SMALL AND BIG GAME HUNTING

As you leaf through our catalogue, you have at your fingertips a world of possibilities, all of them sharing the same common values that are dear to Browning: performance, reliability and innovation. Thanks to the online configurator, the Bar 4X and Maral 4X are revolutionising the way you buy a gun that gives you everything you want, without, of course, sacrificing the qualities that have forged our reputation.

This catalogue is bursting with innovative products that set the standard in their field. Our over-and-under shotguns are designed to make you dream and to last. Each new generation writes a new chapter in the story of your life as a hunter. With our rifles comes peace of mind: their accuracy is beyond dispute. Each product line matches your high expectations.

NEW BAR 4X COMPOSITE

Bar 4X: the one and only » SEE PAGE 40

The Bar 4X, the next generation of the legendary Browning Bar, now comes in a composite version. With our online configurator, you can gain a picture of your preferences as you create a gun built for you. Available with a range of colour schemes, receivers and calibres for your added satisfaction.

CREATE YOUR OWN BAR 4X AND MARAL 4X

NEW MARAL 4X COMPOSITE

B725

'LEGENDARY RELIABILITY' AND 'INNOVATION' ARE B725 WATCHWORDS.

The Browning B725 is an aesthetic and technical revolution in over-and-under shotguns. Based on the legendary B25, it is innovative whilst retaining the many existing design features of the B525, which – we are proud to repeat – makes it the most outstanding over-and-under shotgun on the market.

B725

THE LEGENDARY STRENGTH NOW COMBINES
WITH REVOLUTIONARY DESIGN AND FEATURES

B725 HUNTER G5 12M

This luxury version of the B725 possesses a delicate, entirely hand-finished engraving. Its top-quality grade-4 wood is oil-rubbed. The gun is delivered with a deluxe opaline case for safe and stylish transport.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

HIGH-PERFORMANCE MECHANICAL TRIGGER SYSTEM

This firing system is shorter, faster and lighter giving more control over your shooting. Browning's innovative mechanical firing system provides ease of use for hunters and shooters, guaranteeing that a second shot can be fired whatever the circumstance.

3

LOW ACTION FRAME

The low action frame provides these benefits when shooting. It enables faster aiming and therefore more instinctive shooting. Thanks to the frame's inline recoil providing a more comfortable shooting position, it reduces muzzle flip and makes for good manœuvrability and effectiveness when shooting.

ACTION FRAME GUARANTEED FOR TEN YEARS.

4

BACK-BORED™ VECTOR PRO™ BARREL

The Back-bored™ Vector Pro™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

5

INVECTOR DS™ CHOKES

We developed our adjustable Invector DS™ chokes for our Back-bored™ barrel system.
We designed them to obtain perfect spread at different shooting distances. Depending on the Browning choke you use, you can adapt your gun for the distances at which you shoot and the game you are hunting (Full Choke = 35m, ¾ Choke = 30m, ½ Choke = 25m, ¼ Choke = 20m, Cyl = 15 m).

B725 HUNTER UK PREMIUM II 12 & 20M

The B725 UK Premium II range reaches new aesthetic heights with beautifully honed contours. The stock is enhanced by a rounded pistol grip, and the gun is ornamented with animal engravings that depict partridge and pheasant on the 12-gauge and partridge and woodcock on the 20-gauge.

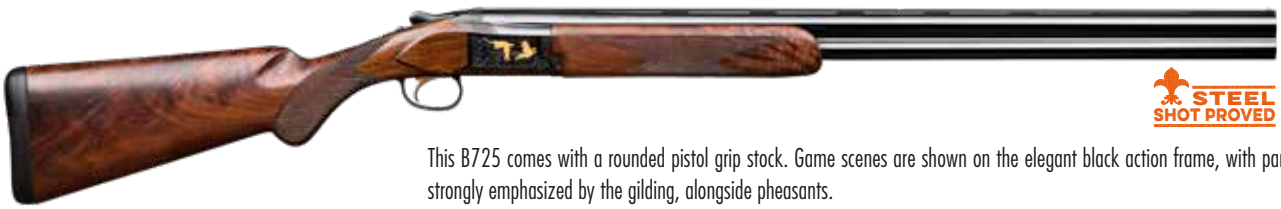

B725 GAME 12M

Available in a true left-handed version

The action frame of the B725 Game is made of steel complete with charming engravings. The nitride finish affords a grey look that is especially pleasing to the eye and an excellent barrier against corrosion. The B725 Game includes grade 3 turkish walnut and is fitted with a new stock that further enhances the ergonomic characteristics of a B725 that has nothing more to prove.

B725 HUNTER UK BLACK GOLD II 12M

This B725 comes with a rounded pistol grip stock. Game scenes are shown on the elegant black action frame, with partridge strongly emphasized by the gilding, alongside pheasants.

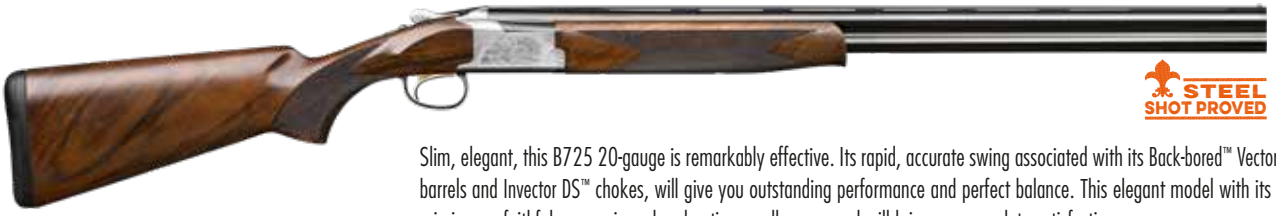

B725

B725 HUNTER LIGHT PREMIUM 12M

Its action frame in lightweight aluminium reduces the weight of the gun by more than 300g for an even easier swing. Shouldering, tracking and hitting your target become one fluid movement: its Back-bored™ barrels, five Invector DS™ chokes, and 12mm recoil pad are a credit to modern technological progress, while the exquisitely designed nickel-plated aluminium receiver and grade 3 turkish walnut woodwork make it an over-and-under shotgun of great distinction.

B725 HUNTER PREMIUM 20M

Slim, elegant, this B725 20-gauge is remarkably effective. Its rapid, accurate swing associated with its Back-bored™ Vector Pro™ barrels and Invector DS™ chokes, will give you outstanding performance and perfect balance. This elegant model with its pistol grip is your faithful companion when hunting small game, and will bring you complete satisfaction.

PUT ENJOYMENT AT THE HEART OF THE STORY

Whether you're right-handed or left-handed, an experienced hunter or a novice, Browning products are developed with you in mind. So now you can keep your mind on one thing: your passion!

FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made of indestructible forged steel.
- Wide flat bolt which guarantees locking surfaces which are three times greater than other systems.
- A unique hinge pin, wide diameter, guarantees optimal resistance to wear. A guarantee of long-life.
- Impact wheel ejectors: straighter, more powerful ejection than retaining ejectors.
- Chromed barrels and chambers, no rust, easy maintenance.

