extra-wide flat bolt and hinge pin.
- Impact wheel ejectors for cleaner ejection.
- Chrome-plated barrels and chambers.

3

BACK-BORED™ VECTOR PRO™ BARREL

A Back-bored™ barrel has a wider-diameter bore, which improves performance in three ways: increased velocity, better penetration/shot grouping, lower recoil.

4

INVECTOR-PLUS™ CHOKES

Browning developed Adjustable Invector-Plus™ chokes for our Back-bored™ barrel system. We designed them to obtain a perfect target at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting.

(Cyl = 15m, 1/4 Choke = 20m, 1/2 Choke = 25m, 3/4 Choke = 30 m)

B525 GAME 1 20M

Available in a left-handed version

B525 GAME 1 LIGHT 12M

Available in a true left-handed version

Available in a micro version

B525 GAME 1 LIGHT 20M

Available in a left-handed version

These Light models (12-gauge and 20-gauge) include all the features of the B525 Game 1, and enhance its natural qualities with a lower-weight alloy receiver for a lighter gun.

THE PERFECT TARGET

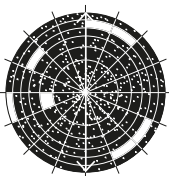

Adjustable Invector-Plus™ chokes have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'a perfect target' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting (Cyl = 15m, 1/4 Choke = 20m, 1/2 Choke = 25m, 3/4 Choke = 30m).

B525 TRADITION

B525 GAME TRADITION 20M

The B525 Game Tradition is available with a steel action frame, and features sublime grade 5/6 oil-finished American walnut that puts it in a class of its own. Available with back-bored barrels. The B525 Game Tradition 20M gauge comes fitted with an automatic safety (can be removed on request).

B525 GAME TRADITION LIGHT 20M & 28

The B525 Game Tradition Light comes in back-bored 20M gauge (with 4 Invector-Plus™ chokes) and in standard-bore 28-gauge (with 4 Invector chokes). Both are delivered in an ABS case.

B525 LAMINATED

B525 GAME LAMINATED 12M

Available in a true left-handed version

The modern style of this B525 Game Laminated isn't its only standout feature: the consistent density of its laminated wood makes it extremely rigid and keeps it perfectly stable when taking the shot.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made from indestructible forged steel.
 - Extra-wide flat bolt and hinge pin.
- Impact wheel ejectors for cleaner ejection.
- Chrome-plated barrels and chambers.

3

BACK-BORED™ VECTOR PRO™ BARREL

A Back-bored™ barrel has a wider-diameter bore, which improves performance in three ways: increased velocity, better penetration/shot grouping, lower recoil.

4

INVECTOR-PLUS™ CHOKES

Browning developed Adjustable Invector-Plus™ chokes for our Back-bored™ barrel system. We designed them to obtain a perfect target at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting (Cyl = 15m, 1/4 Choke = 20m, 1/2 Choke = 25m, 3/4 Choke = 30 m).

✦ This shotgun is steel shot proofed.

B525 EXQUISITE

B525 EXQUISITE 12 & 20M

Available in a true left-handed version (12M)

Grade 4 Turkish walnut stock, carefully crafted deep engraving, and leather carry case: the B525 Exquisite represents the pure tradition of luxury guns.

B525 LIBERTY

B525 LIBERTY LIGHT 12M

Available in a true left-handed version

A new and carefully-designed stock will please women, youngsters and hunters who find regular stocks wanting. That's the main characteristic of this 12M shotgun. It has an aluminium action frame decorated with new engravings and possesses a Monte Carlo-style stock with an adapted pitch, a pistol grip and two recoil pads supplied in the box. Well balanced and light, its level of technical perfection will give you a feeling of real liberty.

1

PITCH: TOTAL COMFORT

The 80° pitch limits the contact between the toe of the stock and the shooter's chest for optimum comfort and lower felt recoil.

2

LENGTH OF RECOIL PADS

The B525 Liberty Light 12M is delivered with three Inflex™ II recoil pads, combined with a grip that is adapted for small hands and a trigger system, both of which are adjustable. It is easy to configure it for perfect ergonomics.

3

ADVANTAGE OF 4MM-10MM

The advantage is in the tilt of the recoil pad in relation to the axis of the top rib — This advantage has been modified with respect to standard models and will be clearly preferable for ladies without impairing men's comfort when shooting.

4

DROP

The drop is the height of the back of the stock in relation to the top rib. The drop of the B525 Liberty Light 12M is higher than standard stocks. This feature allows the shooter improved cheek contact on the back of the stock and thus limits recoil impact.

5

STOCK

This is a new stock developed for ladies, young people and shooters who are not completely satisfied with standard measure stocks.

6

ALUMINIUM ACTION FRAME AND VENTILATED RIBS

The alloy action frame and the ventilated ribs of the B525 Liberty Light 12M produce a lightweight gun. Its 8mm ventilated rib allows it to be used for all kinds of sporting shooting.

ANTICIPATION

HERITAGE

WHEN HUNTING BECOMES AN ART

HERITAGE SPORTER II

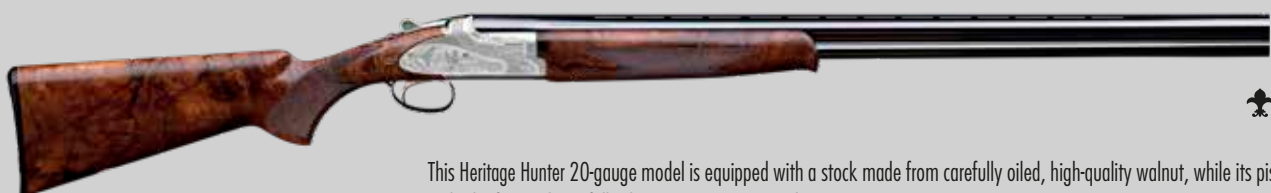

The Heritage Sporter II combines the performance of a modern shotgun with the elegance of a true deluxe gun. It has the lines of the hunting model with its magnificent side plates, but with the specifications of the Sporter versions. The pistol-grip stock and tulip fore-end are made from beautiful, oil-finished walnut. Each gun is beautifully engraved.

HERITAGE HUNTER II 12M

Available in 12-gauge, the Heritage Hunter is a model of perfect balance, delicacy and ease of handling. It has a rounded pistol grip made from superb oil-finished walnut. Partridge and woodcock are brought out to magnificent effect on the sleek, low action frame.

HERITAGE HUNTER 20M

This Heritage Hunter 20-gauge model is equipped with a stock made from carefully oiled, high-quality walnut, while its pistol grip and tulip fore-end pay full tribute to its inspiration, the B25.

CYNERGY

STAY AHEAD OF THE GAME!

Cynergy gives you the lowest action frame on the market (60mm) and the fastest firing system (0.0019 seconds). The composite stock and fore-end make the Cynergy shotgun significantly light and rugged. Finally, the Cynergy's Back-bored™ barrels are also suited to high-performance steel shot shells.

CYNERGY COMPOSITE BLACK

1

INNOVATIVE DESIGN

The exclusive structure of this pad absorbs 1.5 to 2 times more recoil than a conventional pad. The stock length can be adjusted with an insert.

2

FAST FIRING SYSTEM: 0.0019 SECONDS

The specific striker mechanism on this shotgun cuts the time between the first and second shots to just 0.0019 seconds, compared to 0.0031 seconds for its nearest rivals.

3

ACTION FRAME: 60MM, THE LOWEST ON THE MARKET

The exclusive integrated hinge system gives an ultra-low action frame, which has the advantage of making it a natural extension of the shooter.

10-YEAR ACTION FRAME WARRANTY.

LEFT HANDERS

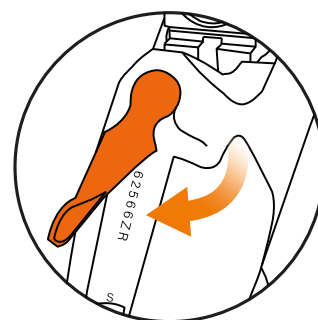

NO-ONE IS LEFT OUT: TRUE LEFT HAND!

Hunters and shooters have at least one thing in common: their unwaveringly high demands. They push themselves as hard as their equipment when it comes to reaching their targets.

A gun that fits your body and your requirements is the best stepping stone to success. Browning has also thought of left-handed shooters with its **True Left Hand** models.

The stock on these models is designed to fit perfectly in the left shoulder.

But the innovative feature is in the top lever, which - you've guessed it - opens to the left! Now left-handed shooters can get back to shooting by instinct and enjoy a gun made for them.

NEW

MAXUS 2

STEEL
SHOT PROVED

**THE MAXUS 2 ADDRESSES HUNTERS' EXPECTATIONS:
EASY HANDLING, FAST AIMING AND COMFORTABLE SHOOTING.**

The Maxus 2 is forged for shooters and hunters who accept no compromise. Performance is your motto, the conditions don't matter. Reliability should be a given — it's not up for

negotiation. Your gun rises to your standards, you don't lower yours for the gun. Your Maxus 2 is the tool you use to build your success.

MAXUS 2 SPORTER NEW

FLAWLESS MECHANICS FOR GUARANTEED RESULTS

MAXUS 2 SPORTER COMPOSITE CARBON FIBER

This carbon-styled Maxus 2 isn't just beautiful: it's also highly equipped. This semi-automatic shotgun is already renowned for its gentle recoil, and it's even gentler with the anti-recoil gel cheek piece and Inflex II recoil pad. The stock is adjustable using the inserts included in the box.

1

EASY HANDLING, FAST AIMING AND COMFORTABLE SHOOTING

Fully adjustable stock. The drop and cast of the Maxus 2 can be altered using the five spacers included in the box, as well as the 7mm stock spacer and 32mm Inflex II recoil pad. A 12mm spacer and 12, 20 and 25mm recoil pads are also available to buy.

2

FULL COMFORT STOCK AND FULLY BALANCED GUN

The Inflex II is one of the best performing recoil pads on the market, directing the force of the recoil downwards and away from the shooter's cheek. The stock also features a Reactor gel cheek piece for even better face protection, especially when firing high-gram cartridges. Three cheekpieces are supplied with the Maxus 2 Sporter composite.

The perfect balance of the Maxus 2 will give you an even more natural swing!

3

THE VALUE-ADDED EXTRA YOU ONLY GET FROM BROWNING: SPEEDLOADING

Speedloading is a Browning proprietary technology that saves you precious time. When you insert the first cartridge into the magazine with the breech open, it is chambered straight away and the bolt springs shut, giving you vital extra seconds to concentrate on what really matters: game or clays!

4

ERGONOMIC

Everything's in hand. Overmoulded forearm and pistol grips keep the gun securely in your hand even when it's raining. The oversized bolt handle and trigger guard make the Maxus 2 easy to handle, even with gloves on.

HiViz Tri-Comp sights on Sporter versions.

5

ACCESSORIES INCLUDED IN THE BOX

5 Invector-Plus™ chokes (1/4, 1/2, 3/4, Full, 1/2+5cm) or (cyl, 1/4, 1/3, 3/4, full) on the hunting versions. Sporter versions are supplied with 5 MIDAS Extended chokes, 32 mm Inflex II recoil pad (pre-installed, 7 mm Stock insert, shims. The 3 cheekpieces are supplied with the Sporter Composite version, available as an accessory for the other composite versions.

6

ADDITIONAL ACCESSORIES AVAILABLE

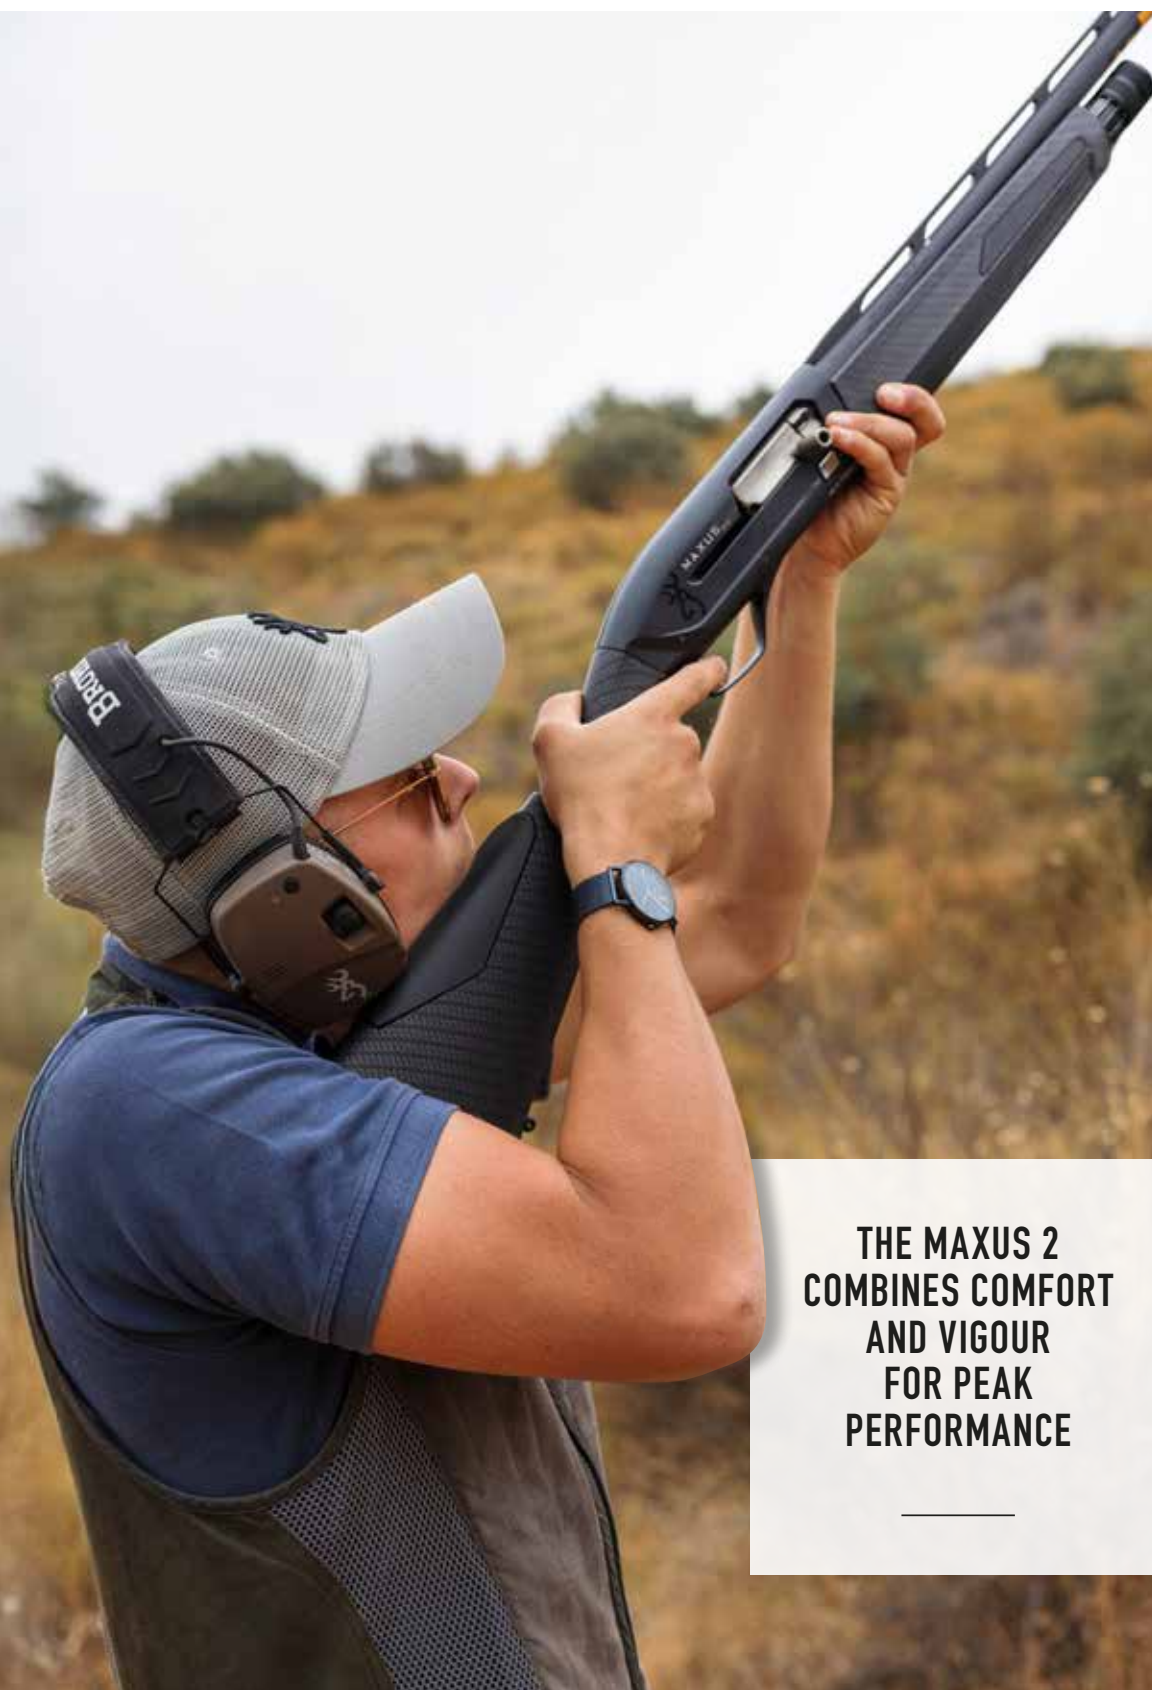

12 mm Stock insert, 12, 20 and 25 mm, Inflex II Recoil pad, gauge : 12/76, 12/89.