ACTION FRAME GUARANTEED FOR 10 YEARS

HERITAGE

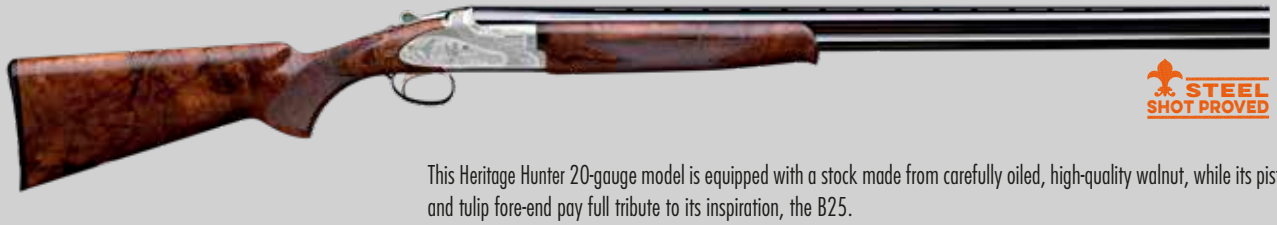

WHEN HUNTING BECOMES AN ART

HERITAGE HUNTER II 12M

Available in 12-gauge, the Heritage Hunter is a model of perfect balance, delicacy and ease of handling. It has a rounded pistol grip made from superb oil-finished walnut. Partridge and woodcock are brought out to magnificent effect on the sleek, low action frame.

HERITAGE HUNTER 20M

This Heritage Hunter 20-gauge model is equipped with a stock made from carefully oiled, high-quality walnut, while its pistol grip and tulip fore-end pay full tribute to its inspiration, the B25.

B525

SHOOTER AND GUN AS ONE.

The B525 shotguns from Browning have built a reputation for excellence over the years. They provide the quality you demand when hunting small game: effective, elegant, reliable. Do your dreams justice.

B525 COMPOSITE

TOP OF THE RANGE IN ALL TERRAIN

The B525 Composite model is packed with appeal! Outstandingly rugged, fully adjustable, and more than a match for harsh weather and intensive shooting sessions. The overmoulded pistol grip and fore-end provide better handling while showing off its attractive lines to subtle effect. The balance can be adjusted with weights and counter-weights on the barrels and stock to give you that perfect swing. The adjustable cheek piece offers target acquisition in the blink of an eye, and the trigger is also easily adjustable for maximum comfort. The B525 Composite also features Back-Bored™ barrels that are perfect for steel shot, and an Inflex™ II recoil pad for gentler felt recoil.

1

INFLEX™ II RECOIL PAD

The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

ADJUSTABLE CHEEK PIECE WITH MEMORY SYSTEM

Minutely adjustable cheek piece for an accurate aim.

3

ADJUSTABLE TRIGGER

The adjustable Triple Trigger System lets you make minute changes to the finger-trigger position on target shooting models. It includes three trigger shoes: wide chequered, narrow smooth and wide smooth canted.

4

BACK-BORED™ STEEL-SHOT PROOFED BARRELS

Do you go wildfowling from long range?
Do you go rough shooting with your dog?
A round of sporting clays with your friends?
The B525 Composite excels whatever you're hunting or shooting.

5

PROFIT BALANCE™

The stock is ready for a stock and barrel counterweight system (not included in the box).

6

MODERN AND INNOVATIVE AESTHETIC

The shotgun bears the signature of John Moses Browning under the fore-end and features two Browning badges in aluminium. The overmoulded stock and fore-end afford it a slender style and make it comfortable to handle

7

INVECTOR-PLUS™ CHOKES

Browning developed Adjustable Invector-Plus™ chokes for our Back-bored™ barrel system. We designed them to obtain a perfect target at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting. (Cyl = 15m, ¼ Choke = 20m, ½ Choke = 25m, ¾ Choke = 30m).

B525 EXQUISITE

B525 EXQUISITE 12 & 20M

Available in a true left-handed version (12M)

STEEL SHOT PROVED

Grade 4 Turkish walnut stock, carefully crafted deep engraving, and leather carry case: the B525 Exquisite represents the pure tradition of luxury guns.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made from indestructible forged steel.
- Extra-wide flat bolt and hinge pin.
- Impact wheel ejectors for cleaner ejection.
- Chrome-plated barrels and chambers.

3

BACK-BORED™ BARREL

The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

4

INVECTOR-PLUS™ CHOKES

Browning developed Adjustable Invector-Plus™ chokes for our Back-bored™ barrel system. We designed them to obtain a perfect target at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting.
(Cyl= 15m, 1/4 Choke= 20m, 1/2 Choke= 25m, 3/4 Choke= 30m).

B525 GAME 1

B525 GAME 1 12M

B525 GAME 1 20M

The B525 Game 1 (12-gauge and 20-gauge) range is your perfect partner on the hunt. Its single-piece, forged-steel action frame and lightweight Back-bored™ barrels combined with Invector-Plus™ chokes make it your ideal shotgun for hunting. It is available in an automatic safety version.

B525 GAME 1 LIGHT 12M

B525 GAME 1 LIGHT 20M

These Light models (12-gauge and 20-gauge) include all the features of the B525 Game 1, and enhance its natural qualities with a lower-weight alloy receiver for a lighter gun.

TRADITION

B525

B525 GAME TRADITION 20M

The B525 Game Tradition is available with a steel action frame, and features sublime grade 5/6 oil-finished American walnut that puts it in a class of its own. Available with back-bored barrels. The B525 Game Tradition 20M gauge comes fitted with an automatic safety (can be removed on request).

B525 GAME TRADITION LIGHT 20M & 28

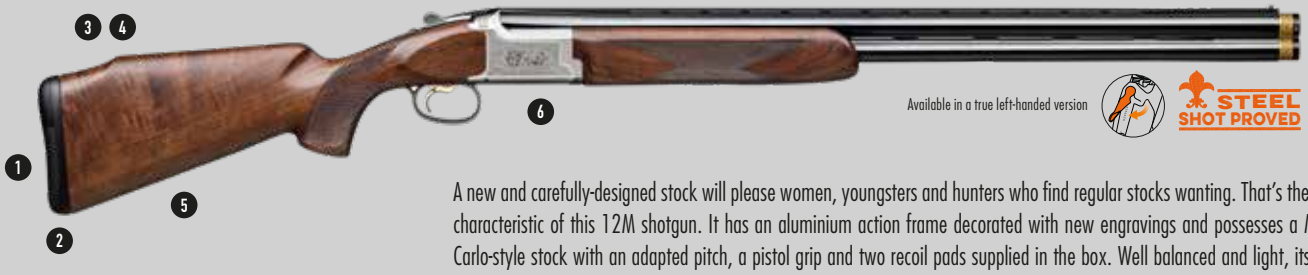

The B525 Game Tradition Light comes in back-bored 20M gauge (with 4 Invector-Plus™ chokes) and in standard-bore 28-gauge (with 4 Invector chokes). Both are delivered in an ABS case.

B525 LIBERTY

B525 LIBERTY LIGHT 12M

Available in a true left-handed version

STEEL SHOT PROVED

A new and carefully-designed stock will please women, youngsters and hunters who find regular stocks wanting. That's the main characteristic of this 12M shotgun. It has an aluminium action frame decorated with new engravings and possesses a Monte Carlo-style stock with an adapted pitch, a pistol grip and two recoil pads supplied in the box. Well balanced and light, its level of technical perfection will give you a feeling of real liberty.

1

PITCH: TOTAL COMFORT

The 80° pitch limits the contact between the toe of the stock and the shooter's chest for optimum comfort and lower felt recoil.

2

LENGTH OF RECOIL PADS

The B525 Liberty Light 12M is delivered with three Inflex™ II recoil pads, combined with a grip that is adapted for small hands and a trigger system, both of which are adjustable.
It is easy to configure it for perfect ergonomics.

3

ADVANTAGE OF 4MM-10MM

The advantage is in the tilt of the recoil pad in relation to the axis of the top rib – This advantage has been modified with respect to standard models and will be clearly preferable for ladies without impairing men's comfort when shooting.

4

DROP

The drop is the height of the back of the stock in relation to the top rib. The drop of the B525 Liberty Light 12M is higher than standard stocks. This feature allows the shooter improved cheek contact on the back of the stock and thus limits recoil impact.

5

STOCK

This is a new stock developed for ladies, young people and shooters who are not completely satisfied with standard measure stocks.

6

ALUMINIUM ACTION FRAME AND VENTILATED RIBS

The alloy action frame and the ventilated ribs of the B525 Liberty Light 12M produce a lightweight gun. Its 8mm ventilated rib allows it to be used for all kinds of sporting shooting.

LAMINATED

B525 GAME LAMINATED 12M

Available in a true left-handed version

STEEL SHOT PROVED

The modern style of this B525 Game Laminated isn't its only standout feature: the consistent density of its laminated wood makes it extremely rigid and keeps it perfectly stable when taking the shot.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made from indestructible forged steel.
- Extra-wide flat bolt and hinge pin.
- Impact wheel ejectors for cleaner ejection.
- Chrome-plated barrels and chambers.

3

BACK-BORED™ VECTOR PRO™ BARREL

A Back-bored™ barrel has a wider-diameter bore, which improves performance in three ways: increased velocity, better penetration/shot grouping, lower recoil.

4

INVECTOR-PLUS™ CHOKES

Browning developed Adjustable Invector-Plus™ chokes for our Back-bored™ barrel system. We designed them to obtain a perfect target at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting.
(Cyl = 15m, ¼ Choke = 20m, ½ Choke = 25m, ¾ Choke = 30 m)

BROWNING
ANTICIPATION

OUR GUNS ARE ALSO DESIGNED FOR LEFT HANDERS

BECAUSE EVERY SHOOTER HAS THE RIGHT TO TOTAL COMFORT.

NO-ONE IS LEFT OUT: TRUE LEFT HAND!

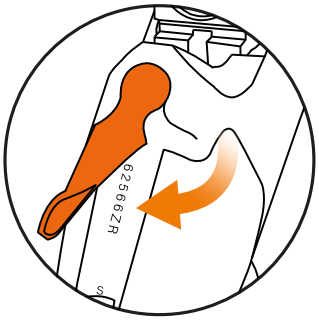

Hunters and shooters have at least one thing in common:

their unwaveringly high demands. They push themselves as hard as their equipment when it comes to reaching their targets.

A gun that fits your body and your requirements is the best stepping stone to success. Browning has also thought of left-handed shooters with its True Left Hand models.

The stock on these models is designed to fit perfectly in the left shoulder.

But the innovative feature is in the top lever, which - you've guessed it - opens to the left! Now left-handed shooters can get back to shooting by instinct and enjoy a gun made for them.