MAXUS 2 SPORTER ADJUSTABLE WOOD 12M

The great versatility and gentle recoil of the Maxus 2 make it a popular choice with sports shooters and hunters. This version of the Maxus 2 features a walnut stock and an adjustable comb. The stock can also be adjusted to your body using the spacers provided in the box. With four Invector+ Midas Extended chokes, shooters can be confident of rising to any challenge.

**THE MAXUS 2
COMBINES COMFORT
AND VIGOUR
FOR PEAK
PERFORMANCE**

MAXUS 2

MAXUS 2 WOOD ULTIMATE 12M

Fans of beautiful engraving, admire the Maxus 2 Wood Ultimate. The finely cut engraving on the grey receiver are further enhanced by the grade 3 walnut stock. The stock can also be easily adjusted with the spacers and inserts supplied in the ABS case.

1

INFLEX™ II RECOIL PAD

Much more than a recoil pad in a recoil-absorbing material, the Inflex™ II has been designed with an internal structure that lowers the gunstock and pushes it away from the shooter's face after each discharge, which allows a second shot that is even more comfortable and faster.
Available in 12, 20, 25 or 32 mm.

2

SPEED LOADING AND UNLOADING SYSTEM

Rapid loading systems have been used on Browning semi-automatic shotguns for decades. Our patented Speed Load Plus system chambers the first round straight from the magazine, and unloads quickly without having to run the bolt to chamber each shell.

3

MAGAZINE CUT-OFF

All our Maxus guns, with the exception of the sporting models, are fitted with a magazine cut-off for unloading and replacing the chambered shell with a new load without having to cycle the new shell from the magazine.

4

POWER DRIVE GAS SYSTEM

The Power Drive Gas System uses larger escape valves to remove gas more quickly with heavy loads.
A brand new patented design for an integrated valve keeps residue outside the mechanism for cleaner functioning. A 20% increase in the piston run makes it even more reliable with light charges.
The system works with loads of 24g to 64g.

MAXUS 2 WOOD BLACK GOLD 12M

The Maxus 2 Wood Black Gold is made for those who think beauty is in the contrast. The vividness of the gilts ducks is enhanced by the black of the receiver and matt barrel. The fine grade 3 walnut rounds off a shotgun that looks set to become a classic.

MAXUS 2 HUNTER 12M

The Maxus 2 Hunter brings you grade 2 walnut with a black receiver. This semi-auto shotgun comes with five chokes and is as versatile as it is comfortable to shoot. The 32mm Inflex™ II pad provides perfect recoil absorption, leaving you to focus on the game.

LIKE THE OTHER
BROWNING BRAND
GUNS, THE MAXUS 2
RANGE CONTINUES
TO DEVELOP.

COMPO

MAXUS 2

MAXUS 2 COMPOSITE BROWN 12M 3.5"

The Maxus 2 Composite Brown is actually a two-tone brown and black. The Reactar™ gel cheek pad and Inflex™ II pad go a long way in absorbing recoil. With its pistol grips and grips on the fore-end, you know you've got everything perfectly in hand, in any weather. The bolt handle and cocking handle are oversized for easy handling, even with gloves on.

MAXUS 2 COMPOSITE BLACK 12M 3.5"

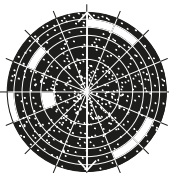

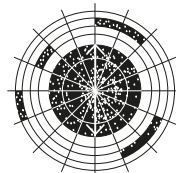

The noticeably low recoil and the speed loading and unloading system make this gun a one of a kind with comfort to match its performance. The Maxus 2 Composite Black delivers in any situation.

MAXUS 2 COMPOSITE BLACK CF 12M

This model retains all of the specific features of the Maxus 2 Composite Black, combined with a carbon finish that gives it a strikingly modern look.

THE PERFECT TARGET

Adjustable Invector-Plus™ chokes have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'a perfect target' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting (Cyl = 15m, 1/4 Choke = 20m, 1/2 Choke = 25m, 3/4 Choke = 30m).

MAXUS 2 CAMO

THE MAXUS 2 COMBINES COMFORT
AND VIGOUR FOR PEAK PERFORMANCE

MAXUS 2 CAMO AURIC 12M 3.5"

Camouflage is science with a touch of art. The Maxus 2 Camo Auric will blend in perfectly with the flora usually found in wetland environments. The Maxus 11 can fire a wide choice of loads from 24 to 64 grams with a reliability beyond reproach. The magazine cut-off lets you get over obstacles without emptying the tube.

MAXUS 2 CAMO MAX 5 12M 3.5"

A model designed par excellence for waterfowl hunters. The gun is coated with the Max 5 camouflage film, the most effective camouflage for waterfowl. It has a super-magnum chamber so you can shoot 70mm-89mm steel shot cartridges.

MAXUS 2 CAMO MOBUC 12M 3.5"

Perfect for marshlands or woods, this Maxus super-magnum is made of a composite material, with a fine MOBUC camo finish: nothing better for blending into the landscape while you wait for the birds to arrive.

BROWNING®

CONTEMPLATE

A5

RELIABLE WITH ANY TYPE OF LOAD. IN ANY EXTREMES OF WEATHER AND DIRT

The A5 was developed to be the most reliable semi-automatic shotgun on the market. The indefatigable Kinematic Drive™ system is what makes it so unfailingly reliable, while further

innovative features such as the Invector DS™ chokes, Inflex™ II recoil pad and Speed Load Plus load/unload system add to the A5's technological punch.

A5 CLASSIC ULTIMATE BECASSE 16

The A5 is built on History. This heir to the world's first semi-auto shotgun, the legend-ary Auto-5, now comes in a 16-gauge version that combines the effectiveness of the 12-gauge with the light weight of the 20-gauge. Active hunters know their stuff and are giving this gauge a new lease of life. Woodcock hunters will appreciate the engraving of the golden-brown bird on the nickel-plated receiver. This shotgun is available with a 26- or 28-inch barrel.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun.

Available in 12, 20, 25 or 32mm.

2

HUMPBACK

Made from lightweight, aeronautic quality aluminium alloy, the A5's receiver is sturdy and its characteristic shape is much more than just a nostalgic return to the past. The receiver's familiar humpback shape fits perfectly with the rib for lengthening your line of sight, which helps you to aim naturally with faster targeting.

3

SPEED LOADING AND UNLOADING SYSTEM

Rapid loading systems have been used on Browning semi-automatic shotguns for decades. Our patented Speed Load Plus system chambers the first round straight from the magazine, and unloads quickly without having to run the bolt to chamber each shell.

4

KINEMATIC DRIVE™ SYSTEM

The system accumulates recoil energy and converts it into a mechanical movement for actuating moving parts. The effectiveness of the Kinematic Drive™ system comes from its simple design that means consistent and reliable operation and effortless maintenance.

5

BACK-BORED™ VECTOR PRO™ BARREL

The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

6

INVECTOR DS™ CHOKES

The Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80mm, an exclusive internal shape and a patented gas seal segment.

A5 CAL 12

SOME THINGS NEVER GO OUT OF FASHION

The A5, the direct heir to the legendary Auto-5, is one. Other things fall out of favour and then become flavour of the day once again. Its unique technical features make this semi-automatic a shotgun for the future — your future.