B725 GAME 12M

B525 EXQUISITE 12

B525 GAME 1 LIGHT 12M

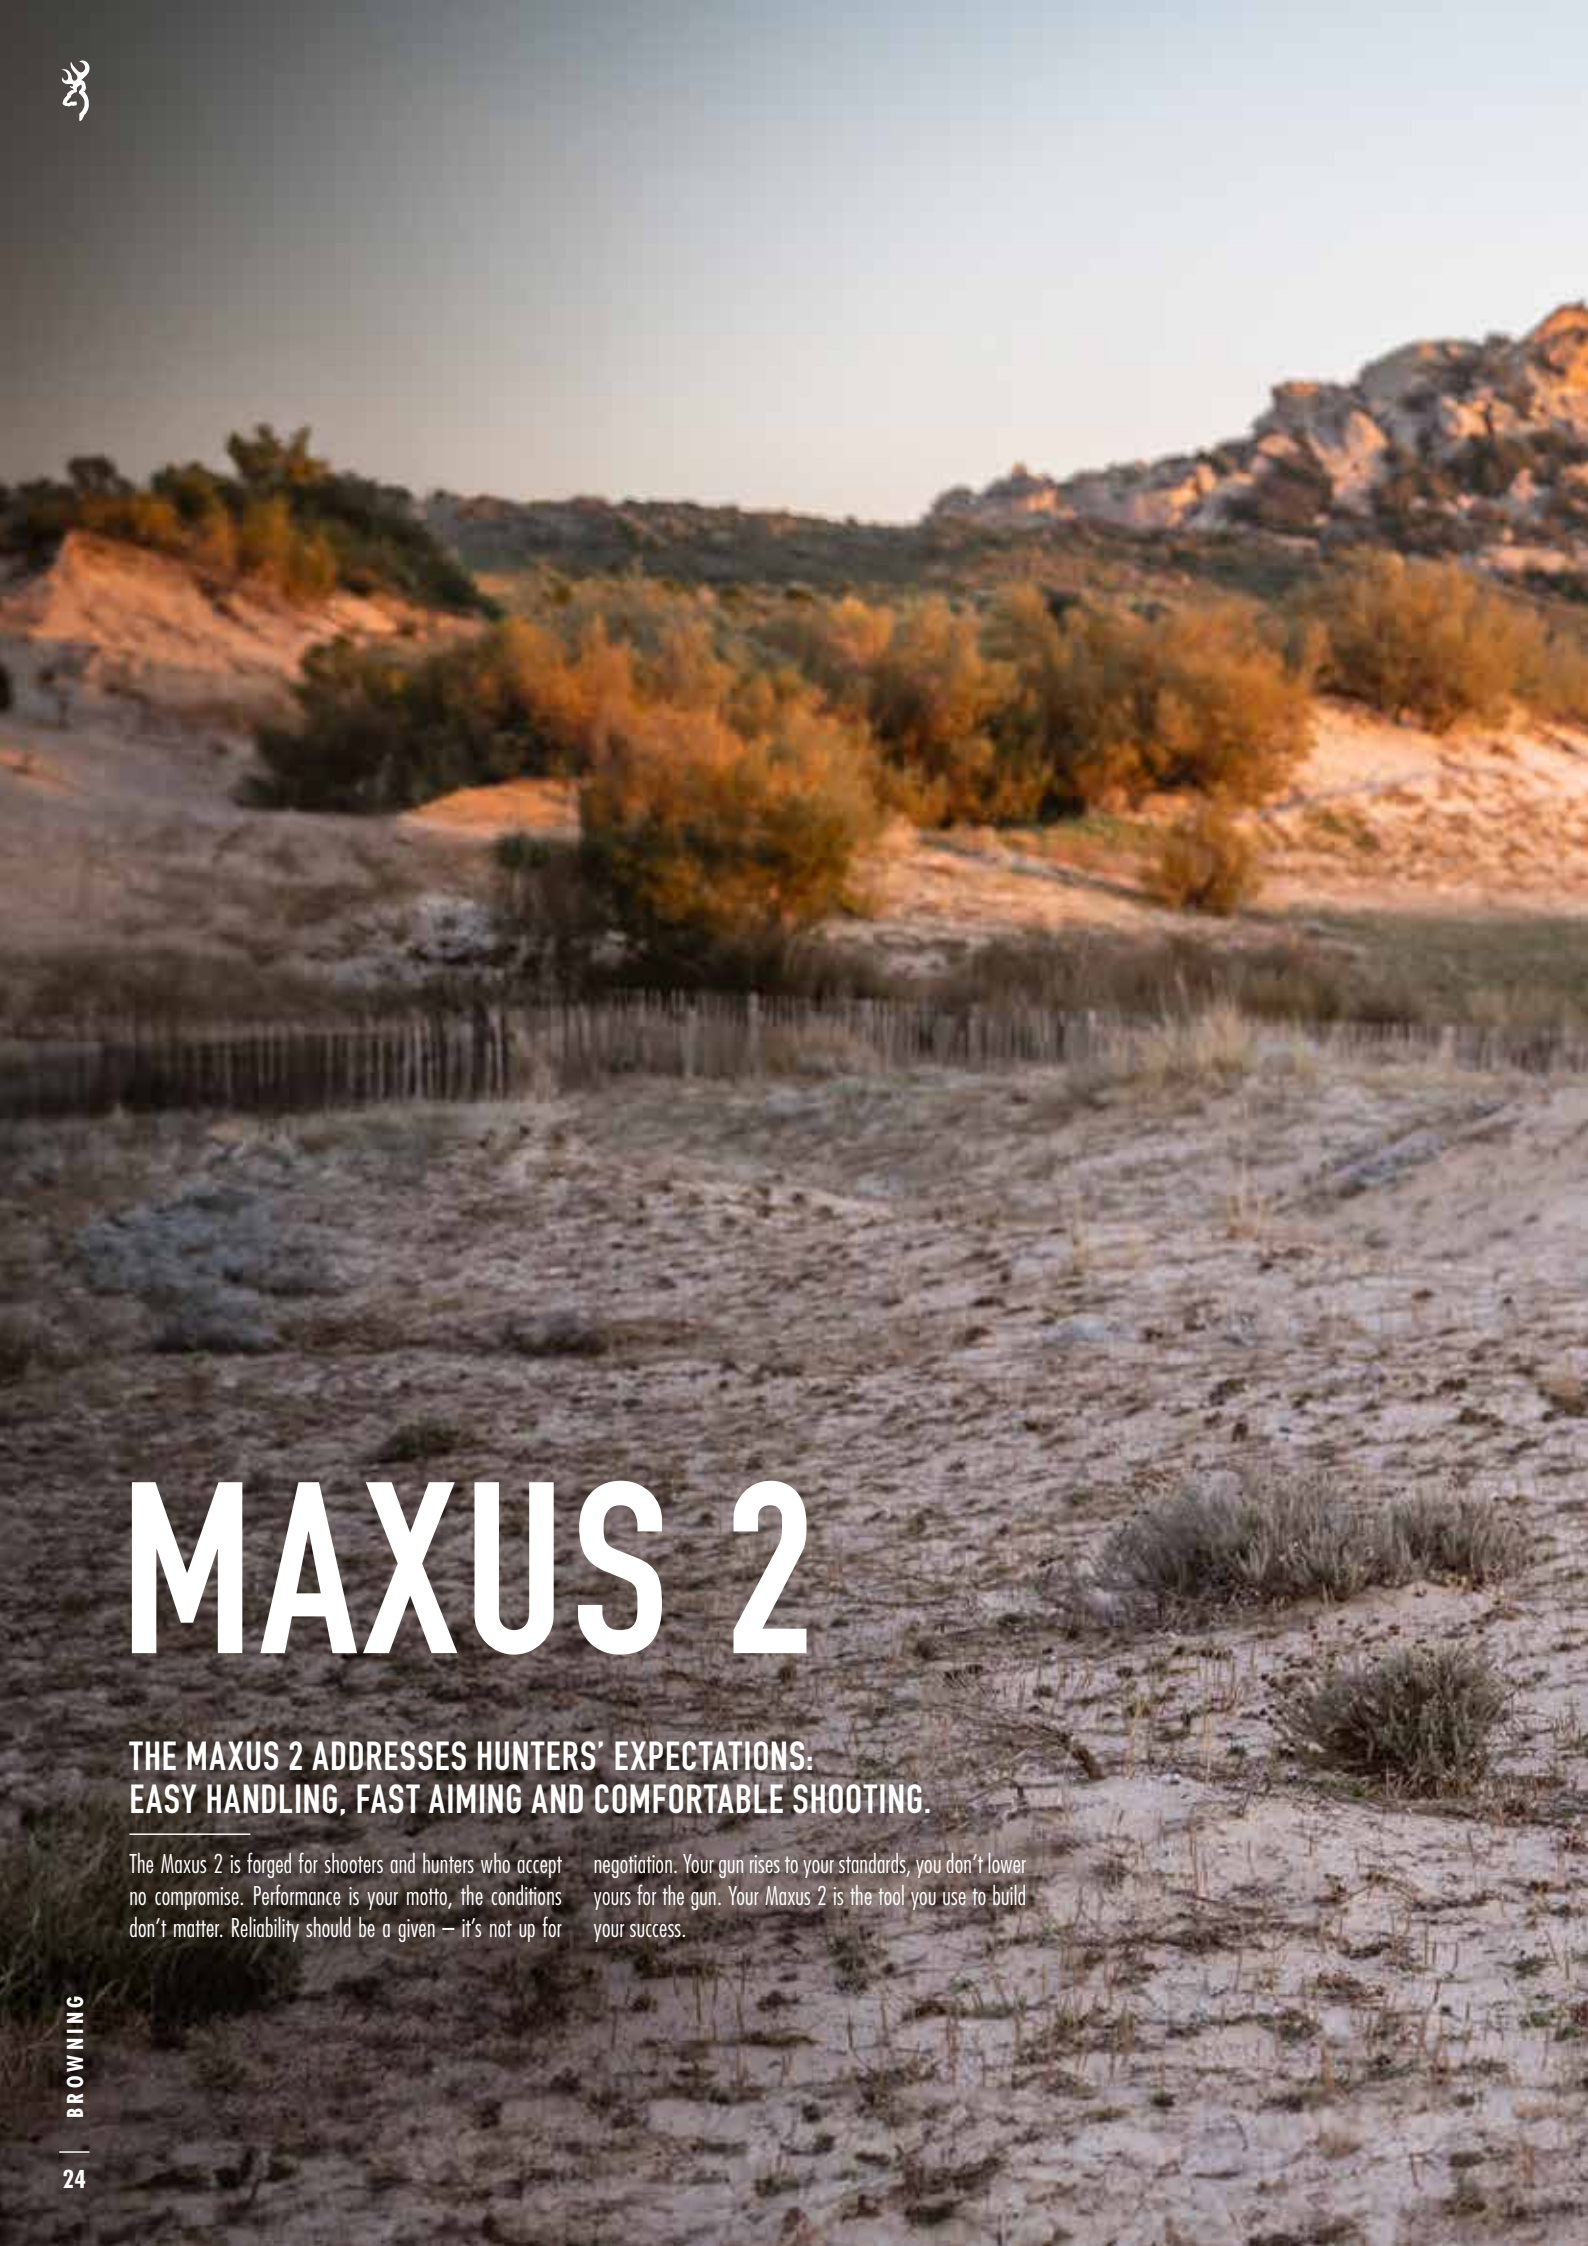

B525 LIBERTY LIGHT 12M

B525 GAME LAMINATED 12M

MAXUS 2

THE MAXUS 2 ADDRESSES HUNTERS' EXPECTATIONS: EASY HANDLING, FAST AIMING AND COMFORTABLE SHOOTING.

The Maxus 2 is forged for shooters and hunters who accept no compromise. Performance is your motto, the conditions don't matter. Reliability should be a given – it's not up for negotiation. Your gun rises to your standards, you don't lower yours for the gun. Your Maxus 2 is the tool you use to build your success.

MAXUS 2

MAXUS 2 WOOD ULTIMATE 12M

Fans of beautiful engraving, admire the Maxus 2 Wood Ultimate. The finely cut engraving on the grey receiver are further enhanced by the grade 3 walnut stock. The stock can also be easily adjusted with the spacers and inserts supplied in the ABS case.

1

INFLEX™ II RECOIL PAD

Much more than a recoil pad in a recoil-absorbing material, the Inflex™ II has been designed with an internal structure that lowers the gunstock and pushes it away from the shooter's face after each discharge, which allows a second shot that is even more comfortable and faster.
Available in 12, 20, 25 or 32 mm.