A5 ULTIMATE PARTRIDGES 12M

A blend of innovative technology and aesthetic appeal. The nickel-plated receiver features finely engraved partridges and pheasants on the wing. The A5 is also impressively specced, with a Back-bored™ Vector Pro™ Invector DS™ barrel, Inflex™ II recoil pad and the Kinematic Drive System. The grade-3 walnut stock has an oil-rubbed finish.

A5 ONE 12M

The A5 One Invector DS™ is the starter version of the A5 family, with an understated receiver that is enhanced by the walnut stock and fore-end. It features all the technical specifications behind the success of the A5. It is available in 12-gauge.

A5 GRAND PASSAGE MAX 5 12M 3.5"

Here is the terror of all wildfowl and pest birds. The A5, available in 12/89 (3½in), includes Invector DS™ chokes and now comes with a hi-tech, ceramic-based Cerakote finish on the barrel, receiver and breech handle, designed to protect against natural wear and corrosion. Its Camo Max 5 composite gunstock and fore-end continue to make it the duck and pigeon shooter's ideal companion.

BROWNING®

READY

NEW BAR 4X

MODULAR, CUSTOMISABLE AND AVAILABLE, ALL IN ONE

Browning is the undisputed leading specialist of semi-automatic rifles, with 55 years of experience in the field. It owes its title to the quality of its firing mechanisms, the gentle gas-operated action that results in minimum recoil

feel, its reliability, but also, and most importantly, to the fact that it has always moved ahead to bring you ever-higher performance.

NEW BAR 4X

NEW: NOW IN COMPOSITE THUMBHOLE VERSION

Two years after the official launch of the new generation Bar, the Bar 4X, we're delighted to announce the addition of a whole range of new features to our online configurator.

BAR 4X COMPOSITE

1 STOCK/HANDGUARD KITS

Composite stock/handguard kits are ambidextrous, so they are equally compatible with left-handed and right-handed Bars.

2 OVERMOULDED GRIPS

Overmoulded grips ensure optimum grasp.

3 STOCK

The stocks come with a fixed cheek rest which can be easily removed by taking out two screws.

4 ADJUSTABLE CHEEK

Ideal, then, if you want to install our adjustable cheek rest in place of the fixed cheek rest. This stock ensures maximum shooting comfort, as it can be adjusted both up and down and side to side. In short, ideally positioning your eye in line with the reticle of your telescopic sight.

5 ADAPTABILITY

The stock's adaptability is further enhanced by the ease with which you can change the Inflex II butt plate. Perfect for modifying the overall length of the stock during the season.

NEWS: BAR 4X TRACK / BAR 4X HUNTER LEFT HAND

BAR 4X TRACKS

The Bar has built its legend on driven hunts. The Bar 4X Tracks features a short barrel for maximum mobility: 47cm in 308Win, 30-06Spr and 9.3x62. The 300WM is fired from a 51cm barrel. There is an attractive buckmark on the black frame. The weapon comes with tracker sights.

BAR 4X HUNTER LEFT HAND

We've also thought of lefthanders with the Bar 4X Hunter Left Hand. The barrel is 53cm in 308Win, 30-06Spr and 9.3x62. All the power of the 300WM is perfectly exploited thanks to the 61cm barrel. Note also the introduction of the 7mm Rem Mag calibre. Ideal for long-range shooting, this calibre is available for the Bar 4X Hunter Right Hand.

BAR 4X

CONFIGURE YOUR OWN BAR 4X RIFLE IN JUST 3 STEPS

WITH THE BAR 4X, YOU CAN CONFIGURE YOUR BROWNING® GUN RIGHT THERE IN THE GUN STORE.

Choose your gun's base, add the stock and fore-end kit, and finish with the optional items (magazine, sights, ...).

A new modular concept to satisfy every hunter's personal technical and aesthetic choices.

MARAL 4X

MODULAR, CUSTOMISABLE AND AVAILABLE, ALL IN ONE

A real technical revolution, its quick-loading system offers shooters incomparable speed and unprecedented firing comfort. Browning combines this new technology with all the experience it possesses in barrel-making and its expertise in safety with its 7-lug bolt, which already equips over a million

rifles throughout the world. Efficiency can also be measured when you look at the breech, which is always contained inside the bolt-casing. This enables shooters to keep their target in their sights continuously when firing.

NEW

MARAL 4X

NEW: NOW IN COMPOSITE THUMBHOLE VERSION

We want to continue bringing you innovative products that go beyond your expectations. This is how the Maral 4X range came to be. How did we do it? We took a new look at our current products, expanded the range and customised the gun the way you want.

1

IMPROVED ACCURACY

The Maral 4X are even more accurate than their predecessors, and they were already renowned for their excellence. This feat was made possible by a barrel thread assembly. But that's not all! The receiver-to-barrel connection is also more solid. The bearing surfaces and the thickness of the wood have been increased.

2

STANDARDISED BARRELS

The 4X range was developed for modular comfort and ease of customisation. Manufacturers know that any modular system requires a common base. This is why all the barrels on the new Maral 4X are fluted and threaded. We've also taken a look at the sights and included a modular barrel-mounted sighting system that can be re-configured in seconds. The barrel is also pre-drilled to accommodate a battue rib, sights for tracking and hide hunting, or a Kite Optics K1 Reflex red dot sight.

3

SUPERLATIVE HAND COCKING SYSTEM

The stroke of the hand cocking system has been reduced by 25% to make handling easier. The knob is also larger for easier handling. The Browning hand cocking system now also comes as standard on all Maral 4X.

4

A STOCK FOR EACH SHOULDER

Wood or composite, the choice is yours! Whatever your preference, the Maral 4X will meet your expectations. Lovers of wood can choose between different styles of stock: pistol grip or Bavarian. You can also choose between several wood grades. 2024 sees the arrival of composite in our catalogue of stocks. Composite has a double advantage: not only is it tough, but it also allows you to go much further in terms of customisation. A butt plate that can be removed in seconds, an adjustable cheek rest, and a choice of colour: spoil yourself!

5

NEW-LOOK AESTHETICS

The new styling of the Maral 4X will immediately catch your eye. A number of the Maral 4X models feature a new engraving.

NEWS: MARAL 4X ULTIMATE / MARAL 4X NORDIC

MARAL 4X ULTIMATE

The ultimate gun. The Maral 4X Ultimate redefines the notion of elegance with its nickel-plated receiver and intricately cut engraving enhanced by the subtle touch of gilding. The fastest straight-pull rifle on the market is also the most appealing.

MARAL 4X NORDIC

Understated and effective. This all-black rifle features a short barrel for better wieldability. Ideal when hunting in dense plant growth.

MARAL 4X

CONFIGURE YOUR OWN MARAL 4X RIFLE IN JUST 3 STEPS

WITH THE MARAL 4X, YOU CAN CONFIGURE YOUR BROWNING® GUN RIGHT THERE IN THE GUN STORE.

NEW

X-BOLT 2

A BOLT-ACTION RIFLE THAT LEAVES NOTHING TO CHANCE !

The X-Bolt 2 combines technical prowess, adjustability and ergonomics so you can live out your passion. This latest generation rifle has its sights on your comfort and thirst for performance combined with phenomenal accuracy to give you a whole new shooting experience.

The new Vari-Tech and Eclipse stocks adapt perfectly to any body and every use. The pull weight of the DLX trigger can also be adjusted, so exceeding your expectations should not be too much of a squeeze.

NORDIC

NEW

X-BOLT 2

NORDIC RANGE

X-Bolt 2 rifles with a Nordic barrel are specially designed to take a sound moderator. The barrel measures 47 to 51 cm depending on the calibre, so you can enjoy the comfort a sound moderator brings without sacrificing mobility!

X-BOLT 2 NORDIC VARI-TECH MODNA ADJ THR

The X-Bolt 2 Nordic Vari-Tech Modna Adjustable is a cutting-edge tool for hunters looking to excel. The spacers provided and the adjustable comb offer great adjustability. The rubber overmouldings on the stock and fore-end provide optimal grip. The short barrel is suppressor-ready without sacrificing its manoeuvrability.

1

VARI-TECH & ECLIPSE STOCKS

Your stock adapts to you, not the other way round. Whether it's the Vari-Tech composite stock or the Eclipse walnut stock, your gun adapts to you for a 100% perfect fit. The overall length of the gun can be adjusted using the inserts and range of Inflex recoil pads, while the adjustable comb gives you a perfect scope alignment for a fast and comfortable shot.

2

DLX TRIGGER

The pull weight of the new DLX trigger can easily be adjusted between 800g and 1.3kg. Whichever weight you select, the shots are always crisp and clean, increasing the accuracy of a gun that is forged for performance.

3

EASY RELOADING

The new fluted bolt of the X-Bolt 2 slides into the receiver with natural ease. This smooth operation is all the more pleasant as the bolt handle can be changed to suit your tastes. The bolt knobs are available as accessories and are identical to those on the Maral 4X and the A-Bolt 3+.

4

MAXIMUM SAFETY

The shrewdly placed button allows you to open the breech without touching the two-position safety.

5

ACCURACY

The barrels of the X-Bolt 2 undergo three stringent inspections to guarantee outstanding accuracy. A free-floating barrel is essential for utmost accuracy. The X-Bolt 2's free-floating barrel is enhanced due to double bedding i.e. positioning of the barrel/breech block assembly at two points with respect to the forearm, at the front and at the rear.

6

STRONG SEDUCTIVE POTENTIAL

The X-Bolt 2 isn't just a tool for achieving your hunting goals: it stimulates your passion. Its sleek contours bring out the quality of the materials used to perfection. The bolt handle can be customised to reflect your tastes. The bolt is fluted, channelling the characteristic modern design of the X-Bolt 2.

X-BOLT 2 NORDIC ECLIPSE ADJ THR

The X-Bolt 2 Nordic Eclipse Adjustable will please all fans of thumbhole stocks. This stock has been designed to give easy access to the safety button when you're ready to take the shot. The adjustable comb lets you aim quickly and instinctively.

X-BOLT 2 NORDIC VARITECH BLACK ADJ THR

The X-Bolt 2 Nordic Vari-tech Black Adjustable features a short barrel that is optimised for a sound moderator. The Vari-Tech stock offers a perfect fit thanks to the system of spacers and an adjustable comb. The 32mm recoil pad is especially absorbent, even with the most powerful calibres.

ALPEN

ALPEN RANGE

If you like a challenge and regularly go head to head with a hostile environment or climate, the X-Bolt 2 Alpen is the gun for you. The barrel length varies according for the calibre, but every X-Bolt 2 Alpen comes with a fluted barrel and cerakoted metal parts, so you can focus on your hunt regardless of the weather.

X-BOLT 2 ALPEN VARITECH MOTER ADJ THR

NEW

The X-Bolt 2 Alpen Vari-Tech Moter Adjustable is made to be at your side on all your hunting adventures. The cerakoted metal components give it added protection against foul weather, drops, brambles and other inconveniences along the way. The stock is highly adjustable so you can shoot with complete confidence.

X-BOLT 2 ALPEN PROCARBON THR

NEW

The X-Bolt 2 Alpen ProCarbon not only stands out because of its charming style, but also because of its featherweight build. The cerakoted metal components protect your gun against any harsh environments.

DISTANCE

DISTANCE RANGE

If you're a fan of long-range shots, the X-Bolt 2 Distance is designed for you. The barrel measures 58 to 63cm depending on the calibre, so you can unleash the full potential of your ammunition.

X-BOLT 2 DISTANCE VARITECH BLACK ADJ THR

NEW

The X-Bolt 2 Distance Vari-Tech Black Adjustable combines a leading-tech stock with a long barrel so you can set your standards for accuracy higher, even at long range.