2

SPEED LOADING AND UNLOADING SYSTEM

Rapid loading systems have been used on Browning semi-automatic shotguns for decades. Our patented Speed Load Plus system chambers the first round straight from the magazine, and unloads quickly without having to run the bolt to chamber each shell.

3

MAGAZINE CUT-OFF

All our Maxus guns, with the exception of the sporting models, are fitted with a magazine cut-off for unloading and replacing the chambered shell with a new load without having to cycle the new shell from the magazine.

4

POWER DRIVE GAS SYSTEM

The Power Drive Gas System uses larger escape valves to remove gas more quickly with heavy loads.
A brand new patented design for an integrated valve keeps residue outside the mechanism for cleaner functioning. A 20% increase in the piston run makes it even more reliable with light charges.
The system works with loads of 24g to 64g.

MAXUS 2 WOOD BLACK GOLD 12M

The Maxus 2 Wood Black Gold is made for those who think beauty is in the contrast. The vividness of the gilts ducks is enhanced by the black of the receiver and matt barrel. The fine grade 3 walnut rounds off a shotgun that looks set to become a classic.

MAXUS 2 HUNTER 12M

The Maxus 2 Hunter brings you grade 2 walnut with a black receiver. This semi-auto shotgun comes with five chokes and is as versatile as it is comfortable to shoot. The 32mm Inflex™ II pad provides perfect recoil absorption, leaving you to focus on the game.

LIKE THE OTHER BROWNING BRAND GUNS, THE MAXUS 2 RANGE CONTINUES TO DEVELOP.

MAXUS 2 COMPO

MAXUS 2 COMPOSITE BROWN 12M 3.5"

The Maxus 2 Composite Brown is actually a two-tone brown and black. The Reactar™ gel cheek pad and Inflex™ II pad go a long way in absorbing recoil. With its pistol grips and grips on the fore-end, you know you've got everything perfectly in hand, in any weather. The bolt handle and cocking handle are oversized for easy handling, even with gloves on.

MAXUS 2 COMPOSITE BLACK 12M 3.5"

The noticeably low recoil and the speed loading and unloading system make this gun a one of a kind with comfort to match its performance. The Maxus 2 Composite Black delivers in any situation.

MAXUS 2 COMPOSITE BLACK CF 12M

This model retains all of the specific features of the Maxus 2 Composite Black, combined with a carbon finish that gives it a strikingly modern look.

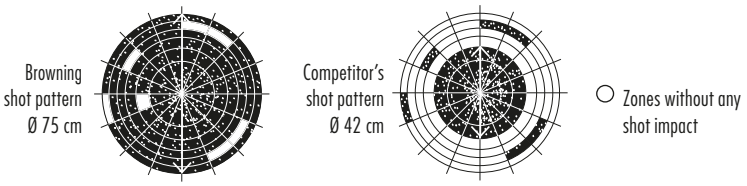

THE PERFECT TARGET

Adjustable Invector-Plus™ chokes have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'a perfect target' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting (Cyl = 15m, ¼ Choke = 20m, ½ Choke = 25m, ¾ Choke = 30m).

MAXUS 2 CAMO

THE MAXUS 2 COMBINES COMFORT AND VIGOUR FOR PEAK PERFORMANCE

MAXUS 2 CAMO AURIC 12M 3.5"

NEW

Camouflage is science with a touch of art. The Maxus 2 Camo Auric will blend in perfectly with the flora usually found in wetland environments. The Maxus 11 can fire a wide choice of loads from 24 to 64 grams with a reliability beyond reproach. The magazine cut-off lets you get over obstacles without emptying the tube.

MAXUS 2 CAMO MAX 5 12M 3.5"

A model designed par excellence for waterfowl hunters. The gun is coated with the Max 5 camouflage film, the most effective camouflage for waterfowl. It has a super-magnum chamber so you can shoot 70mm-89mm steel shot cartridges.

MAXUS 2 CAMO MOBUC 12M 3.5"

Perfect for marshlands or woods, this Maxus super-magnum is made of a composite material, with a fine MOBUC camo finish: nothing better for blending into the landscape while you wait for the birds to arrive.

BROWNING
CONTEMPLATE

A5

RELIABLE WITH ANY TYPE OF LOAD, IN ANY EXTREMES OF WEATHER AND DIRT

The A5 was developed to be the most reliable semi-automatic shotgun on the market. The indefatigable Kinematic Drive™ system is what makes it so unfailingly reliable, while further innovative features such as the Invector DS™ chokes, Inflex™ II recoil pad and Speed Load Plus load/unload system add to the A5's technological punch.

A5 ULTIMATE

A5 CLASSIC ULTIMATE BECASSE 16

The A5 is built on History. This heir to the world's first semi-auto shotgun, the legend-ary Auto-5, now comes in a 16-gauge version that combines the effectiveness of the 12-gauge with the light weight of the 20-gauge. Active hunters know their stuff and are giving this gauge a new lease of life. Woodcock hunters will appreciate the engraving of the golden-brown bird on the nickel-plated receiver. This shotgun is available with a 26- or 28-inch barrel.

1

INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun.
Available in 12, 20, 25 or 32mm.

2

HUMPBACK

Made from lightweight, aeronautic quality aluminium alloy, the A5's receiver is sturdy and its characteristic shape is much more than just a nostalgic return to the past. The receiver's familiar humpback shape fits perfectly with the rib for lengthening your line of sight, which helps you to aim naturally with faster targeting.

3

SPEED LOADING AND UNLOADING SYSTEM

Rapid loading systems have been used on Browning semi-automatic shotguns for decades. Our patented Speed Load Plus system chambers the first round straight from the magazine, and unloads quickly without having to run the bolt to chamber each shell.

4

KINEMATIC DRIVE™ SYSTEM

The system accumulates recoil energy and converts it into a mechanical movement for actuating moving parts. The effectiveness of the Kinematic Drive™ system comes from its simple design that means consistent and reliable operation and effortless maintenance.

5

BACK-BORED™ VECTOR PRO™ BARREL

The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

6

INVECTOR DS™ CHOKES

The Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80mm, an exclusive internal shape and a patented gas seal segment.

A5 CAL12

SOME THINGS NEVER GO OUT OF FASHION

The A5, the direct heir to the legendary Auto-5, is one. Other things fall out of favour and then become flavour of the day once again. Its unique technical features make this semi-automatic a shotgun for the future — your future.

A5 ULTIMATE PARTRIDGES 12M

A blend of innovative technology and aesthetic appeal. The nickel-plated receiver features finely engraved partridges and pheasants on the wing. The A5 is also impressively specced, with a Back-bored™ Vector Pro™ Invector DS™ barrel, Inflex™ II recoil pad and the Kinematic Drive System. The grade-3 walnut stock has an oil-rubbed finished.

A5 ONE 12M

The A5 One Invector DS™ is the starter version of the A5 family, with an understated receiver that is enhanced by the walnut stock and fore-end. It features all the technical specifications behind the success of the A5. It is available in 12-gauge.

A5 GRAND PASSAGE MAX 5 12M 3.5"

Here is the terror of all wildfowl and pest birds. The A5, available in 12/89 (3½in), includes Invector DS™ chokes and now comes with a hi-tech, ceramic-based Cerakote finish on the barrel, receiver and breech handle, designed to protect against natural wear and corrosion. Its Camo Max 5 composite gunstock and fore-end continue to make it the duck and pigeon shooter's ideal companion.

BROWNING
READY

BAR 4X

MODULAR, CUSTOMISABLE AND AVAILABLE, ALL IN ONE

Browning is the undisputed leading specialist of semi-automatic rifles , with 55 years of experience in the field. It owes its title to the quality of its firing mechanisms, the gentle gas-operated action that results in minimum recoil feel, its reliability, but also, and most importantly, to the fact that it has always moved ahead to bring you ever-higher performance.