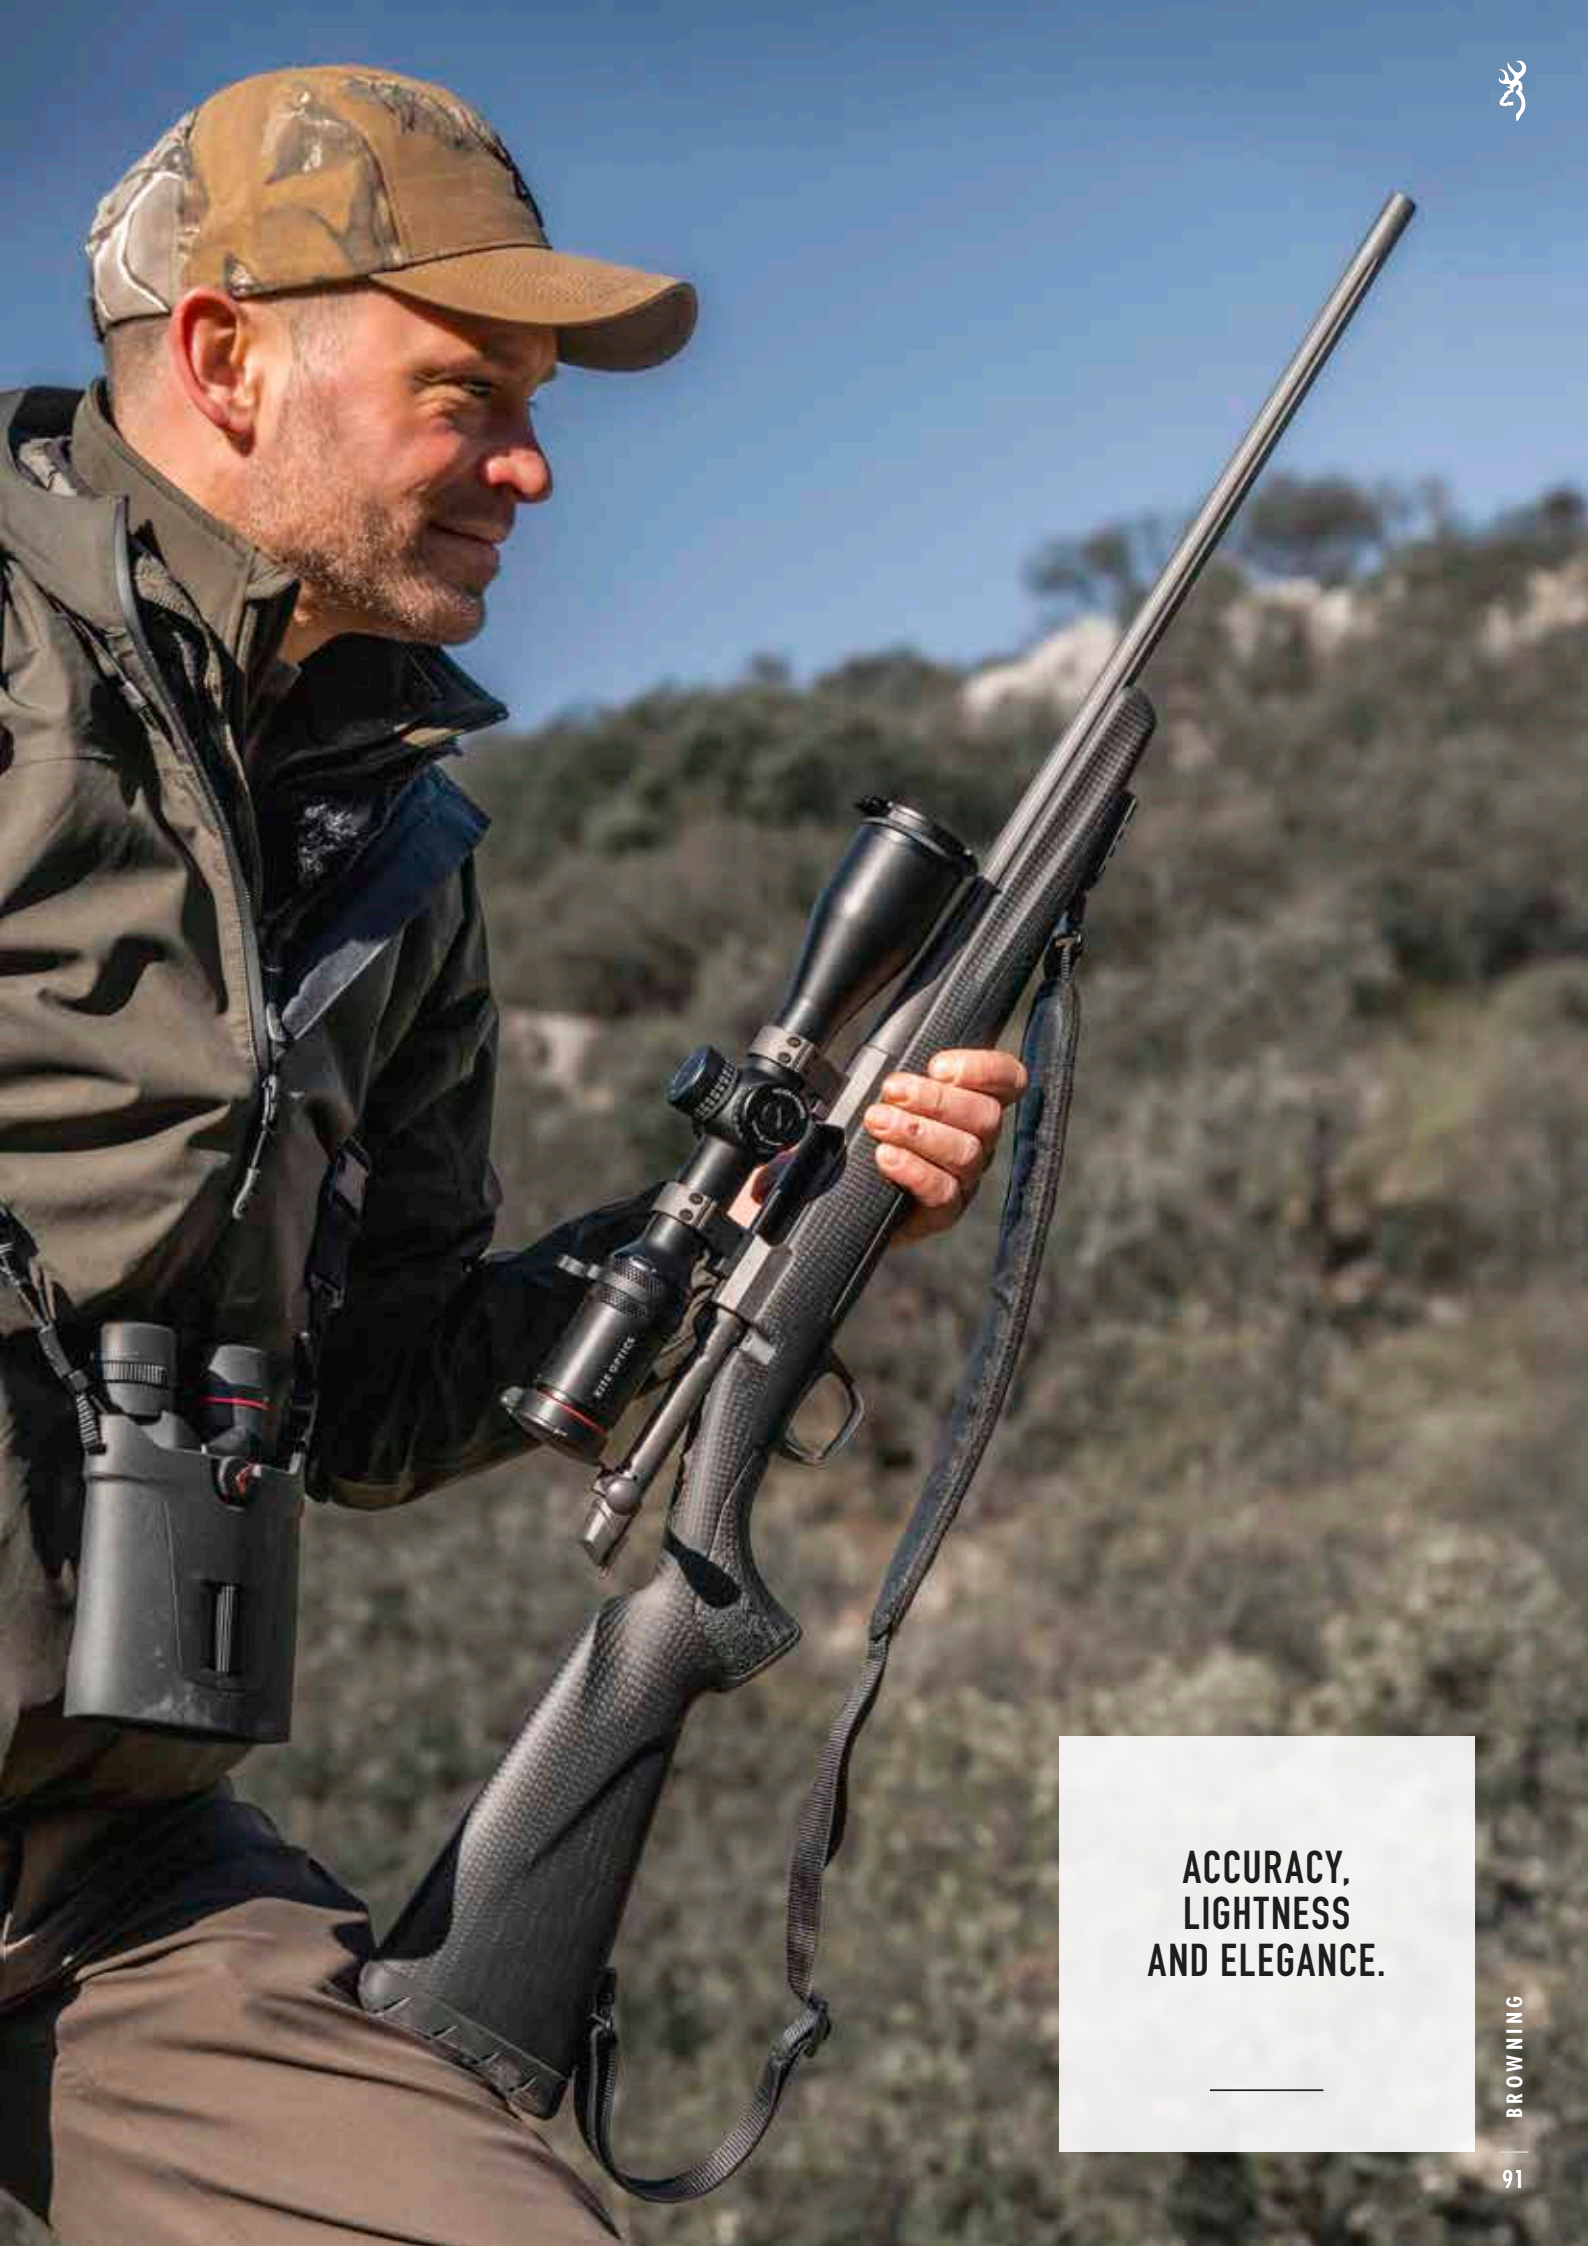

X-BOLT 2 DISTANCE ECLIPSE ADJ THR

NEW

The X-Bolt 2 Distance Eclipse Adjustable lets the most demanding shooters set the bar even higher. The long barrel can fire the best of every munition. The thumbhole stock ensures maximum stability in the pursuit of accuracy.

VARI-TECH

NEW

THE VARI-TECH STOCK OPTIMISES THE COMPOSITE MATERIAL FOR MAXIMUM ADJUSTABILITY AND COMFORT.

- 1 These internal spacers work in the same way as the external 7mm spacers, adjusting the length of pull from between 327 and 373mm from inside the stock for strength and stability without affecting the aesthetics.
- 2 The 32mm Inflex pad offers effective recoil absorption, even with the most powerful calibres. A 25mm Inflex pad is available to buy separately.
- 3 The adjustable stock allows you to align perfectly with your optics for fast target acquisition.
- 4 The interchangeable pistol grips ensure perfect fit for your style of shooting.
- 5 The fore-end is as technically advanced as the rest of the gun. The overmouldings provide the perfect grip in all weathers for maximum stability and safety.

ECLIPSE

NEW

THE THUMBHOLE IN THE ECLIPSE GRADE 2 OIL-RUBBED WALNUT STOCK IMPROVES YOUR GRIP FOR GREATER SHOT ACCURACY.

- 1 The 25mm Inflex pad offers effective recoil absorption, even with the most powerful calibres. A 32mm Inflex recoil pad and external 7mm spacers are available to buy separately.
- 2 The adjustable stock allows you to align perfectly with your optics for fast target acquisition.
- 3 You can place your thumb in or out of the hole as you prefer while keeping the safety button in easy reach in both cases.

PRO CARBON

NEW

THIS CARBON STOCK IS THE IDEAL FEATHERWEIGHT OPTION FOR HUNTERS WHO ARE UNDAUNTED BY THE EFFORT REQUIRED ON THE MOST DEMANDING HUNTS!