BAR 4X

NEW

NEW: NOW IN COMPOSITE VERSION

A year after the official launch of the new generation Bar, the Bar 4X, we're delighted to announce the addition of a whole range of new features to our online configurator.

BAR 4X COMPOSITE NEW

1

STOCK/HANDGUARD KITS

Composite stock/handguard kits are ambidextrous, so they are equally compatible with left-handed and right-handed Bars.

2

OVERMOULDED GRIPS

Overmoulded grips ensure optimum grasp.

3

STOCK

The stocks come with a fixed cheek rest which can be easily removed by taking out two screws.

4

ADJUSTABLE CHEEK

Ideal, then, if you want to install our adjustable cheek rest in place of the fixed cheek rest. This stock ensures maximum shooting comfort, as it can be adjusted both up and down and side to side. In short, ideally positioning your eye in line with the reticle of your telescopic sight.

5

ADAPTABILITY

The stock's adaptability is further enhanced by the ease with which you can change the Inflex II butt plate. Perfect for modifying the overall length of the stock during the season.

CREATE YOUR OWN BAR 4X

NEWS: BAR 4X TRACK / BAR 4X HUNTER LEFT HAND

BAR 4X TRACKS NEW

The Bar has built its legend on driven hunts. The Bar 4X Tracks features a short barrel for maximum mobility: 47cm in 308Win, 30-06Spr and 9.3x62. The 300WM is fired from a 51cm barrel. There is an attractive buckmark on the black frame. The weapon comes with tracker sights.

BAR 4X HUNTER LEFT HAND NEW

We've also thought of lefthanders with the Bar 4X Hunter Left Hand. The barrel is 53cm in 308Win, 30-06Spr and 9.3x62. All the power of the 300WM is perfectly exploited thanks to the 61cm barrel. Note also the introduction of the 7mm Rem Mag calibre. Ideal for long-range shooting, this calibre is available for the Bar 4X Hunter Right Hand.

KITE OPTICS

MARAL 4X

MODULAR, CUSTOMISABLE AND AVAILABLE, ALL IN ONE

A real technical revolution, its quick-loading system offers shooters incomparable speed and unprecedented firing comfort. Browning combines this new technology with all the experience it possesses in barrel-making and its expertise in safety with its 7-lug bolt, which already equips over a million rifles throughout the world. Efficiency can also be measured when you look at the breech, which is always contained inside the bolt-casing. This enables shooters to keep their target in their sights continuously when firing.

MARAL 4X

NEW

NEW: NOW IN COMPOSITE VERSION

We want to continue bringing you innovative products that go beyond your expectations. This is how the Maral 4X range came to be. How did we do it? We took a new look at our current products, expanded the range and customised the gun the way you want.

1

IMPROVED ACCURACY

The Maral 4X are even more accurate than their predecessors, and they were already renowned for their excellence. This feat was made possible by a barrel thread assembly. But that's not all! The receiver-to-barrel connection is also more solid. The bearing surfaces and the thickness of the wood have been increased.

2

STANDARDISED BARRELS

The 4X range was developed for modular comfort and ease of customisation. Manufacturers know that any modular system requires a common base. This is why all the barrels on the new Maral 4X are fluted and threaded. We've also taken a look at the sights and included a modular barrel-mounted sighting system that can be re-configured in seconds. The barrel is also pre-drilled to accommodate a battue rib, sights for tracking and hide hunting, or a Kite Optics K1 Reflex red dot sight.

3

SUPERLATIVE HAND COCKING SYSTEM

The stroke of the hand cocking system has been reduced by 25% to make handling easier. The knob is also larger for easier handling. The Browning hand cocking system now also comes as standard on all Maral 4X.

4

A STOCK FOR EACH SHOULDER

Wood or composite, the choice is yours! Whatever your preference, the Maral 4X will meet your expectations. Lovers of wood can choose between different styles of stock: pistol grip or Bavarian. You can also choose between several wood grades. 2024 sees the arrival of composite in our catalogue of stocks. Composite has a double advantage: not only is it tough, but it also allows you to go much further in terms of customisation. A butt plate that can be removed in seconds, an adjustable cheek rest, and a choice of colour: spoil yourself!

5

NEW-LOOK AESTHETICS

The new styling of the Maral 4X will immediately catch your eye. A number of the Maral 4X models feature a new engraving.

CREATE YOUR OWN MARAL 4X

NEWS: MARAL 4X ULTIMATE / MARAL 4X NORDIC

MARAL 4X ULTIMATE NEW

The ultimate gun. The Maral 4X Ultimate redefines the notion of elegance with its nickel-plated receiver and intricately cut engraving enhanced by the subtle touch of gilding. The fastest straight-pull rifle on the market is also the most appealing.

MARAL 4X NORDIC NEW

Understated and effective. This all-black rifle features a short barrel for better wieldability. Ideal when hunting in dense plant growth.

Guns and ammunition can only be sold to holders of a legal licence who are of legal age

X-BOLT

PROBABLY THE BEST RIFLE ON THE MARKET

The X-Bolt was built on the foundations of the success of previous Browning rifles, carrying numerous innovations that without doubt make it one of the best rifles on the market. In 2014, Browning presented the new X-Bolt 'super feather trigger'. It equipped every single X-Bolt. Since then, constantly endeavouring to evolve and attain perfection, Browning's engineers have taken a close look at how to define a perfect trigger. The new Super Feather Trigger optimizes the trigger load (trigger movement reduced to a minimum and optimal pull) and increases sensations tenfold when firing. It makes a perfect rifle in your hands — a rifle that possesses the finest hold and which will offer you countless moments of emotion. Your high standards are your greatest attribute. You won't accept failure. You need a rifle that reflects who you are: efficient, accurate and focused on results.

X-BOLT PRO

THE BENCHMARK FOR BOLT ACTION RIFLES

X-BOLT PRO CARBON 2

Scope not supplied

The X-Bolt Pro Carbon 2 is designed for you. It handles with featherweight ease so that you can take your active hunting experience to a new level. The rigidity of the stock gives you even greater accuracy.

1

CARBON-FIBRE STOCK

The X-Bolt Pro Carbon 2 is:
- Ultra-light and sees its weight reduced by 200g.
- Ultra-rigid for uniform recoil distribution.
- Ultra-tough in compressed carbon fibre with a high-density foam core.

2

FLUTED BOLT AND HANDLE

The externally fluted bolt and bolt handle provide smoother action for a rapid shot.

3

CERAKOTE "TUNGSTEN" FINISH

The X-Bolt Pro is Cerakote finished on all its metal components (including the optics) and on the magazine floor plate. The result is better resistance against any type of friction, abrasion and corrosion.

4

INTEGRATED MOUNTING SYSTEM

The integrated scope-mounting system has four screws per fixing point. Therefore it is more stable and provides greater accuracy.

5

DOUBLE BEDDING

A free-floating barrel is essential for utmost accuracy. The X-Bolt's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel/breech block assembly at two points with respect to the forearm, at the front and at the rear.

6

HIGH-PRECISION BARREL

The fluted barrel on the X-Bolt Pro ensures it stays cool and reduces weight. The barrel lapping process polishes away any traces of machining work, improving accuracy and reducing fouling.

ACCURACY,
LIGHTNESS
AND ELEGANCE.

X-BOLT

MISSING IS NO LONGER AN OPTION

X-BOLT COMPO BLACK

Scope not supplied

The X-Bolt Compo gets a facelift with this Black version. The bolt handle is a two-piece design with a hexagonal knob. The Compo Black still retains all the features that have made the X-Bolt a success: the incredibly supple trigger, the deadly accuracy, and the unrivalled shooting comfort you get from the Inflex™ II recoil pad.