3 BARRELS TYPES

NORDIC

NEW

X-BOLT 2 RIFLES WITH A NORDIC BARREL ARE SPECIALLY DESIGNED TO TAKE A SOUND MODERATOR. THE BARREL MEASURES 47 TO 51CM DEPENDING ON THE CALIBRE, SO YOU CAN ENJOY THE COMFORT A SOUND MODERATOR BRINGS WITHOUT SACRIFICING MOBILITY!

DISTANCE

NEW

IF YOU'RE A FAN OF LONG-RANGE SHOTS, THE X-BOLT 2 DISTANCE IS DESIGNED FOR YOU. THE BARREL MEASURES 58 TO 63CM DEPENDING ON THE CALIBRE, SO YOU CAN UNLEASH THE FULL POTENTIAL OF YOUR AMMUNITION.

ALPEN

NEW

IF YOU LIKE A CHALLENGE AND REGULARLY GO HEAD TO HEAD WITH A HOSTILE ENVIRONMENT OR CLIMATE, THE X-BOLT 2 ALPEN IS THE GUN FOR YOU. THE BARREL LENGTH VARIES ACCORDING TO THE CALIBRE, BUT EVERY X-BOLT 2 ALPEN COMES WITH A FLUTED BARREL AND CERAKOTED METAL PARTS, SO YOU CAN TAKE YOUR SHOOTING TO NEW HEIGHTS WITHOUT WORRYING ABOUT YOUR HARDWARE.

RESULTS.**

BLR

THE PERFECT PARTNER ON DRIVEN HUNTS

Featuring a flawless mechanism, this is the only magnum calibre lever-action rifle.

BLR LIGHTWEIGHT TRACKER

The Tracker version of this lever-action rifle includes a laminated wood stock. It has been treated to an ultra-strength Cerakote surface treatment for unbeatably long-service life. The sights and short barrel make this an excellent gun for driven hunts and tracking.

BLR LIGHTWEIGHT HUNTER LAMINATED

The BLR is the only lever-action rifle developed in magnum calibres. Its mechanics are impeccable and characterised by the exceptional smoothness of its operation. It has a removable magazine, a high quality barrel and is ready for fitting a scope.

WHY CHOOSE A LAMINATED/GLUED WOOD STOCK ?

- The first and foremost advantage of a laminated/glued wood stock is the high density of the material that makes it extremely robust.
- Laminated/glued stocks are far more resistant to abrasion and humidity.
- The glue that we use to bond our birch stocks can also withstand water.
- Whether you're on the range or on a hunt, you don't have to worry about getting your gun out. This is where this stock really excels.
- The stability of a laminated/glued stock improves the gun's accuracy slightly, and above all its service life.
- The birch wood is dyed in the mass, so you can make it look as good as new just by sanding, without having to re-apply colour.
- We do not use any substances that are toxic to the environment or the gun user.

A-BOLT 3+

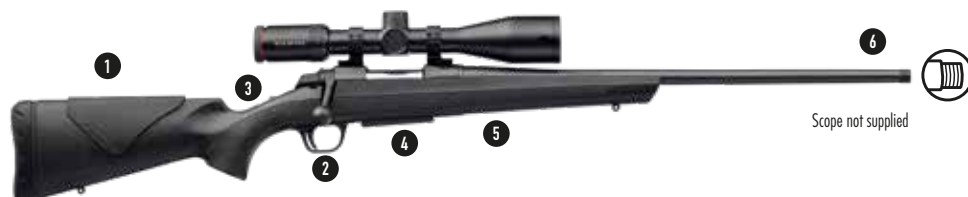

A LEGEND IN THE MAKING.

You want unique experiences. You are unique and, with you, so is your rifle.
With the generation of A-Bolt 3+, you can customise your gun to reflect who you are.

A-BOLT 3+

A-BOLT 3+ COMPOSITE

The A-Bolt 3+ Compo may look sober at first glance, but it offers an extensive range of customisation options. The stock comes with a black cheekpiece that can easily be swapped out for one of a different colour or for an adjustable comb. The fore-end is also replaceable.

CUSTOMISE YOUR A-BOLT 3+

1

DETACHABLE CHEEKPIECE

The cheekpiece on the A-Bolt 3+ can be replaced. We sell cheekpieces as accessory items in a range of colours. The stock is also pre-drilled for you to fit an adjustable comb.

2

REPLACEABLE BOLT HANDLE KNOB

The bolt handle knob is easy to replace. A wide range of knobs are available to buy.

3

60° OPENING

The breech opens to 60° for fast cocking action with any size of scope in any position.

4

HIGH-CAPACITY DROP-BOX MAGAZINE

The 5 rounds in the .243 Win, .308 Win and .30-06 magazines offer you a margin of error. The magazine capacity for the .300 WM calibre is 3 rounds.

5

WIDE AND FLAT FORE-END

A fore-end is available in a very wide version to give you excellent grip and an advantage on a driven hunt, where every moment counts. It is also flat for better stability when your A-Bolt 3+ is resting on your bag or elevated hide. Available in different colours.

6

THREADED BARREL (M14X1)

On all models for attaching a muzzle break or sound moderator.

A-BOLT 3+ COMPOSITE BATTUE

The A-Bolt 3+ also comes in a Composite Battue version. The 23mm bolt handle knob can be replaced with other knobs that are available as accessory items. The barrel is threaded for use with a sound moderator or muzzle brake.

A-BOLT 3+ COMPOSITE OD GREEN

This highly customisable bolt-action rifle is available in green. The wide, flat fore-end guarantees maximum stability when you place it on your stand as you take the shot. As with the cheek piece, it can be swapped out for another fore-end in a different colour.

A-BOLT 3+ TRACKER

The A-Bolt 3+ also comes in a tracker version. The A-Bolt 3+ Tracker is extremely safe thanks to its bolt action and push-button safety, and features an 18½-inch threaded barrel for total ease of movement in even the densest of environments. The orange cheekpiece and fore-end make you more visible to other hunters. As with all the A-Bolt 3+ rifles, it offers extensive customisation options with a recoil pad, cheekpiece, bolt knob and fore-end that are all replaceable.

A-BOLT 3+ BLACK BEAST

The A-Bolt 3+ Black Beast is the bane of large game. With its adjustable comb and semi-weight barrel, it offers exceptional accuracy. The rifle is just as customisable as the A-Bolt 3+ Compo, and also compatible with the Kite Optics K1 Reflex red dot sight – the lowest mounted red dot on the market that lets you take highly instinctive shots.

A-BOLT 3+ HUNTER

The A-Bolt 3+ Hunter features a grade 1 walnut stock. The 23mm bolt handle knob can be replaced with other knobs that are available as accessory items. The barrel is threaded for use with a sound moderator or muzzle brake.

A-BOLT 3+ HUNTER BATTUE

The A-Bolt 3+ Hunter Battue will excel when you're at the peg on a driven big game day. The battue rib and fibre-optic sight will aid you in acquiring your game in record time. The 60° bolt angle lets you reload quickly without being hampered by your scope.

A HIGH-PERFORMANCE CARBINE AT A VERY INTERESTING PRICE

This rifle allies a modern production system with the trusted Browning quality in order to produce a high-performance carbine. The A-Bolt 3+ gives you the precision and performance you want in a hunting rifle and its cost-effective budget is a real delight.

T-BOLT

FEARSOMELY ACCURATE

The T-Bolt rifle from Browning is the reference in .22LR calibre recreational shooting. The T-Bolt is popular, with tens of thousands of units sold, and features a reloading system unlike any other.

T-BOLT SPORTER

This rifle is a re-release of a best-seller, a legend. Available in .22LR and 17 HMR calibres, it is aesthetically close to its ancestor, the first T-Bolt, but the mechanics have been completely modernised. It is characterised by its straight-pull bolt that loads cartridges from an exclusive ten-round rotating magazine.

1

STOCK

Wood stock and pistol grip.

2

BREECH AND BOLT

The breech of the T-Bolt is made of polished grey steel. The bolt is a straight pull that locks into the casing.

3

TWO-POSITION SAFETY

The ambidextrous safety is positioned at the rear of the breech casing. A red dot indicates that the gun is armed.

4

FIRING SYSTEMS

The smooth, wide gold-tone trigger gives you a sharp, crisp and direct break with zero travel. The pull weight is adjustable.

5

DETACHABLE TEN-ROUND MAGAZINE

The detachable Helix magazine is ergonomic and fast. It uses a rotary system and holds ten .22LR rounds.