1

INFLEX™ ANTI-RECOIL BUTT-PLATE

This extra-soft pad offers the best recoil absorption possible on a rifle. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the gunstock slightly away from your face in order to reduce the recoil and upward motion of the gun.

2

BOLT-UNLOCKING BUTTON

The bolt latch button works with the safety and can be used safely to remove the ammunition from the chamber.

3

THE X-BOLT RANGE FEATURES A SHORT, CRISP AND DIRECT SUPER FEATHER TRIGGER PULL

Firing action with a triple guarantee:
- Zero take-up.
- Minimum break.
- Limited overtravel.

4

ROTATING MAGAZINE

Made in light, ultra-resistant polymer, it gives exclusive protection to bullet tips.

5

INTEGRATED MOUNTING SYSTEM

The intagrated scope-mounting system has four screws per fixing point. Therefore it is more stable and provides higher accuracy.

6

UTMOST ACCURACY

A free-floating barrel is essential for utmost accuracy. The X-Bolt's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel/breech block assembly at two points with respect to the forearm, at the front and at the rear.

X-BOLT COMPO BROWN

This rifle in a brown finish includes an adjustable comb for an adaptable gun fit. It comes with an oversized two-piece bolt knob. The fluted barrel is also threaded (M14x1) ready for mounting a sound moderator or muzzle brake.

X-BOLT HUNTER II MONTE CARLO

Available in a left-handed version

This sight-free version has an M14x1 threaded barrel. It is available in a left-hand version and in .243 Win, .30-06 and .308 Win calibres. This model features a Monte Carlo stock is designed for use with scopes.

X-BOLT ECLIPSE HUNTER BROWN

Available in a left-handed version

The styling isn't the only distinguishing feature on the X-Bolt SF Hunter Eclipse Threaded. The laminated wood stock is graced with a thumbhole that provides a natural fit to guarantee a firm but flexible grip for easier movement. Equipped for fitting a scope, and with the Super Feather Trigger system, the X-Bolt Hunter Eclipse rifle has a threaded barrel (M14x1).

BLR

THE PERFECT PARTNER ON DRIVEN HUNTS

Featuring a flawless mechanism, this is the only magnum calibre lever-action rifle.

BLR LIGHTWEIGHT TRACKER

The Tracker version of this lever-action rifle includes a laminated wood stock. It has been treated to an ultra-strength Cerakote surface treatment for unbeatably long-service life. The sights and short barrel make this an excellent gun for driven hunts and tracking.

BLR HUNTER LAMINATED

The BLR is the only lever-action rifle developed in magnum calibres. Its mechanics are impeccable and characterised by the exceptional smoothness of its operation. It has a removable magazine, a high quality barrel and is ready for fitting a scope.

WHY CHOOSE A LAMINATED/GLUED WOOD STOCK ?

- The first and foremost advantage of a laminated/glued wood stock is the high density of the material that makes it extremely robust.
- Laminated/glued stocks are far more resistant to abrasion and humidity.
- The glue that we use to bond our birch stocks can also withstand water.
- Whether you're on the range or on a hunt, you don't have to worry about getting your gun out. This is where this stock really excels.
- The stability of a laminated/glued stock improves the gun's accuracy slightly, and above all its service life.
- The birch wood is dyed in the mass, so you can make it look as good as new just by sanding, without having to re-apply colour.
- We do not use any substances that are toxic to the environment or the gun user.

KITE OPTICS

A-BOLT 3+

A LEGEND IN THE MAKING

You want unique experiences. You are unique and, with you, so is your rifle. With the generation of A-Bolt 3+, you can customise your gun to reflect who you are.

The A-Bolt 3+ is as fearsomely accurate and versatile as ever, easy to handle and just as easy to personalize.

A-BOLT 3+

A-BOLT 3+ COMPOSITE

Scope not supplied

The A-Bolt 3+ Compo may look sober at first glance, but it offers an extensive range of customisation options. The stock comes with a black cheekpiece that can easily be swapped out for one of a different colour or for an adjustable comb. The fore-end is also replaceable.

CUSTOMISE YOUR A-BOLT 3+

1

DETACHABLE CHEEKPIECE

The cheekpiece on the A-Bolt 3+ can be replaced.
We sell cheekpieces as accessory items in a range of colours.
The stock is also pre-drilled for you to fit an adjustable comb.

2

REPLACEABLE BOLT HANDLE KNOB

The bolt handle knob is easy to replace.
A wide range of knobs are available to buy.

3

60° OPENING

The breech opens to 60° for fast cocking action with any size of scope in any position.

4

HIGH-CAPACITY DROP-BOX MAGAZINE

The 5 rounds in the .243 Win, .308 Win and .30-06 magazines offer you a margin of error. The magazine capacity for the .300 WM calibre is 3 rounds.

5

WIDE AND FLAT FORE-END

A fore-end is available in a very wide version to give you excellent grip and an advantage on a driven hunt, where every moment counts. It is also flat for better stability when your A-Bolt 3+ is resting on your bag or elevated hide. Available in different colours.

6

THREADED BARREL (M14X1)

On all models for attaching a muzzle break or sound moderator.

A-BOLT 3+ COMPOSITE BATTUE NEW

The A-Bolt 3+ also comes in a Composite Battue version. The 23mm bolt handle knob can be replaced with other knobs that are available as accessory items. The barrel is threaded for use with a sound moderator or muzzle brake.

A-BOLT 3+ COMPOSITE OD GREEN NEW

This highly customisable bolt-action rifle is available in green. The wide, flat fore-end guarantees maximum stability when you place it on your stand as you take the shot. As with the cheek piece, it can be swapped out for another fore-end in a different colour.

A-BOLT 3+ TRACKER

The A-Bolt 3+ also comes in a tracker version. The A-Bolt 3+ Tracker is extremely safe thanks to its bolt action and push-button safety, and features an 18½-inch threaded barrel for total ease of movement in even the densest of environments. The orange cheekpiece and fore-end make you more visible to other hunters. As with all the A-Bolt 3+ rifles, it offers extensive customisation options with a recoil pad, cheekpiece, bolt knob and fore-end that are all replaceable.

A-BOLT 3+ BLACK BEAST

The A-Bolt 3+ Black Beast is the bane of large game. With its adjustable comb and semi-weight barrel, it offers exceptional accuracy. The rifle is just as customisable as the A-Bolt 3+ Compo, and also compatible with the Kite Optics K1 Reflex red dot sight – the lowest mounted red dot on the market that lets you take highly instinctive shots.

A-BOLT 3+ HUNTER

The A-Bolt 3+ Hunter features a grade 1 walnut stock. The 23mm bolt handle knob can be replaced with other knobs that are available as accessory items. The barrel is threaded for use with a sound moderator or muzzle brake.

A-BOLT 3+ HUNTER BATTUE

The A-Bolt 3+ Hunter Battue will excel when you're at the peg on a driven big game day. The battue rib and fibre-optic sight will aid you in acquiring your game in record time. The 60° bolt angle lets you reload quickly without being hampered by your scope.

A-BOLT 3+

A HIGH-PERFORMANCE CARBINE AT A VERY INTERESTING PRICE

This rifle allies a modern production system with the trusted Browning quality in order to produce a high-performance carbine. The A-Bolt 3+ gives you the precision and performance you want in a hunting rifle and its cost-effective budget is a real delight.

T-BOLT

FEARSOMELY ACCURATE

The T-Bolt rifle from Browning is the reference in .22LR calibre recreational shooting. The T-Bolt is popular, with tens of thousands of units sold, and features a reloading system unlike any other.