T-BOLT SPORTER COMPOSITE

Available in a left-handed version

This version is equipped with a gunstock made of highly-resistant ergonomic composite, allowing intense use in all conditions. Another very useful characteristic is an additional magazine integrated in the gunstock and, more particularly, in the pad.

T-BOLT TARGET VARMINT BLUED LAMINATED ADJ

Scope not supplied

A bundle of joy! This straight-pull rifle will redefine your shooting experience with .22LR and 17 HMR calibres. The laminated wood stock is especially hard-wearing in harsh weather and harsh environments. Thanks to its adjustable comb, you will have your target sighted as soon as you shoulder.

RANGE T-BOLT

THE UNDOUBTED ACCURACY OF THE T-BOLT RIFLES MAKES THEM THE ONE TO BEAT IN .22 LONG RIFLE CALIBRE RECREATIONAL SHOOTING.

INTENSELY
ACCURATE.**

BL-22

THE DRAW OF THE FAR WEST

If you're a fan of westerns, the .22, or just love a gun that is as handsome as it is original, the Browning BL-22 is for you. One specific attribute of this lever-action rifle is its very short lever throw. Now you can reload very quickly and spend more time plinking. Another feature of the BL-22 is that it can fire .22Short, .22Long and .22 LR. The open sights allow for an instinctive shot, and a scope can be fitted easily if you prefer.

BL-22 GRADE 2

This jewel of the era of the pioneers, back in the Wild West, the .22 BL with its short movement action-lever (33°), external hammer, and magazine tube. It enables you to mix all types of cartridges (.22Short, .22Long, .22 LR) with no risks of jamming.

BL-22 FIELD NICKEL GRADE 2

The BL-22 Field Nickel Grade 2 combines grade 2 Turkish walnut with a nickel-plated receiver. The open sights give fast target acquisition, while the short stroke action gives you a faster shot at the next target.

AMMUNITION

EXCEPTIONAL GUNS DESERVE EQUALLY HIGH-LEVEL AMMUNITION.

1

POLYMER TIP

Better long-range speed
and energy retention.
Faster expansion.

2

HOLLOW POINT

Immediate expansion
and massive energy transfer.

3

MONOLITHIC CONSTRUCTION (COPPER)

Near-100% mass retention.
Deep penetration. Lead-free.

BXS – MONOLITHIC LEAD-FREE

The Browning BXS is ideal for big game. Its monolithic copper construction provides near-100% mass retention. This means all its energy is saved to penetrate deep into even the thickest hides and ensure overwhelmingly lethal knockdown power. The polymer tip expands fast for maximum impact shock. The nickel-coated casings are corrosion resistant and make loading easier, promising a fast shot backed by guaranteed devastating knockdown power. And because Browning's BXS is lead-free, it can be fired in hunting zones that have lead restrictions in place.

BUCK MARK

ACCURATE AND RELIABLE IN ONE

Browning Buck Mark rimfire pistols are highly valued due to their quality, reliability and accuracy. These pistols have a receiver made from a single aluminium block machined using numerical control. The barrel is machined in a single top-quality steel block and the chamber is hand-bored to guarantee optimal accuracy.

1

TWO REACTAR™ RECOIL PAD POCKETS

However hard you train, the repeated impacts against your shoulder are also going to impact your performance. The Reactar™ pad absorbs a large proportion of the recoil so that you can keep your mind on the target.

2

ELASTICATED BELT WITH BUTTONS

The weight of the cartridges can hamper your movement when you're taking the shot. The new comfort-fit elasticated belt on your Browning vest puts the weight of the cartridges on your hips instead of your shoulders for smooth and unhindered movement.

3

NEW SLIM FIT

A poorly fitting vest won't help you get that perfect swing, and your performance will suffer. The new slim-fit Browning vest is perfectly tailored to your body, moves with you, and lets you show exactly what you can do.

4

TWO-WAY ZIPPER

Our designers have added a two-way zip so that you can adjust your vest perfectly to your body shape. Now your vest will always provide the perfect fit, your shots will be more relaxed and you'll be at the top of your game.

5

ERGONOMIC POCKETS AND REAR POCKET

The large ergonomic front pockets give you easy access to the ammunition.

6

HIGHLY BREATHABLE MESH BACK

The mesh back keeps it lightweight and provides ventilation and extra storage.

PRODUCTS YOU CAN RELY ON

Browning offers a full range of clothing made to the same high standards as its guns. Our competitive prices and ultra-technical product range have firmly established us as an essential clothing brand for hunters and sport shooters.

PREVENT Ultra-effective 10K/10K waterproof, breathable and wind-resistant membrane.

AIRFLOW A design and manufacturing process that wicks sweat more effectively even during intense activity.

KEVLAR A fibre that is five times stronger than steel, weight for weight. Tracking jackets, your garments are equipped to take on the harshest environments.

Dyneema Ultra-tough, super-lightweight fibre. Used in dog safety vests, specially developed to protect against punctures.

PREVENT XTREM Membrane that provides optimum breathability (20K) and outstanding water resistance (20K) to keep you dry all the time, in any weather and at any level of activity.

WINDPRO Special membrane designed to block the wind outside your clothing to keep you protected.

B-WEAR Browning has selected specific components to ensure that your clothing will resist wear and especially damage caused by brambles.

B-TEMP Special component for perfect protection against the cold, developed especially for Browning from premium components selected together with our best suppliers.

THERMOLITE Thermolite® hollow-fibre technology provides the perfect insulation from clothes that are lightweight, breathable and quick-drying for extra comfort.

ARMORTEX Armortex® fabrics are a blend of Kevlar® para-aramid and polyamid that make for fantastically hard-wearing garments and the perfect barrier against brambles and thorns, while offering maximum protection for hunters.

CORDURA Incredibly tough and lightweight fibre. It adds flexibility, lightness and strength to your clothes and dog jackets. When combined with elastane, it creates a tough yet light, flexible and stretchable garment.

Thinsulate Thinsulate™ fibres give you light, flexible and compressible clothes that also insulate you against the cold.

SOUND MODERATORS

THE PERFECT BALANCE

Browning Iridium sound moderators were developed to provide hunters and shooters with the perfect balance between size and performance. You will benefit from a reliable, high performance and accurate product that allows you to keep your movements fluid and simple to use.

NOISE TO SIZE RATIO

For Browning Iridium, noise to size ratio is a key point in all product developments. But as we are all hunters and shooters, we know what is a good ratio: 'Maximize the comfort and the swing in order to get the best result.'

BENEFITS

- Noise reduction
- Great recoil reduction
- Improved accuracy
- Over-barrel design for better balance/stability
- Eliminated muzzle flash
- Simple use

IMPORTANT: THIS IS A REGULATED PRODUCT THAT CAN ONLY BE SOLD AND/OR USED IN CERTAIN COUNTRIES AND/OR REGIONS – ALWAYS COMPLY WITH APPLICABLE LEGISLATION.

FOR SEMI-AUTOMATIC RIFLES

In order to use a sound moderator with a semi-automatic firearm that is gas operated, it is normally necessary to check and sometimes adjust the gas flow to ensure that cartridge cases are reliably ejected. But the Browning Iridium Semi allows you to attach your moderator to your rifle without having to adjust the gas flow. So, you have greater ease of use, flexibility and speed thanks to the Browning Iridium Semi. Its exclusive mechanism, tested on the world's best-selling semi-automatic rifle, allows you to hunt with complete peace of mind and discretion.

NOMAD

ULTRA-HIGH-PERFORMANCE REMOVABLE MOUNT: ONLY ONE ADJUSTMENT, MULTIPLE SCOPES ON MULTIPLE GUNS

A full mount consists of a base rail **A** (single or multiple) matched to the gun and a top rail **B** that is specific to the scope. The base rails are available in SINGLE or MULTIPLE versions. The multiple is adjustable in windage and elevation, and lets you use the same scope on a second gun.

PRECISE

The patented bolt technique gives perfect attachment, exceptional resistance and constant precision, whatever the scope used.

FAST

Using the thumbwheel attachment, change scopes fast, without running the risk of losing alignment.

VERSATILE

With the NOMAD MULTIPLE base rail, adjustable in windage and altitude, you can now use all your scopes on any gun, without having to adjust your aim before each change.

FIXED MOUNTS

FOR RIFLES AND SHOTGUN

Our integrated scope mount avoids problems with alignment and eliminates potential loose base-to-ring connections. The ring **A** and base **B** form a single ultra-rigid unit machined from a 7000 series aluminium alloy.