T-BOLT SPORTER

This rifle is a re-release of a best-seller, a legend. Available in .22LR and 17 HMR calibres, it is aesthetically close to its ancestor, the first T-Bolt, but the mechanics have been completely modernised. It is characterised by its straight-pull bolt that loads cartridges from an exclusive ten-round rotating magazine.

1

STOCK

Wood stock and pistol grip.

2

BREECH AND BOLT

The breech of the T-Bolt is made of polished grey steel. The bolt is a straight pull that locks into the casing.

3

TWO-POSITION SAFETY

The ambidextrous safety is positioned at the rear of the breech casing. A red dot indicates that the gun is armed.

4

FIRING SYSTEMS

The smooth, wide gold-tone trigger gives you a sharp, crisp and direct break with zero travel. The pull weight is adjustable.

5

DETACHABLE TEN-ROUND MAGAZINE

The detachable Helix magazine is ergonomic and fast. It uses a rotary system and holds ten .22LR rounds.

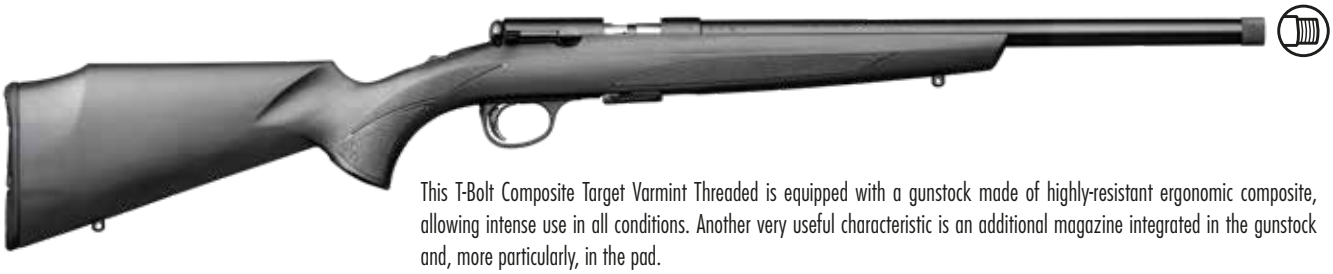

T-BOLT SPORTER COMPOSITE

Available in a left-handed version

This version is equipped with a gunstock made of highly-resistant ergonomic composite, allowing intense use in all conditions. Another very useful characteristic is an additional magazine integrated in the gunstock and, more particularly, in the pad.

T-BOLT TARGET VARMINT COMPOSITE

This T-Bolt Composite Target Varmint Threaded is equipped with a gunstock made of highly-resistant ergonomic composite, allowing intense use in all conditions. Another very useful characteristic is an additional magazine integrated in the gunstock and, more particularly, in the pad.

T-BOLT TARGET VARMINT BLUED LAMINATED ADJ

Scope not supplied

A bundle of joy! This straight-pull rifle will redefine your shooting experience with .22LR and 17 HMR calibres. The laminated wood stock is especially hard-wearing in harsh weather and harsh environments. Thanks to its adjustable comb, you will have your target sighted as soon as you shoulder.

RANGE
T-BOLT

THE UNDOUBTED ACCURACY OF THE T-BOLT RIFLES MAKES THEM THE ONE TO BEAT IN .22 LONG RIFLE CALIBRE RECREATIONAL SHOOTING.

PRODUCTS YOU CAN RELY ON

Browning offers a full range of clothing made to the same high standards as its guns. Our competitive prices and ultra-technical product range have firmly established us as an essential clothing brand for hunters and sport shooters.

PRE-VENT — Ultra-effective 10K/10K waterproof, breathable and wind-resistant membrane.

AIRFLOW — A design and manufacturing process that wicks sweat more effectively even during intense activity.

KEVLAR® — A fibre that is five times stronger than steel, weight for weight. Tracking jackets, your garments are equipped to take on the harshest environments.

Dyneema® — Ultra-tough, super-lightweight fibre. Used in dog safety vests, specially developed to protect against punctures.

PRE-VENT XTREM — Membrane that provides optimum breathability (20K) and outstanding water resistance (20K) to keep you dry all the time, in any weather and at any level of activity.

ARMORTEX — Armortex™ fabrics are a blend of Kevlar® para-aramid and polyamid that make for fantastically hard-wearing garments and the perfect barrier against brambles and thorns, while offering maximum protection for hunters.

CORDURA — Incredibly tough and lightweight fibre. It adds flexibility, lightness and strength to your clothes and dog jackets. When combined with elastane, it creates a tough yet light, flexible and stretchable garment.

PRIMALOFT — Primaloft fibres offer specialist market-leading, high-performance synthetic insulation solutions guaranteed to give wearers the best possible insulation in cold and wet weather without compromising on weight. Browning products made with Primaloft fibres are perfect for keeping the cold out when you're spending a long time on the peg.

Thinsulate INSULATION — Thinsulate is a top-of-the-range synthetic insulation fibre from market leader 3M that is perfect when you need clothing that is warm, light and thin. Browning clothes made with Thinsulate fibres insulate wearers against the cold, are extremely lightweight and can be easily stuffed into a bag for trouble-free storage.

ACTIVE EAR DEFENDER NRR23 DB – BLUETOOTH

BDM BLUETOOTH

THE BROWNING BDM BLUETOOTH EAR DEFENDERS OFFER PERFECT PROTECTION FROM SHOT REPORTS WHILE KEEPING YOU EFFORTLESSLY ALERT TO THE SLIGHTEST AMBIENT SOUND THANKS TO ITS TOPRANGE AMPLIFICATION SYSTEM.

Enjoy your day's hunting in total comfort with the gel pads.
The Bluetooth system keeps you connected the way you want.

Active ear defenders: lessens the report; amplifies ambient noise

Adjustable headband

Bluetooth connection: bluetooth sound adjustement independant from the extern sound adjustement

Jack socket: radio and phone

2 omni-directional mic

Thin shells for better shot comfort

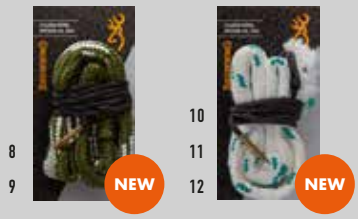

Gel pads: comfort and optional tightening

NOMAD

ULTRA-HIGH-PERFORMANCE REMOVABLE MOUNT: ONLY ONE ADJUSTMENT, MULTIPLE SCOPES ON MULTIPLE GUNS

A full mount consists of a base rail **A** (single or multiple) matched to the gun and a top rail **B** that is specific to the scope. The base rails are available in SINGLE or MULTIPLE versions. The multiple is adjustable in windage and elevation, and lets you use the same scope on a second gun.

PRECISE

The patented bolt technique gives perfect attachment, exceptional resistance and constant precision, whatever the scope used.

FAST

Using the thumbwheel attachment, change scopes fast, without running the risk of losing alignment.

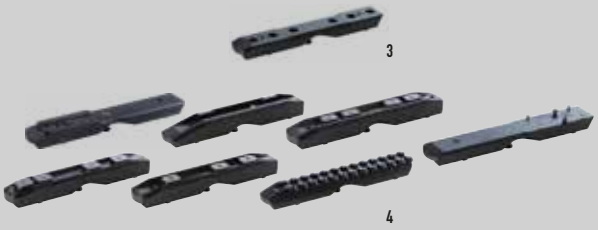

VERSATILE

With the NOMAD MULTIPLE base rail, adjustable in windage and altitude, you can now use all your scopes on any gun, without having to adjust your aim before each change.
